GRAIN AND PRODUCE MARKET

THE BEST BUY IN OMAHA Too Much Rain Now Feared in the North and Southwest.

> CORN SALES EXCEED SUPPLY Safe Maturity of the Immense Crop of Oats is Sure to Cause a Selling Pressure in That

> > Cereal.

OMAHA, July 13, 1912. The whole wheat situation has changed so far as the weather map is concerned. Fear now is of too much rain in the

orthwest and southwest. An experienced northwest and southwest. An experienced observer wired yesterday that excessive moisture and humid conditions if followed by strong sunshine might easily develop black rust in the southern half of the spring wheat states. What mention has been made of black rust at a couple of points in Minnesota and South Dakota does not appear to be confirmed. Excessive rains on the winter wheat harvests are retarding cutting, threshing and vests are retarding cutting, threshing and marketing of that crop. The bear posi-tion in the market is that there is still every indication of a bumper crop all over the northwest and this holds the market in check. New wheat movement is lighter than expected so far. Cables from Europe are not favorable, as the harvesting is being interfered with by rain.

An authority from Melbank, S. D., says, "Wheat in western Minnesota and South Dakota promises a very heavy crop and is well advanced; harvest will begin by August 1. The ground is thoroughly wet and wheat can mature without more

Cash wheat is unchanged to ic lower.

It is evident July is badly congested.
Shippers are finding it difficult in securing enough corn to meet sales. This has a bullish effect on September. The late months (those representing the new crop) are in a sensitive position because trads and country will not hold off lower. crop) are in a sensitive position because trade and country will not hold off long in buying corn if there is the least indication of injury to the crop at any stage during the next month. It makes a good trading market in which the public can see as well as the local trade, the effect of weather and crop news. It is purely a weather market, traveling up and down with climatic conditions.

Cash corn. Walle higher.

Cash corn, Woic higher.

There is but one side to July oats, with cash selling at 5005zc on the tables; with September and later months it is different and the safe maturity of the big crop

is sure to cause selling pressure.

Cash cats, ic higher.

Primary wheat receipts were 632,000 bushels and shipments 42,000 bushels, against receipts a year ago of 1.552,000 bushels and shipments of 2,385,000 bushels.

Primary corn receipts were 369,000 bushels and shipments 635,000 bushels, against receipts a year ago of 2,385,000 bushels. receipts a year ago of 307,000 bushels and shipments of 383,000 bushels.

Primary oats receipts were 254,000 bushels and shipments were 438,000 bushels, against receipts a year ago of 438,000 bushels and shipments of 736,000 bushels. Clearances were 226,000 bushels of wheat, 1,000 bushels of corn and 2,000 bushels of oats.

wheat, 1,000 bushels of corn and 2,000 bushels of corn and 2,000 bushels of corn and 2,000 bushels of small town, U. P. rall-road. Place can be homesteaded under 3 year law which requires only 7 months residence each year. Price \$925.00 cash for short time.

CATTLE—No cattle of any conse-quence were received today and the total for the week has been very light showing a considerable decrease as compared with most recent weeks and a falling off of considerably over one half as compared with the same week last year. At the same time the demand has been active and the tendency to the market

receipts have been disposed of very readily.
Stock cattle and feeders have not very much change. Receipts been light, but the country shown

demand has also been very meager so that while prices on the better grades have been strong no great advance has taken place. The country is apparently inclined to wait until a good corn crop is assured before loading up on stock or feeding cattle.

Quotations on cattle: Good to choice beef steers? \$5.50@5.50; fair to good beef steers, \$6.00@8.00; good to choice heifers, \$6.25@7.50; good to choice heifers, \$6.25@7.50; good to choice stockers and feeders, \$4.50@5.00; common to fair cows, \$2.50@4.50; good to choice stockers and feeders, \$4.50@5.00; common to fair stockers and feeders, \$3.50@4.50; stock cows and heifers, \$3.25@4.75; veal calves, \$4.50@8.00; bulls, stags, etc., \$3.75@6.50.

SHEEP-No sheep were reported and there was practically nothing on sale today, the big barn being deserted. For the week receipts foot up 27,500 head ascompared with the same week last year. The arrivals during the week have consisted very largely of westerns, principally lambs, with a liberal sprinkling of yearlings, but very few old wethers and not many ewes.

pot many ewes.

Early in the week the market showed improvement and good western lambs on Tuesday sold as high as \$7.90, but that proved to be the high day of the week. From that time on prices declined rap-

OMAHA LIVE STOCK MARKET

Idly under the influence of the severe break at Chicago, which was occasioned by the slump in the eastern mutton market. At the close of the week lambs are 50c lower than the high time on Tuesday and about 25c lower than the close of last week. The demand throughout the week, while not overly active, has been fair at current prices, and the market as a whole in satisfactory condition as compared with eastern markets. This is especially true when it is taken into consideration that the Chicago market yesterday was

that the Chicago market yesterday was quoted as closing fully 75c lower on the best grades as compared with last Friday, and as much as \$1.00 lower on other kinds.

Owing to the scarcity of old wethers no great change has been noticeable on that class of stock this week, especially so as practically nothing of that class so as practically nothing of that class came in during the latter half of the week. On the other hand, yearlings, which were higher at the beginning of the week, a pretty fair kind of westerns reaching \$5.5 on Tuesday, sold lower. Near the close of the week pretty good but heavy yearlings had to sell at \$5.50. Other markets have shown more or less decline, Chicago quoting extreme late transactions yesterday as easily 50c lower than at the finish last week.

Quotations on sheep and lambs: Good Quotations on sheep and lambs: Good to choice lambs, \$7.40@7.75; fat range yearlings, \$5.50@6.00; fat range wethers, \$4.50@5.00; fat range ewes, \$3.75@4.25.

HOGS—Both packers and shippers started out this morning paying prices that were fully steady for good to choice light hogs and here and there sales could be pointed out that looked stronger. Thus the best lights sold largely at \$7.25\(\text{gf}.30\) and on up as high as \$1.37\(\text{g}\). The top being 2\(\text{g}\)c higher than yesterday. Some of the packers stayed out and the early market came to a close before very many sellers had a chance to unload, in fact it slumped before any great number of hogs had changed hands.

From the time of the slump on until the close the market was very slow and dull. Buyers became reckless and they did not care now much lower they bid Sellers worked hard to hold up the market, but were at a disadvantage on account of its being a Saturday and in the end had to take their medicine. A good many of the late sales were loc lower and many others l5c lower than the early market. Even good light hogs that were such strong sellers for a short.

Council Bluffs

REPORT OF WATER BOARD

Result of First Year's Administration Given Out.

NET INCOME OF \$63,616.15

Total Income for Year Aggregates \$149,356, While Gross Income from Water Rentals Was 8114.977.

The investment of \$510,000 in the Council Bluffs water plant has been demonstrated by the first year of its operation to have been pretty profitable business. It returned a gross income of \$114,977.71 from water rentals and some other sources of small incomes and received in addition \$34,379.15 from taxation, making a total income for the year of \$149,356.86. After paying \$27,000 interest on the \$600,000 of 4½ per cent water bonds and all operating expenses, maintenance and repairs on all of the machinery and property, insurance, rentals and every item of expense of every nature, the plant yielded a net income for the first year of its operation of \$63,616.15.

These and many other most interesting statements and figures are contained in the first annual report made by the Board of Water Commissioners, which was yesterday placed in the hands of the printers for publication in pamphlet form. The report shows that the flat rate consumers paid \$35,233.84 and the metered customers the much larger amount of \$75,651.66, which includes such large consumers as the railroads and large manufacturing institutions. Included in the gross total is the amount received from the 5-mill fire hydrant tax levied annually for the last thirty years. This for 1911 amounted to \$28,481.77. In addition the water fund was increased by the amount of \$5.897.38 received from head; market, steady; muttons, \$3.500 the railroads following the decision of 5.00; lambs, \$6.5008.00; range wethers and yearlings, \$4.0005.75; range ewes, \$2.750 light and water tax, all making the gross 4.10. total of \$149,356.86 received during the

The expense account is quite interesting, totaling for all purposes, including \$27,000 interest on the water bonds, \$55,740.71. Following are some of the expenses:

For Broadway Station-Pay roll \$ 8,635.21 Coal 13,413.96 Operation supplies.....

 1,141.77

 Boiler repairs
 525.27

 Engine repairs
 34.50

 Pump repairs
 34.50
 Pump repairs
Broadway pump house......
Broadway dwelling Reservoir repairs

Total.....\$25,621.99
The expense of operating the Thirtyseventh street station totaled \$9,622.73, of which \$5,786.94 was for coal and \$2,642.33 for payroll. The cost of maintaining the Glen ave-

nue reservoir during the year was \$596.62, and it cost \$1,896.23 to operate the purification plant exclusive of the salary of the chemist.

Distribution Service. cluding repairs of mains, hydrants, labor, etc., and material, was \$2,768.74. It cost for meter reading, flate rate inspection. repairing and setting meters, \$2,492.21. The distribution expense also includes \$410.99 cost of Morningside service.

The office salaries for the year amounted to but \$3,939.62. Administration cost, including salaries of commissioners, superintendent and amounts paid Burns & McDonald, consulting engineers, approximated only \$3,556.40. Barn expenses, including maintenance of automobiles, was \$1,717.32. There was also paid out \$999.99 for office rent, \$510 for postage, \$735.18 for stationery and printing, \$250 for telephones, \$251.26 for liability insurance for protection of employes and \$353.54 for fire insurance.

Total Receipts. The commissioners began the year with a cash balance of \$136,899.61 remaining from the bond sale after the full purchase price of the plant had been paid. so that the total receipts from all sources

during the year were \$280,172.23. The disbursements show all that has been expended on the new reservoirs, paid for new pumps, materials for new extensions and all that has been expended for betterments, as follows:

Sundries 208.25

Extensions, betterments and improvements:

Extensions 11,091.08

New hydrants 1,176.17

Thirty-seventh street reservoir 21,888.93
 Meters
 6,357.87

 Stock
 39,512.83

 Engineering account
 1,026.90
 Land Thirty-seventh street pumps Thirty-seventh street pumps 1,7035
Thirty-seventh street motors 1,7035
New pumps, Broadway 14,626,69
Concrete chimney 1,084.35
New boller house, Broadway 3,500,00

Grand total receipts \$280,172.23 With the installation of the new improvements that will soon be completed the operating expenses of the plant at Broadway and Thirty-seventh street will be reduced nearly one-half. The bill of nearly \$10,000 for the operation of the Thirty-seventh street station will be reduced to about \$3,500 and the Broadway station almost as much.

The little volume that will contain these reports will be interesting and instructive and will be furnished those desiring more detailed information. It will contain lengthy reports from Superintendent Etnyre and Chairman Jensen of the water board. It will convince those who are to be convinced that the present policy carried out will not only retire the \$600,000 bonded debt without any further direct taxation, but will earn enough to

double the present capacity of the plant. OMAHA, July 12.—HAY—Old. No. 1, \$16.00; new. No. 1, \$16.00; No. 2, \$8.00@9.00; No. 3, \$6.00@8.00; No. 1 lowland, \$8.00@9.00. Why take chances if you are having trouble with your eyes. See our experienced optician. Lefferts'.
