OMAHA, July 6, 1912. OMAHA, July 6, 1912.

Further liquidation and heavy selling of wheat brought about a collapse in market values today.

The sharp declines in cash values at southwestern markets indicates a probable early and heavy run of new wheat, and more favorable crop news helped along the bearish sentiment.

Selling has been heavy for several days and the break in prices violent and the situation suggests caution about pressing the selling side.

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, Ill., July 6.—Grain holders today encountered the most disastrous markets of the week. The entire list of cereals became demoralized. Wheat, which for the first time in a long while fell below the dollar a bushel level, closed heavy, 14c to 1461%c under last night. Corn finished 46%c to %c down, oats off 46%c to 34c, and provisions at a decline of 10c to 37%c.

Wheat speculators who have been attempting to lift quotations found them-

The more burdensome liquidation in The more burdensome liquidation in wheat came during the last hour. One leading house surprised the pit with sales of 1,000 bushels. It was at this point that September whirled down to the below the dollar mark. September fluctuated from 99%c to \$1.01%2.01%, with last sales, 99%699%c, a fall of 1% 61%c, compared with twenty-four hours before.

September corn ranged from 66%c to 67%c, closing depressed 1/6%c net lower at 66%267c. Cash grades were in poor request. No. 2 yellow, 71671½c.
Oats reached the lowest level of the season with the July option off 15c from recent high figures. The immediate reason was a report that oats were being bought in western lowa at 30c a bushel. September swung between 36c and 36%c, with the close 1/6%c under last night at 366/36%c.

In the end pork became less expensive, 30c to 37%c, with lard and bacon off respectively, 30c to 27%c, and 10c to 15 at 16%c. Article Open. | High. | Low. | Close. | Yes'y. July 1 0514% 1 0674 1 04 1 0414 1 0514

CATTLE—As was the case yesterday there were not enough cattle of any kind here to really make a market today. The intervention of a holiday toward the latter half of the week naturally interferes with the movement of stock so that the receipts for the week show a very heavy reduction as compared with last week and for that matter are considerably smaller than for the corresponding time last year.

Strictly good to choice cornfed beeves have been very scarce all the week and the market has shown no change, being fully steady and in fact, if anything, strong. On the other hand grassy grades and everything ranging from common to pretty good killers can be quoted at 18,972c lower than the close of last week. The best dry lot cows and helfers are extremely scarce, very few being received at the yards. The feeling on stock of that kind is fully steady with last week. The general run of cows and helfers at the same time is around 25c lower than last week or about \$1 lower than hast week or about \$1 lower than he high time two weeks ago. The break in stock cattle and feeders as the same time is around 25c lower than last week or about \$1 lower than he high time.

Quotations on cattle: Good to choice beef steers, \$3.9028.02; fair to good beef steers, \$3.9028.02; fair to good stockers and feeders, \$3.5007.20; common to fair cows, \$2.2007.20; good to choice stocks and feeders and feeders, \$3.5007.20; common to fair cows, \$2.2007.20; good to choice stocks and feeders, \$3.5007.20; common to fair cows, \$2.2007.20; good to choice stocks and feeders, \$3.5007.20; common to fair cows, \$2.2007.20; good to choice stocks and feeders, \$3.5007.20; common to fair cows, \$2.2007.20; good to choice stocks and feeders, \$3.5007.20; common to fair cows, \$2.2007.20; good to choice stocks and feeders, \$3.5007.20; common to fair stockers and feeders,

quote the general run of stockers and feeders as right aroung \$1 lower than the high time.

Quotations on cattle: Good to choice beef steers, \$8.40@9.25; fair to good beef steers, \$1.90@8.40; common to fair beet steers, \$5.00@7.90; good to choice helfers, \$4.00@7.25; good to choice cows, \$5.25@6.25; fair to good cows, \$4.25@5.26; common to fair cows, \$2.50@4.25; good to choice stockers and feeders, \$4.00@6.50; fair to good stockers and feeders, \$4.50@5.26; fair to good stockers and feeders, \$3.50@4.50; stock cows and helfers, \$3.25@4.75; veal calves, \$4.50@7.75; bulls, stags, etc., \$4.00@6.50.

HOGS—With only a moderate supply of hogs on hand for a Saturday the market opened this morning with prices strong to 5c higher. Both packers and shippers filled most of their orders at an early hour, the bulk of the hogs having changed hands by 10 o'clock in the morning. Toward the close, however, after the more urgent orders were filled, a good share of the buyers dropped out and the trade weakened, all the advance of the morning being lost.

It was an old-time, one-price market.

weakened, all the advance of the morning being lost.

It was an old-time, one-price market, pretty much everything in the yards having any quality whatever and regardless of weight seiling at \$7.25. The less desirable loads, both heavy and light, sold largely at \$7.20% and under. On the other hand there was a sprinkling of the best heavy and best light loads at \$7.27% of 1.30. The latter price was the top of the day for full loads.

The week's trade may be quoted as closing just about 10c lower than the close of last week. Receipts for the week amount to \$1,000 head, which is about \$7,000 head more than for the corresponding time a year ago.

SHEEP—There were no fresh receipts of sheep and lambs this morning to make a market. In spite of the fact that a holiday intervered the receipts this week show a little gain over last week and a heavy increase as compared with two weeks ago. The run is also larger than far the corresponding week of last year. While there have been a few cars of natives and fed stock the big bulk of the receipts has consisted of western wethers and spring lambs. On account of large receipts at all points on Monday there was a sharp break in prices, but under the influence of the good demand for all kinds of desirable fat sheep the market reacted on Tusaday, and before the close of the week all of the decline had been regained. Thus it is safe today to quote fat sheep as steady to strong as compared with last week's close.

Lambs have been in good demand all the week and have sold to very good advantage. Though lower than the early part of last week the market at the present time is not very much different from the close of last week, certainly not more than 2c lower at the most. As compared with other market points prices have been very high and the market entirely satisfactory to the selling interests. Pretty good but not choice Gregon ambs sold here yesterday at \$1.30, while choice to fancy native lambs only reached \$\frac{2}{3}\$ at Chicago.

It is still too early to expect any busi-

lambs. A little bunch of Oregon spring box, \$3.00; Valencia oranges, all sizes, Quotations on shoep and lambs: Good spring lambs, \$7.00@7.85; fat range year-lings, \$5.25@5.50; fat range wethers, \$4.50 per crate of @4.85; fat range ewes, \$3.75@4.00.

Mr. Herriman had been out all night driving Fourth of July celebrants to their homes When within a mile from the city, and after rounding a sharp curve 'n the road he fell asleep. Ten rods ahead of him was a cement bridge spanning a tenfoot-deep ravine. His wheel turned a little to the side of the road and struck the approach and the car turned uptide down into the ravine. Immatately it caught fire and was completely purned. Mr. Herriman doesn't know how he escaped, but he knows he did. Help came from all points of the compass, and regardless of the flames bursting from the roof of the building the home was saved. Magnella sent four automobile loads of fire fight-
