BRANDEIS STORES

TO CONTEST DRAINAGE DITCH

Property Owners Say They Are to Receive No Benefits.

OTHERS ARE TO BE HELPED

Claim is Made that Property Owners Along Papillon Creek Watershed Have to Pay When It Will Not Help Them.

Charging that the creation of the Papillon drainage district was merely a pretense and that they are about to be forced to help pay for a drainage ditch of absolutely no service to them, Rebecca M. White and Mrs. Anna B. White Baker have started action in district court to escape assessments for construction of the ditch.

The defendants are W. G. Ure, treasurer of Douglas county, the Papillon drainage district, and Jud M. Gates, Adam Kae, Jr., Henry Bormann, Francis Fricke and L. L. Lutz, leaders in the movement for the creation of the district.

The plaintiffs allege that they own property on the Papillon creek watershed, which will receive no benefit whatever from the ditch; that the defendants Gates and others established the district to benefit their property on the west branch Papillon creek watershed and included in the district the property of the Papillon creek watershed to share the burden of cost of the ditch which will benefit only property of the west branch watershed.

It is further alleged that unless the courts interfere Treasurer Ure will have to proceed to collect assessments from the plaintiffs.

RATS GNAWING WIRES CAUSE FIRE IN THEATER

Fire supposed to have had its origin by rats gnawing at electric wires caused a loss of about \$50 at midnight Tuesday to the stage of the Venezia theater at 221 South Thirteenth street. Fire company No. 1 was the first to respond, and they had the blaze under control before it had time to gain dangerous headway.

Green Starts Row at Realty Meeting

W. H. Green started a fine, large debate at the weekly meeting of the Real Estate exchange when he referred to realty dealers who sell city lots in Omaha's suburbs as "robbers of widows and orphans" and made strong references that they were all-round crooks. Everyone at the meeting had something to say when he had concluded his speech. "The Power of the Real Estate Man to Tear Down or Build up a City," some agreeing with him and others emphatically disagreeing.

George G. Wallace, who recently placed upon the market 30 lots for Bellevue college at Bellevue, made an extended reply to Green's assertions. He declared that by opening up suburbs every city was made to grow. The idea of building up the place next door, and stopping there said he, is no way of building a city. I think Mr. Green is two-by-four in his views.

The air was pale blue when each had his say and a motion to place Mr. Green's speech in the record was laid on the table. The exchange voted to adjourn for the summer after naming next Wednesday as the date for the organization's annual picnic. The location for this event also brought out considerable argument, but finally Happy Hollow club was decided on. It was finally agreed the members shall meet at the Commercial club at 2 o'clock Wednesday afternoon and go in a body to the club. Sides will be chosen and a big golf game played. Dinner will be served at 6 o'clock at the club house. It will be a stag affair.

PEDDLER KNOCKED DOWN BY BRICK FROM ROWDIES

Because he refused to give an apple each to a gang of small boys playing near the intersection of Seventh and Pacific streets, Ben Roshteln, 192 South Twelfth street, a Russian peddler was assaulted by the gang. A flying brick struck him in the head, knocking him unconscious. He was brought to police headquarters, where Dr. Vanderhoof gave him medical attention and later took him home.

AFTER M'GOVERN'S SCALP

Disgruntled Discharged Employees Circulate Recall Petition.

COUNCILMAN HAD A REASON

Says that All the Men He Has Dismissed Were Cut Off Pay Roll for Good and Sufficient Cause.

Disgruntled former employees of the city engineering department are circulating a petition to recall Councilman Thomas McGovern of the department of public improvements. Nine hundred signatures have been secured. Three thousand, or 30 per cent of the votes cast for McGovern, are necessary to make the petition effective.

McGovern has let out twenty men during his commissionership. "These men were discharged for cause," said Mr. McGovern, "for they were loafing on the job. Only five men have been appointed to fill their places."

Those who are circulating the petition charge McGovern with appointing non-residents to these jobs. The commissioner asserts that all appointees are residents of the city and have been for several years to the best of his knowledge. Three of the inspectors among those discharged by Commissioner McGovern were ordered to report for duty at 8 o'clock in the morning. The next day they showed up at 9 o'clock. McGovern had been on the job for three hours. "You're fired," he told them. Others met similar fate, although a few were let out because the force in the department was larger at the time than work warranted.

If the petition is signed by the requisite number of voters an election must be called for not less than thirty nor more than sixty days after it is completed. A primary election would be held in the meantime and one man nominated who would run against McGovern.

Caught in the Act, and arrested by Dr. King's New Life Pills, bilious headache quits and liver, stomach and bowels act right. Only 25c. For sale by Beaton Drug Co.

A Flood of Light

in any or every room in your house by simply touching a button—that's electric convenience.

A button placed at the head of your bed, within easy reach—that's electric protection.

Up-to-date houses afford both because they are wired when built; but you can have both in old houses too, because now

Old Houses Can Be Wired Just as Easily as New Houses

Electricians have become so expert that they work like magic, leaving no disfiguring marks on floors, walls or ceilings.

You can have the work done quickly and at moderate cost with our co-operation.
