

July Clearing Sale Continues

Mid-summer clothes and fixings for men, women and children at clearing sale prices.

Infant Wear Department Special Offerings

Bloomer dresses in sizes 2 to 8 years—plaids, checks and plain colors, \$1.00 and \$1.50 values—at, each, 89c

Girls' rompers, 75c and \$1.00 quality, gingham and chambrays—at, each, 49c

Infants' bonnets, broken lots of 75c to \$1.25 bonnets—Swiss and lawn—choice 49c

Infants' \$1.50 to \$2.25 fine bonnets, at, 95c

Infants' yoke dresses, 45 dresses in age 3 years—75c values 49c; 50c values 39c

Infants' 50c soft sole shoes—at, pair, 39c

Infants' stockings and sox, 25c qualities, 19c

CHILDREN'S SHOES — Shoe Department

Children's \$1.75 slippers and oxfords—at, pair, \$1.35

Children's \$2.00 slippers and oxfords—at, pair, \$1.65

Store Closes at Five O'Clock.

8,884 points, followed by Lemberg, Sweden, 6,183; Wieslander, Sweden, 6,006; Mercer, University of Pennsylvania, 5,951; Philbrook, Notre Dame, 5,900; Donohue, Los Angeles Athletic club, 5,814, and Holmer, Sweden, 5,812.

United States Takes Relay Race.

The United States won the 1,000-meter relay race with plenty to spare, having such men as Melvin W. Sheppard, Irish-American Athletic club; Edward F. Lindberg, Chicago Athletic association; James E. Meredith, Mercurburg academy; and Charles E. Redpath, Syracuse university to meet the English and French teams.

England was handicapped because its first man, G. Nichol, went lame and fell far behind in the first 200 meters, while Sheppard finished ten yards ahead of the Frenchman, C. A. Polegard. The team maintained these positions throughout, each American runner keeping twenty to thirty yards ahead of his French rival.

The Englishman was another ten yards behind until in the last stretches, when the Britons managed to take up some of the breach.

Summaries.

Swimming, 400 meters (team), for teams of four women, each swimming 100 meters: England, first; Germany, second; Austria, third. Time: 5:22.

Relay race, 1,000 meters, for teams of four men, each man running 250 meters, final: United States, first; France, second; England, third.

Swimming, 500 meters, team race for teams of four men, each swimming 125 meters, free style, final: Austria, first; 10:11 1/2; United States second, 10:30 1/2; England, third, 10:38 1/2.

Hop, step and jump, final: Sweden, first, second and third.

High diving, from heights of five and ten meters, final: Adlers, Sweden, 397.7 points, first; Zurner, Germany, 393 points, second; Biorgen, Sweden, 367.5 points, third.

Cross-country race, about 5,000 meters (nearly five miles): H. Kolemalm, Finland, first; H. Anderson, Sweden, second; J. Eke, Sweden, third.

Wrestling, featherweight, final: Koskela, Finland, first; Iasenon, Finland, second; Garstacker, Germany, third.

Wrestling, lightweight, final: Ware, Finland, first; Mattason, Sweden, second; Malstrom, Sweden, third.

COPPER SALTS DECLARED INJURIOUS TO HEALTH

WASHINGTON, July 15.—The use of copper salts in the "greening" of foods, principally canned peas and beans, will be prohibited after January 1 next by a pure food decision, signed today by Secretary Wilson.

The Remsen board, after studying the

Milady's Toilet Table

By Mrs. D'ELLE

"The electric needle is a painful and expensive process for removing superfluous hair, and the same result can be easily and speedily achieved by applying delicate. Mix a little delicate with water; cover the hair with this paste; let it remain two minutes; then wash the skin and the hair will be gone.

"To make thin, short eyelashes grow in long, thick and silky with a beautiful curl, apply plain pyroxin to the lash roots with thumb and forefinger. Applying pyroxin to straggly eyebrows will make them long and silky.

A splendid protection against tan, freckles and sunburn is a solution made by dissolving an original package of maytano in a half-pint witch hazel. Gently rub over the face in the morning and all day your skin will be clear, soft and satiny—with no streaky discoloration. It will not rub off nor show like powder.

Dez shampooing makes the hair bright, fluffy and clean—full of life and lustre. Put four ounces of powdered orris root in a fruit jar and mix it well with an original package of the rox. Sprinkle a teaspoonful of the mixture on the head and brush it out thoroughly. This treatment requires only a few minutes and evening dampness will not affect your hair."—Adv.

question three years, reported that "copper salts used in the greening of vegetables may have the effect of concealing inferiority, and further, that "even small quantities of copper must be considered injurious to health."

Vegetables "freshened" with copper salts will be considered adulterated under the pure food law.

THIRTEEN KILLED IN WRECK

(Continued from First Page.)

of Cook county and the other by the State Railway commission, which will meet in Chicago and go to the scene of the wreck with officials of the road. Conduct of three persons, one of whom is dead, will be inquired into in an effort to fix the blame for the wreck.

The acts of George Bronson, the engineer of the mail train, who was killed; Mrs. F. A. Wilcox, tower operator, and Flagman John Woodruff of the Overland, are those to be questioned.

Both Mrs. Wilcox and Woodruff have said they did their full duty, the former by placing block signals and the latter by placing torpedoes.

Only one thing has been definitely established regarding the cause of the wreck and that is that a dense fog played a big part in the disaster.

List of Victims.

FRANCIS A. BARCLAY, 30 years old, Billings, Mont.

GEORGE BRONSON, 35 years old, Galesburg, Ill., engineer, train No. 8.

BUNCH, 30 years old, Chicago, negro porter of Pullman car on train No. 1.

MRS. C. M. HART, wife of a physician at Canton, Ohio.

MRS. E. G. POHLMANN, San Francisco.

M. E. STERN, 40 years old, Chicago.

G. W. TUDOR, 35 years old, Lacey, Ia.

MRS. G. W. TUDOR, Lacey, Ia.

MISS LILLIAN KELLY, 23 years old, of Baine, Ia.

UNIDENTIFIED WOMAN, 24 years old, brown hair, blue eyes, two gold crowned teeth on upper left side of mouth.

UNIDENTIFIED GIRL, 19 years old, dark hair and eyes, brown silk skirt, velvet pumps. Wore signet ring inscribed "L. K."

UNIDENTIFIED GIRL, 9 years old, light hair, gold band ring, blue and white silk dress.

LOIS ADEL TUDOR, 4 years old, among those injured were: H. O. Crane, Galesburg, Ill., fireman of mail train, left hand and right foot injured.

Warren P. Dudley, 45 Oak street, Belmont, Mass.

Mrs. Beadie M. Dudley, wife of Warren P. Dudley, compound fracture of right leg.

John W. Flack, Cincinnati, right leg lacerated, scalp wound.

T. R. TO IOWA CONVENTION

Colonel Coming West to Be Present at State Meeting.

LABORERS GO UPON A STRIKE

Tie Up Work on Des Moines Street Car Extension by Objecting to Wages Paid Two Men.

From a Staff Correspondent. DES MOINES, Ia., July 15.—(Special.)—Theodore Roosevelt will be the guest of Des Moines July 24. He is coming to attend the third party convention which will be held in Des Moines on that date.

Information regarding his contemplated visit to this city was received from Senator Joseph M. Dixon, campaign manager, who simply announces that Colonel Roosevelt intends to visit Des Moines at the time of the third party convention.

Improvement work on the North Sixth Avenue car lines is tied up by a general strike of more than forty laborers working for the contractor.

Trouble arose over payment by the contractor of a \$2.25 per day wage to two laborers and refusal to pay more to others of the gang employed. The general strike followed, each laborer demanding that his day's wage be increased by twenty-five cents.

Congressional Situation.

The outlook for success of the republican candidates for congress in the state is declared to be excellent. The Iowa delegation at Washington is regarded now as one of the strongest ever had by the state.

Only one of the districts of Iowa is distinctly democratic and it will continue to be so. All the others are strongly republican and inasmuch as every republican has been re-nominated, their victory is assured.

In the Eleventh district, where Congressman Hubbard died the day after his re-nomination, the contest for his successor is between Senator Leslie E. Francis of Spirit Lake and George C. Scott of Sioux City.

The matter of federal patronage for Iowa is causing the delegation some trouble. The commissions of the present federal office holders in the state expired some time ago, but the delegation has been unable to agree upon a slate for recommendation to the president.

The delegation has agreed upon recommending S. D. Rinkler of Rock Rapids for attorney in the northern district and probably will recommend J. A. Dyer of this city for the southern district.

Democrats Are Not Happy.

Iowa democrats are not especially happy over the situation in their party. The delegation returned from Baltimore evidently much divided. It was originally for Clark and the few Wilson men on the delegation felt they were badly treated by the majority. The result is that there has been much crimination and bickering among them since the convention was held.

It will be fought out at the Cedar Rapids convention of the democrats week after next, when a new state committee will be chosen and the party machinery will be reorganized. Among the Wilson men there is much feeling that Chairman Reed of the state committee went too far in using the machinery of the state committee to defeat Wilson in this state and to make a fight for Clark against the wishes of a majority of the Iowa democrats.

Suffragists to Be Active.

Having secured a plank in the republican state platform favorable to women suffrage, the women are now preparing to attack the democrats and induce them to join in the movement to give the Iowa voters a chance to express themselves on the amendment of the constitution to strike out the word "male." Some time ago they organized a committee to go to work for the amendment and are greatly pleased now with their success in having the republicans recognize their rights. They regard it as certain that the next legislature will pass an amendment to the constitution and start the movement.

New Rate Case is Opened.

The Iowa railroad commission has called a meeting here for next Wednesday to meet the representatives of the railroads with regard to desired changes in freight rates in western classification territory.

The commission, upon investigation, has found that there are discriminations against interior Iowa points on shipments to the west so that a jobbing house in an interior Iowa city is not so par with a house in Chicago, St. Louis or other large points as to rates. The commission will take up with the railroads or bring action before the Interstate Commerce commission.

Lawn Tennis Tournament.

The Southwestern Iowa Lawn Tennis association will hold its first annual open tournament at Shenandoah on the courts of the Algonquin club on July 16, 17, 18 and 19, for the championship of southwestern Iowa in gentlemen's singles and doubles. This meet is a continuation of a series of tournaments instituted by the Algonquin club at Shenandoah.

In view of the fact that this is the first contest for the challenge cups of the association, the champions for 1911 will be required to play through all the corners and no challenge matches will be played.

HIGH PRICES PAID FOR HAMILTON COUNTY LAND

WTBSTER CITY, Ia., July 15.—(Special.)—Fifteen years ago men went to Alaska to dig gold. Now they buy Iowa farms. That is, they do if they are wise. And these wise ones are getting greater returns than did the hardy men with pick and shovel who crossed the great Alaskan snows in search of little yellow nuggets.

John McCauley sold a farm the other day which lies near Williams at an advance of \$25 per acre over what he paid for it a year ago. It is a quarter section piece. Mr. McCauley is president of the First National bank of Williams. He sold another quarter section at \$20 per acre more than it cost him a year ago. And still another at \$5.

Thus these, three quarter sections sold this year at just \$20,000 more than was paid for them a year ago. That certainly is pretty good return.

But there is another quarter section farm near Williams which really tops the record. It has been sold four times in the last month, going up \$10 per acre each time. It is not thought there is another farm in the state which can show an actual advance of \$40 per acre in a single month.

Five Men Injured in Wreck.

ASHLAND, Wis., July 15.—Five workmen were seriously injured and others received minor injuries when a train on a logging road out of Grand View was derailed today. A special train brought the five most seriously injured to Ashland. At least one, Mike Ryan, will die.

AFFAIRS AT SOUTH OMAHA

Man Threatens Officers With Empty Shotgun.

RESUME PAVING CASE HEARING

Park Board Buys Boulevard Entrance to Mandam Park and Five Acres Adjoining—Plan Other Improvements.

Failure of W. M. Carpenter to load his shotgun probably saved the lives of Detectives Dworak and Zalodeck early yesterday morning when they went to his home, Fifteenth and H streets, to arrest him on a charge of wife beating.

The two detectives were met at the door by Carpenter who threatened to shoot them with the gun if they entered the house. After a parley the two officers caught Carpenter off his guard and wrenched the gun from his hands. Upon examination of the weapon they found it was not loaded.

Carpenter was a pal of Shorty Gray, one of the trio of state convicts who escaped from the state penitentiary several months ago and were killed after an exciting chase near Springfield. A suitcase belonging to Gray was found in Carpenter's room.

Before the arrival of the detectives he had beaten his wife unmercifully. She is in a precarious condition.

Paving Case to Be Decided.

Judge Kennedy will resume the hearing of the case of A. A. Wright against the city in regard to the validity of the labor contracts in pavement and improvement contracts of the city today. It is expected the briefs of both sides will be submitted and a decision handed down within a few days.

The cause involves the completion of the paving of the principal streets of the city, which have been tied up as a result of Wright's action. Whether the paving of these districts will be completed at once depends upon Judge Kennedy's decision. In all there are about \$200,000 worth of improvements to be made, which are pending the finding in this case.

Park Board Buys Land.

The park board has purchased a sixty-foot boulevard entrance to Mandam park and five acres adjoining, which will be added to the park, from Patrick Barrett. The price paid was \$4,500. As soon as the deeds have been examined the deal will be closed and work commenced at once on the boulevard.

It was decided by the board to grade a boulevard across Spring Lake park from the Twentieth street entrance to connect with the Hooper boulevard. The cost of this will be about \$2,000. Bids will be received for the construction of a storm sewer under this boulevard to also extend under the lake.

Magie City Gossip.

Mrs. Charles M. Lefler will leave in a few days for a visit with friends in Falls City.

Mr. and Mrs. L. C. Gibson will leave this week for Wisconsin in their new automobile.

Dr. Cox and Joe Tanner motored to Lake Okoboki Saturday, where they will spend a week.

C. M. Christensen, a well known stockman of Blair, visited with friends in the city yesterday.

The banquet of the junior convention will be given at the First Presbyterian church Thursday evening, August 1.

Bert Kendrick, Bert Tanner and a party of friends left yesterday for the Platte river for a few days' fishing.

P. J. Lennihan, Tom Fitzgerald and Con Sheehan departed from the local division of the Ancient Order of Hibernians, left yesterday for the national convention of the order at Chicago.

Clarence Goodwin, formerly a barber of this city and now a resident of Denver, called at the home of his divorced wife in Albright Saturday afternoon while she was away and took their two children out for a car ride, which was the last seen of either him or the children. Mrs. Goodwin is believed to have taken the children out of the city.

SOME WONDERS OF OUR TIME

These Wrought by Ancients Far Outlasted by Modern Genius.

In the remote, misty ages of the past the fashion was set of measuring the progress of the human race by naming the seven great wonders of the world, and it would seem that we have not yet gotten past the custom. Cornell faculty, graduates and seniors of the chemical department have issued a list of the seven most wonderful instances of modern ingenuity in the following order of the relative importance: Wireless telegraphy, synthetic chemistry, radium, antitoxin, aeroplanes, Panama canal and telephone.

Here is certainly food enough for wonder, but the thought naturally comes as to whether this would be the universal selection or if the prejudice of the scientist is to be seen through it. Again one wonders if, had the selection been made prior to the Titanic disaster, wireless would have been awarded the first place even by scientists. Synthetic chemistry, which has gone so far as to enable a scientist to make from the materials of his laboratory the dishes of food for a number of guests, and which gives the striking extracts which never grow a fruit as well as many other wonders and mysteries, naturally stands high in the esteem of its votaries. Radium and antitoxin, of course, hold high rank with all, especially with chemists.

Aeroplanes have been long in the making, and the mastery of the air has had high place in man's imagination from the old Greek times when Icarus, the son of Daedalus, dared to try to fly across that sea named for him, the Icarian sea, on wings fastened to him by wax, and by his audacious soaring came too close to the sun, by which the wax was melted and he fell to death, as many of his presumptuous successors have done. The Panama canal would doubtless hold higher place among the wonders if chosen by laymen or engineers. It is possible also that physicists would put the telephone higher up than the chemists of Cornell have done. But it is very evident that the body of members of the chemical faculty have been loyal to the radiations of their cult in the importance which they give to the wonders of their own particular children of the science family, and it is quite likely that the list will receive several revisions before the wise men of this day will agree upon any seven of the wonders and mysteries of the present day. We live in an age when one is not certain but that this very day will bring to our knowledge some invention or discovery, which will eclipse in mystery and value all of its predecessors. We have wondered until we are blue and are prepared for almost anything and not much surprised at anything, so fast is our progress being showered upon us.

But this much is certain, that the list here given makes that of ancient times and the one of the middle ages both cut by sorry figures in human development by comparison.—Washington Herald.

PRESENT IMPEACHMENT BILL

Charges Against Judge Archbald Laid Before the Senate.

CLAYTON READS THE ARTICLES

Senate Appoints Special Committee to Arrange for the Trial and Case Will Come Up Again Tuesday.

WASHINGTON, July 15.—The impeachment of Judge Robert W. Archbald of the commerce court was formally laid before the senate today by the committee of managers from the house, headed by Representative Henry D. Clayton, chairman of the judiciary committee.

Shortly after the senate convened the hall managers walked in a body to the rail before the presiding officer's desk and announced their mission. The senate chamber and galleries were fairly well filled to witness the sober proceedings. It had not been paralleled since the impeachment of Judge Swayne in 1905.

Mr. Clayton read the resolution under which the house had directed its committee to present the impeachment to the senate. About him, in front of the senator bar, were grouped the other members of the house committee of managers. Representatives Floyd of Arkansas, Webb of North Carolina, Davis of West Virginia, Norris of Nebraska, Sterling of Illinois and Howland of Ohio.

As Mr. Clayton concluded and before he could begin reading the articles of impeachment Senator Lodge of Massachusetts pointed out that the rules provided for a proclamation by the senate sergeant-at-arms. The house managers retired to the rear of the chamber and Colonel Daniel Randall, sergeant-at-arms, in a voice that scarcely reached the senate galleries made the formal proclamation: Hear ye, hear ye, all persons are com-

manded to keep silence on pain of imprisonment while the house of representatives is exhibiting to the senate of the United States articles of impeachment against Robert W. Archbald.

Chairman Clayton proceeded with the formal reading of the long document of impeachment with the demand of the house of representatives that the judge be tried for "high crimes and misdemeanors" against the United States. The document accused Judge Archbald of securing favors from those interested in litigation before the commerce court.

Senate Appoints Committee. At the conclusion a resolution by Senator Clark of Wyoming to have the impeachment referred to a select committee of five was adopted and Senator Gallinger, as president pro tempore, appointed Senators Clark, Nelson, Dillingham, Bacon and Culberson.

The impeachment must be again brought up tomorrow. The senate rules provide for its consideration the day after it is announced. The select committee will provide rules for the trial and report to the senate tomorrow, when it will be determined whether the trial is to proceed at once or go over until fall.

A postponement seems certain. Judge Archbald is said to favor this course, as it would give him time to prepare a defense and permit congress to end the session.

Representative Clayton gave notice that the house reserved the right to amend its articles of impeachment or to make reply to any representations of Judge Archbald and aduce testimony.

TURKEY REJECTS ALL ITALIAN PROPOSALS

CONSTANTINOPLE, July 15.—The grand vizier in a statement in the chamber today announced that the Turkish government refused all the proposed conditions of peace as unacceptable. Turkey, he said, intends to maintain its sovereignty in Tripoli and the war would con-

tinue until conditions of peace agreeable to Turkish dignity had been submitted.

M'COMBS MADE CAMPAIGN CHIEF

(Continued from First Page.)

for the coming month or more that the house is expected to remain in session. Governor Wilson's trip from Sea Girt to Trenton tomorrow will be made by automobile, unless present plans are changed. Reprints have been requested not to follow the governor, but go to Trenton by train.

"If you only know how much I enjoy a few hours unobserved," the governor said, "I am sure you would grant my request without hesitation."

FIREMEN'S TOURNAMENT BEGINS IN SIOUX CITY

SIOUX CITY, Ia., July 15.—The tournament of the Iowa Firemen's association will open in this city tomorrow and will last four days. Seven finely conditioned fire teams are in the stables at the Woodland Park race course in readiness to compete in the department race. The volunteers who will compete in the contests began arriving today.

SUFFRAGE AMENDMENT IN MISSOURI FAILS

JEFFERSON CITY, Mo., July 15.—The votes for women petition mailed to Secretary of State Roach. It was announced today, lacked a sufficient number of signatures to force the submission of the woman's equal suffrage amendment to the constitution under the initiative and referendum law.
