PACKERS' PLAN OF DISSOLUTION UNDER CLOSEST SCRUTINY

Scheme for Distribution of Assets of National Company Presented to Department of Justice.

HOW PROPERTY IS DIVIDED

Omaha Plant at Omaha Goes to the Nelson Morris Interests.

ARMOUR GETS THREE PLANTS

Fowler, Anglo-American and Butchers' Dressed Beef Company.

STATEMENT FOR THE PACKERS

Branch Houses, Selling Agencies and National Car Line Companies Cars Are Divided on a Pro Rata Basis.

CHICAGO, July 20.—A formal statement showing the method of distribution of the assets of the National Packing company with a declaration that the company has been dissolved was presented to United States District Attorney James H. Wilkerson today.

Counsel for the packers assured the federal official that the distribution of the assets had already taken place and told him that complete details would be presented soon.

The plan of distribution adopted by the owners of the National Packing company, which was regarded by the government as an instrument used to control the meat industry will be carefully scrutinized by federal officials and if it meets the approval of the attorney general, will be allowed to stand. Should it be objected to changes may be made or court action taken by the government to induce compliance with its desires.

Distribution of Assets.

According to the plan set forth by counsel the assets of the National Packing company have been distributed in the following manner:

The G. H. Hammond company is taken over by the Swift interests.

The Omaha Packing company plant at Chicago, the St. Louis Dressed Beef and Provision company and the United Dressed Beef company of New York are also acquired by those in control of Swift & Co.

J. Ogden Armour takes over the following subsidiaries: The Fowler Packing company, the Anglo-American Provision company and the New York Butchers' Dressed Beef and Provision company of New York.

The Omaha Packing company plant at South Omaha is taken over by Morris & Co.

There has been a similar division of the branch houses and selling agencies through the United States, according to a statement issued by Mr. Wilkerson, based on the packer's report of dissolution.

The statement further declares:

"The attorneys for the different stockholders of the National Packing company state that the division of the property of that company, in accordance with their plan to wind up business, has been practically completed. There has been an outright division of the property of the company, and there is no joint ownership on the part of the interest that formerly controlled it. The property has been distributed among its stockholders in proportion to the amount of stock held by them.

"It is represented that as to absolutely none of these is there any joint interest such as characterized the National Packing company and its subsidiaries. In other words, the National Packing company has wound up its business and its assets have been distributed among its stockholders."

Details Ready Soon.

Mr. Wilkerson said that complete details of the distribution of the property would be ready in a few days. In addition to the dissolution of the National Packing company the National Car Line company, operating the refrigerater car system of the packers, has also been dissolved and the cars apportioned to each of the stockholders, the district attorney was informed. The announcement of the dissolution was made after a conference between Mr. Wilkerson and Attorneys A. R. Urion, Ralph Crows, M. W. Borders and Henry Veeder, representing the packers.

Mr. Wilkerson declined to express an opinion whether the plans of dissolution would be approved by the government.

"All we ask," said Mr. Wilkerson, "is that the packers dissolve, and dissolve in reality and not on a 'paper' basis. Whether the present plan will be approved by the government cannot be determined just now."

THIRD TICKET IN MICHIGAN

Roosevelt Insists that Convention Name Full Slate.

ORDERS WILL BE CARRIED OUT

Opposition to Naming Candidate for Governor Led by Frank W. Knox Finally Agrees to Subside.

JACKSON, Mich., July 20.—A "full" ticket, embracing presidential electors and state, congressional and legislative candidates will be placed in the field by the first state progressive convention here before adjournment.

This plan was decided on today after Senator Joseph M. Dixon, Colonel Roosevelt's campaign manager, had arrived and conferred with a number of progressive leaders. Frank W. Knox, former western manager for Colonel Roosevelt, who had been working for the "stub" ticket plan, announced he was in favor of whatever the former president wanted. And Senator Dixon made it plain that the colonel desired a complete new ticket.

"Nothing but a full new ticket will suit Colonel Roosevelt," Senator Dixon said. "He wants to make the whole fight in Michigan or none. People throughout the coutry are demanding a new party and they shall have it."

The Platform.

The following declaration were adopted by the convention:

"We denounce in unequivocal terms the crime against popular government perpetrated at Chicago in the national republican convention. We repudiate the action of that convention, made up in part of faudulently seated delegates, and declare that the fraud there perpetrated, strikes a blow at the very foundations of the republic, which can only survive through free and untrammeled popular government. We declare the action thus consummated cannot be and is not binding upon any citizen.

"The situation thus produced makes it imperative that proper steps be taken to give to the people the opportunity to express their will in the selection of a president, out of which they were cheated by the successful fraud practiced by a repudiated national committee at Chicago at the behest of the special interests.

Crooked Business Denounced.

"The consistent effort of crooked business, in unholy alliance with crooked bosses, to usurp the powers of government, through control of party machinery, constitutes the greatest menace to real popular rule. Therefore, this body of independent citizens here and now dedicate their efforts to the maintenance and perpetuation of those principles of social and industrial justice and equality of opportunity upon which the republic was founded, and which must endure and be transmuted into a rule of political conduct if the nation is to survive.

"We are especially concerned in the election of a progressive delegation to the senate and house of representatives, and we repudiate as unworthy the confidence of the people of the state of Michigan any candidate now holding office, who does not favor the progressive measures advocated by Theodore Roosevelt and the progressive delegation in congress, and who do not make open and specific declaration of their fidelity thereto.

"We pledge the delegates to the national convention of the party to the nomination of Theodore Roosevelt for president of the United States and instruct them to commend to the national convention a thorough discussion and a clear declaration of progressive principles to be embodied in the national platform, and among others the following:

"The initiative, referendum and recall and direct nominations and elections, not only as applied to states, but also in the extension of these principles to the nation as a whole.

"The equalization of the burdens of taxation, upon a property basis.

"A universal parcels post.

"The extension of the postal savings banks system.

For Government Ownership.

"Government operation of, and ownership of, express and telegraph service.

"The reasonable valuation of the physical property of railroads and making such value the base line of determining reasonable rates and a fair return on the actual investment.

"The extension of the powers and the administrative control of the Interstate Commerce commission.

"Prohibition of the creation of more artificial stock and bond values.

"The extension of the civil service law to the consular service of the United States.

"Severance of the diplomatic service from such financial interests as are seeking to exploit defenseless nations.

"Opposition to the Aldrich currency scheme in the interests of competition in banking and insurance.

"The maintenance of a protective tariff for the benefit of the industries and the laboring men of the United States except where competition in trade has been destroyed by monopoly and the tariff is used to exact an unjust tribute from the people and unjustly increase the cost of living."

MEMBERS OF HOUSE PAY WILSON A VISIT

Speaker Clark Heads Pilgrimage of Democrats from Washington to Sea Girt.

CANDIDATE MAKES AN ADDRESS

He Says Real Difficulty of Politics is in Getting Man with Common Interests to Exchange Ideas.

SEA GIRT, N. J., July 20.—A special train bearing the democratic congressmen from Washington reached Sea Girt this afternoon and the delegation, headed by Speaker Clark, walked from the station to the governor's cottage 200 yards away. Governor Wilson met the speaker half way down the walk, returned to the porch with him and there received the other members of the party.

A novel method of campaigning had been proposed for Governor Wilson's consideration by several members of the national committee. The members would have the governor speak once from the same platform with each of his opponents for the nomination at Baltimore and in their home states. Their proposal is that he speak at St. Louis with Champ Clark, at Cincinnati or Cleveland with Governor Harmon, at Boston with Governor Foss, at Hartford or New Haven with Governor Baldwin, at Indianapolis with Governor Marshall, at New York with Mayor Gaynor and at Birmingham with Representative Underwood.

Instead of traveling to North Dakota to speak there with Governor Burke the proposal is that Governor Wilson and the North Dakota executive speak from the same platform at St. Paul.

After a short speech by Speaker Clark, Governor Wilson said:

"It seems to me that the real difficulty of politics in our modern days is that men have not laid their minds alongside one another in having a common interest in what they seek to do. You cannot accommodate interests by having these interests hold off and say 'We are not going into the common council.'

"You can in a common partnership of council bring all the people of the United States into partnership with one another, and therefore it is with particular pleasure that I welcome the opportunity today to meet you. I hope this is only the beginning of a long acquaintanceship which will be a union n a singularly high undertaking."

American Unions Will Aid London Dock Strikers

WASHINGTON, July 20.—That the American Federation of Labor will send financial assistance to the London dock strikers, who yesterday cabled to Samuel Gompers, president of the federation, was indicated today by Mr. Gompers.

"We will take the question up directly with the English union," said Mr. Gompers, "but I will not discuss for publication any of the details."

FIVE MEN KILLED BY EXPLOSION ON STEAMSHIP

NEW YORK, July 20.—Details of the accident reported by wireless on the Italian steamship Principe Di Piemonte in which five men were killed were learned today when the vessel arrived here from Naples and Genoa. The captain, Domeniconi, reported that the men were killed in the engine room on Wednesday last. A branch steam pipe burst, filling the fire room and engine room on the port side with a great volume of steam.

EMPEROR OF JAPAN SINKING

His Majesty Has Been Unconscious Since Thursday.

HE IS SIXTY YEARS OF AGE

Ascended the Throne at the Age of Fifteen Years—Heir Apparent is His Son, Prince Yoshihito.

BULLETIN.

TOKIO, Sunday, July 21.—(7:30 A. M.).—Some improvement was noted in the emperor's condition this morning. He was able to take a little nourishment during the night and his temperature at midnight was 102.2.

BULLETIN.

TOKIO, July 20.—10 p. m.—No bulletin has been issued from the palace since 3 o'clock this afternoon, but it was learned from the imperial residence that his majesty's condition remains unchanged. He is semi-conscious. The physicians in attendance have not given up all hope.

TOKIO, July 20.—The emperor's condition at 3 o'clock this afternoon was so critical that the ministers of state were assembled at the palace and the announcement was made that his majesty was sinking.

A bulletin issued by the attending physicians gives the history of the emperor's illness as follows:

"Since July 14, his majesty has been suffering from intestinal troubles. Great drowsiness followed the early attacks, this symptom increasing rapidly. On July 18 his majesty became unconscious and his brain was affected. On the evening of the 19th the fever suddenly increased, showing a temperature of 104.7. The pulse rate was 104 and the respiration was 38."

The court physicians in attendance on his majesty at 9 o'clock this morning diagnosed the case as acute nephritis.

Another bulletin issued from the palace at 3 o'clock this afternoon was as follows:

"The emperor has been suffering from diabetes since 1904. This developed into chronic kidney trouble in 1906."

It was announced later in the morning that uremia had developed.

His majesty's bed has been moved to a sitting room in the palace. The empress remained at the bedside during the day. The crown prince, Yoshihito, who is recovering from a case of chickenpox and is still confined to his bed, received the news of his father's illness this morning. He has not yet been able to visit the palace.

Imperial Princes Summoned.

The imperial princes have been summoned from their summer residences, and together with all the notables at present in the capital, they repaired to the palace where they await the latest news from the sick chamber.

The present situation is without precedent in the history of the new Japan. The news of his majesty's illness came as an absolute surprise and its unlooked for announcement resulted in the quick collapse of prices on the local stock exchange.

The return to Tokio of Prince Katsura, the former premier, who left some days ago on a mission to Europe, is expected.

Emperor Mutsuhito was born November 3, 1852, at Kyoto and has reigned since 1867, when he succeeded his father, Kamei. He married in 1869 the daughter of Prince Ichijo.

The heir apparent to the Japanese throne is Prince Yoshihito, a son of the emperor, who was born August 31, 1879.

BIG POWER CANAL IS SURELY COMING

Fremont Project is to Be Carried to Completion at Once by a New Company.

SCHEME TO COST FIVE MILLIONS

Light Company to Be Distributing Agent—Other Big Concerns May Also Use Power—25,000 Kilowats to Be Developed.

The long talked of Platte river power canal, which is to furnish Omaha with cheap water power, controverted into electric energy, is now to be built.

It is to be built by development of what is known as the Fremont water rights, with principal installation near Fremont, instead of what is known as the Columbus power canal project.

It is to be built by a combination of capitalists, representing a junction of forces of the Kountze Brothers' syndicate and the General Electric and local capitalists who own the Omaha Electric Light and Power company, through whose distributing plant the output of the power canal will be distributed.

From the sources from which the information comes assurance is given that the canal and power plant will this time be really, truly built, that work will be begun this year as soon as plans can be perfected and contract let, and that the whole project will be completed and ready for business in about two years.

Negotiations Completed.

Negotiations looking toward consolidation have been going on in the east for some time in conferences of big financiers of Boston and New York, who have been interested in the scheme. The part of the Omaha Electric Light and Power company being taken by its president, Fred A. Nash, who has returned home satisfied that the enterprise is now fully launched, and has confided that information to other stockholders here.

Present plans contemplate the construction of the canal and erection of an electrical plant with capacity for 25,000 kilowats of electrical power. The Fremont location is given preference because there are no complications there as to water rights, other things being equal, while the Columbus filings are apparently interminably tied up in the courts because of disputing claimants.

The amount of money required to carry out the scheme is estimated to be about $5,000,000. A gigantic corporation is already being formed which will command the necessary capital, and also take over by conversion the ownership of the present Omaha lighting plant with its physical property, going business and franchise rights.

It is expected, too, that all the other local corporations using large power will be brought in as patrons and power users, if not enlisted in the financing of the power canal itself.

Crops in Rosebud Country Are Good

WINNER, S. D., July 20.—(Special.)—Crop conditions in Tripp county are the best in the state. The ground at this time is too wet to plow the corn, but corn is growing very fast. It is nearly four feet high. Oats are being cut and are yielding more than fifty bushels per acre. Wheat is good and farmers are cutting it now. One field of winter wheat, seven miles north of Winner, has been harvested and it took four and a half pounds of twine per acre to bind it. This field of grain belongs to Mrs. A. S. Warner and contains 260 acres and will yield thirty-five bushels per acre. Alfalfa has been cut once and is ready to cut again and is a good crop.

CONVENTIONS OVER STATE

Hall Republicans Elect Delegation, Majority of Whom Favor Ticket.

RED WILLOW UPHOLDS NORRIS

Resolutions Adopted Commend Action of National Delegates in Refusing to Vote for Presidential Nominee.

GRAND ISLAND, Neb., July 20.—(Special Telegram.)—The republican county convention today passed up everything in the way of resolutions to the state convention, being satisfied with disposing of one factional fight from the Soldiers' home and sending a delegation of fifteen to the state convention, the majority of whom are loyal to the national ticket and in favor of regularity. No resolutions were introduced and no movement made for the appointment of a committee for the purpose.

The Soldiers' home delegation was contested by C. Vanness, the former committeeman, and others. The convention gave each side fifteen minutes to present its case.

The facts as undisputed are that the caucus was organized, voted down a motion by Vanness that a committee be appointed to select twelve delegates and voted down his motion to take a ballot and that Vanness and his supporters then left the convention.

Mr. Vanness charged that thereafter delegates agreed upon by the other side at a secret caucus on the evening before were railroaded through; that some of the delegates were democrats and none of them were supporters of the national ticket.

Member Story of the contested delegation declared they were for the republican ticket from start to finish and Mr. Phelps denied the statement that any of the members were democrats. The delegates as certified to by the caucus officers and seated by the vote of the convention are: H. E. Clifford, M. L. Dolan, C. R. Heusinger, C. C. Johns, Dr. Weeter, Gus E. Neumann, John McLellan, H. A. Powers, E. A. Dauke, Clarence Lowrey, A. H. Shattuck, Hans Gullzow, Ell Mundorf, W. F. Thompson and Tom Compton.

Red Willow for Norris.

M'COOK, Neb., July 20.—(Special Telegram.)—At the republican county convention of Red Willow county held in McCook this afternoon the following were selected as state delegates:

George W. Norris, chairman; W. A. McCool, A. Barnett, J. R. McCarl, W. T. Davis, F. M. McFadden, U. G. Etherton, J. G. Schobel.

Advanced progressive resolutions were passed. They reaffirm faith and allegiance to republican principles; deplore disposition of party bosses to wreck the party and urge the immediate and complete overthrow of the reactionary element; commend the action of the national delegates in the Chicago convention in refusing to vote for presidential nominee in a fraudulent convention and refuse to allow loyalty to this convention to stand as a test of republicanism or party regularity.

They point with pride to the course of G. W. Norris and glory in his record. The convention endorsed Silas R. Barton for congress, J. F. Cordeal for state senator and the entire state and county ticket.

No Resolutions in Wayne.

Vagabond Bulldog Runs Down Thief

Tucker smashed a show case in front of a local store and abstracted some collars and ties. A patrolman with whom "Bum" was making the round gave chase. The selecting of men means success or failure to every employer. It is just as important for every employe to take care that he selects the right business or concern in which to train.
