LUMBER RATE SCOPE IS WIDE

Many Cases Hinge on Interstate Hearing Being Held Here.

MANY WITNESSES EXAMINED

It is understood that if Omaha and other cities win their cases others will abide by the local decision.

The excessive lumber freight rate reparation case is still in progress in the United States court house before the special master examiner of the Interstate Commerce Commission. Testimony is still being taken from representatives of the southern mill owners who claim the reparation freight is due them instead of the buyers of the lumber. E. J. McVann, head of the traffic bureau of the Omaha Commercial club, and attorneys for the various railroads are cross-examining the witnesses in an effort to call out the points that are to show the money is due the buyers. A great many similar cases for cities other than Omaha coming under the same ruling of the commerce commission in regard to the reduction of freight rates on lumber are pending at this hearing, but it is understood that if Omaha merchants and some of the leading cities win in their cases the others will not push their cases, but will simply present their claims for reparation on the basis of the settlement reached in the case of the principal claimants. It is thought the case may continue for several days, as many southern lumbermen are involved, and their methods of handling the excessive freight rate in their involving has been shown to be various, so that it is difficult to arrive at a settlement that would do justice to all concerned.

TRADING STAMP STORE IS LOOTED BY BURGLARS

Kansas Benefactor Has Immense Picnic

According to persons coming up from Atchison, the picnic given in the park there Thursday by Bailey Wagner was a decided success and was attended by 30,000 children. Ten special trains were run into Atchison, some of them coming from as far away as 200 miles. In the park dinner and lunch was served and a band played all afternoon. A vaudeville company of twelve persons helped to furnish amusement. All expenses were borne by Mr. Wagner. The occasion was his birth anniversary. For thirteen years Mr. Wagner has been giving these annual picnics, but this one was the largest by all odds. Thirteen years ago he was very ill and upon his recovery he decided that each year, so long as he lived, on his birthday he would have the Kansas children as his guests, entertaining them in Atchison and paying all of the expenses. Since then he has chartered trains annually and brought the Kansas children to his home town.

Dedication services and a platform meeting are to be held at 3 p. m., when addresses will be made by city pastors and several visiting ministers. At 8 p. m. there will be preaching by Bishop Parks.

SCHOOLS NEED MORE MONEY

Board to Ask for Additional Funds to Meet Salary Raises.

INCREASE IS ABOUT \$35,000

This is in addition to the regular increase of ten thousand dollars—advance because teachers get increase.

Chairman M. F. Sears of the teachers' committee of the Board of Education will ask for a levy to raise an additional \$35,000 for the year 1912 to pay for the proposed increase in teachers' salaries, which will probably go into effect at the beginning of the 1912-13 term. The teachers' payroll last year amounted to \$442,000. It will be increased this year \$10,000 automatically and \$25,000 more will be needed to carry out the proposed increase.

Members of the board have expressed no fault with the plan of increase as prepared by Superintendent E. U. Graff, request of the teachers' committee.

This increase in salaries will increase the minimum wages of grade teachers from \$40 to \$50 per year and fix the maximum reached at the end of ten years by addition of \$50 per year, at \$1,000 instead of \$800.

Members of the board intimated to committee of teachers that there would be an increase in salaries next year, but nothing definite has been done until now. The proposed increase is in the hands of the committee and will be discussed at a meeting of the finance committee and chairman of the other committees of the Board of Education Tuesday afternoon.

One field between Wood River and Dannebrog is reported to have yielded an average of forty bushels per acre. In this field there were eighty acres and a number of fields in the vicinity are said to be equally as good.

LOAN COMPANY IS ORGANIZED

Articles of Incorporation Are Approved by Secretary of State.

MANY BANKERS INTERESTED

Money Will Be Loaned and Securities Will Be Sold to Capitalists in the Eastern States.

Articles of incorporation of the Bankers' Mortgage Loan company, a new Omaha financial institution, were certified yesterday by Secretary of State Addison Walt. The company will have \$2,000,000 capital, with a large surplus.

Although started in Omaha only a few weeks ago the company already has the backing of 35 bankers of Iowa, Nebraska and South Dakota and every mail is bringing in more subscribers to its stock. At the rate the company is now growing it will be the largest farm mortgage company in the country in another year. The capital stock is divided into 100,000 shares, par value \$20, fully paid and non-assessable. The first issue of 25,000 shares is now being placed at \$25 per share. The surplus fund will be used as working capital.

The company will make its profits by loaning money on farm mortgages and selling these securities at an advanced rate of interest.

The affairs of the company will be in the hands of a board of directors composed of successful bankers and business men representing the various interests and sections of the middle west.

SPECIAL TAXES ARE BEING PAID UP FAST

City Treasurer Ure has been notifying corporations and individuals who are owing the city special assessment taxes. Replies have been received from several, who say they know nothing of such taxes, but are paying them to ward off 12 per cent interest after delinquency. The Missouri Pacific railroad has arranged to pay \$2,500 for such taxes for improvements at Fifteenth and Webster, extending over a period of ten years.
