Burlington-

t. Louis k Missouri Pacific-Chicago, St. Paul, Minucapolis and Omaha-Harriman a Witness LOS ANGELES, Cal., July 11 .- During the cross examination of Job Harriman, in the bribery trial of Clarence S. Darrow, it developed that an effort had been made by political enemies to indict Harriman for complicity in the dynamiting of the Los Angeles Times building months after the McNamara brothers had confessed. It was a day of striking incidents, beginning with the retirement under fire of Deputy Sheriff Martin Aguirre, formerly warden of San Quentin prison, who had been in charge of the jury since the beginning of the trial, complaint having been made that he was friendly to the defendant. No one in the room apparently was more startled than Harriman when he was questioned by the district attorney as to his knowledge of the dynamiting of the Times plant. The district attorney said that he was seeking to show that Harriman's relations with the dynamiters were "more damaging than those of attorneys' and that his connection with the jury bribery trial was "more akin to that of defendant."
