New Company Will Handle Appersons

T. E. Jarrard of Kokomo, Ind., has been in Omaha the last few days arranging for a new organization to handle the WILL HEAVILY POLICE Apperson Jack Rabbit cars during the year 1913. The organization was completed yesterday and consists of J. H. De Jong and Hans P. Neble. The former has been selling the Lauson Gas engine for the last eight years and is well known over the state.

Mr. Neble is well known in Omaha. He is an enthusiastic motorist. His two sons will also be associated with him in the new business. The Apperson car will be sold, for the present, from the old stand at Eleventh and Farnam streets. They will have samples of the 1913 Apperson Jack Rabbit cars here about the middle of July and from that time on have been assured of getting as many cars as the trade demands.

team and one of the two Missouri Valley conference school contestants, has written to Omaha friends telling of the voyage across the ocean and of the reception at Antwerp, the point from which he mailed the communication. The trip was a pleasurable one for the whole Uncle Sam contingent. Few of them were ill, and nearly all of them were in training on the Finland, the big boat on which they sailed, and which was fitted up like a modern gymnasium. A cork track had been provided for the runners, but the young Cornhusker said that three or four trials on this path made his muscles sore, so that he was forced to quit the boat running. Other members of the crew did real well in the training The Americans were in fine shape when

The first was a seven-heat race and the last a five-heat. Shadeline won the free-for-all for 3-year-olds at the Iowa State fair last year and the week following won in the same class at the Nebraska State fair at Lincoln, taking a mark as a 3year-old of 2:15%, with a capacity of 2:10 on a half-mile track, which, had he been driven out to that record, would have established a world's record for his age on such a track.

In some quarters the choice has been regarded as the best possible and in others as unsatisfactory. The individual claims of T. M. Mavrogordato and M. J. G. Ritchie have been stoutly advocated and the suggestion made that Dixon should concentrate his energies on the singles. In the event of Roper Barrett playing in doubles. only the name of A. H. Lowe has been freely mentioned for the singles, and it has been hinted that the selection committee should delay its final choice until it is seen how J. E. H. Zimmerman de velops his form. This is a high compliment to the young player who gave C. P. Dixon such a capital match at Croydon, and it will be interesting to see how Zimmerman fares against the cracks on J. C. MOTORISTS MAKE LONG STOPS AT MANAWA PARK

Only autos and carriages travel the county road that runs through Manawa to the edge of the lake. Hence it is clean of dust and motor parties stop there under the shade of the tall trees and lunch or enjoy the music or go on to the restaurant, the ball room or the beach. Some of the happiest parties last Sunday were those going over in the cool of the day in their motor cars for they got the long dustless drive, the shade and the breeze off the lake as they lunched and they sighed when it was time to turn back toward home.
