WASHINGTON, July 8 .- A sharp difference along political lines has developed in the senate over the proposed impeachment of Judge Robert W. Archbald of the commerce court. Many senators, including influential republicans, favor deferring the trial until after the November elections, contending that ample time should be given to prepare for the hearing of the impeachment charges and that many senators are needed at home to look after their political fences.

Among others are Senators Balley and Reed, democrats, who urge that impeachment proceedings are of such high privilege that they should be taken up as soon as the house shall prefer charges, irrespective of the personal comfort and convenience of senators.

The thirteen articles of impeachment, each an accusation, were presented to the house today with the announcement that their consideration tomorrow would be demanded. Speaker Clark emphasized the solemnity of the proceedings by se-

The committee's report and the resolution calling for the impeachment were ordered printed and distributed to members without the voicing of a single objection.

The portion of the report she referred to charged "stuffing of the enrollment at the convention in Boston two years ago," when Mrs. Young was chosen president. Mr. Shepard replied to criticisms from President Carroll G. Pearse that he had been attempting merely to weed out "fake" members. No sooner had he made the remark than James Ferguson of San Francisco secured the floor.

"I want to know by what right an officer of this association judges who are and who are not fake members." demanded Mr. Ferguson.

Mr. Shepard then explained he had been trying to administer the by-laws so as to eliminate all but bonafide members. He charged that heretofore by paying \$2 ate believe the vote will be against him. members had been enrolled to vote at single meeting.

After motions to appoint committees to investigate the subject had been lost the directors postponed discussion until tomorrow, when Mr. Shepard is to submit a written reply.
