### WILL OPEN FIRST AVENUE

Contract Signed for Opening of Business Street.

APPROVED BY CITY COUNCIL

First Payment Ordered and City Will

Be Authorized to Begin at Once -Means Much to Busi-

ness Men.

The contract for the opening of First avenue from Main to Fourth street was signed yesterday when the question of title to all of the property required was definitely settled. The contract was approved by the city council and the mayor and city clerk authorized to sign it. The cost of the property to be condemned will be approximately \$20,000. Property owners and business men residing near by have contributed enough to reduce this amount to \$11,460, which the city is to pay in annual installments of \$2,000. the defered payments to draw 6 per

cent interest. By the terms of the contract, titles to the lots involved, four in number, are to be secured by Robert W. Wallace and placed in escrow in the Counil Bluffs Savings bank until the final payments of the city are made. The contract provides for the immediate possession by the city of the property whenever the first payment of \$2,000 has been made to Mr. Wallace. The council passed the necessary resolution directing the city auditor to draw a warrant for \$2,000, and this permits the city to begin at once the work of demolishing the old buildings and opening the street. Whether there will be any trouble with tenants now occupying part of the property to be used for the street is not stated to a certainty, but the understanding is that the contract with Mr. Wallace covers all contingencies.

The opening of First avenue will be new step and a long one toward a greater Counil Bluffs. It opens up a large new business area in the very enter of the city.

One of the serious objections and obtacles to the growth of the town has en that its business has been scated, principally upon two long streets. th no possibility of centralizing. The op ming of the avenue will give several blocks of business street frontage where it is bost desirable.

The financial committee of the Eagles were going the rounds yesterday notifying holders of Eagles' building stock that \$10,000 had to be paid on the architect's estimate of work done on the new club building. There has already been paid about \$5,000 on similar estimates, so that about one-fourth of the total cost of the building has been paid. Construction work is progressing very nicely, and in two months it is expected the building will be ready for occupancy. No other Eagles' lodge in the west will have a club house that begins to compare with it in beauty, size or cust.
