To Avoid Pasty, Shiny, Streaked Complexions

(From Beauty's Mirror.)

Those who abhor sticky, greasy, shiny, streaked complexions should religiously avoid creams, powders and rouges these heated days. There's no need for them, anyway, since the virtues of mercolized wax have become known. No amount of perspiration will produce any evidence that you've been using the wax. As it is applied at bedtime and washed off in the morning, the complexion never looks like a make-up. Mercolized wax gradually takes off a bad complexion, instead of adding anything to make it worse. It has none of the disadvantages of cosmetics and accomplishes much more in keeping the complexion beautifully white, satiny and younthful. Just get an ounce (From Beauty's Mirror.) sating and younthful. Just get an ounce of it at your druggist's and see what a few days' treatment will do. Use like

The noon gospel meeting, which is being conducted each Wednesday by the association and the church federation, is proving quite a success. The meeting will be held as usual next Wednesday at about 12.15 and will be addressed by Mr. Van Dorman, a mission superintendent Van Dorman, a mission superintendent from Michigan, who was formerly a rail-road engineer.

Japan and Russia in Defensive Alliance; Papers Now Ready

ST. PETERSBURG, July 20 .- The signature is impending of a pact establishing defensive alliance between Russia and Japan. This momentous developmen would seem to be connected with the approaching trip to Russia of the Japanes statesman, Prince Katsura, but his visit is a mere coincidence. The actual agree ment was concluded a fortnight ago and likely will be signed for Japan by Baron Motono, the Japanese ambassador to Russia, who was its negotiator and prime mover.

The agreement consists of two parts, one dealing with the delineation of the spheres of influence of Russia and Japan in Mongolia and Manchuria, which is similar in scope and character to the Anglo-Russian accord of August 31, 1907. regarding Persia, etc. The second part deals with the duty of the two powers for a joint defense in case either power is attacked.

The commencement of the present Russo-Japanese reapproacnment dates back to the days of Foreign Minister Is wolsky. It is a matter of common knowl edge that Japanese diplomacy unremittingly has urged upon Russia the immense value that would follow such close co-operation as now has been established especially since Great Britain and Rusia made it possible and logical.

Nevertheless, Russia naturally hung back and every step taken toward completing the alliance was under the com pulsion of other events. Thus the Russo-Japanese agreement of July 4, 1910, pro viding for the maintenance jointly of the status quo in Manchuria, was a direct esult of the ill-fated neutralization cheme for the Manchurian railroads and the present one was the outcome of s long muddle which taught both powers the necessity for a close union of forces.
