Good Trading Market in Wheat is Being Anticipated.

CORN COMPLAINTS ARE HEARD Trade in Oats is Looking for Larger Receipts During the Last Few Days of the Month-

Closing Prices.

OMAHA, July 25, 1912.

The Liverpool market opened strong, 1924 higher, due to the expected moderate world's shipments of wheat this week. The weather in Canada is very unfavorable, while the reports from our own northwest are favorable. The winter wheat receipts are increasing. Between the optimistic crop reports from the northwest and the export buying dethe northwest and the export buying de-mand on the dips a good trading market is looked for.

Sentiment in wheat is generally bear-

Sentiment in wheat is generally bear-ish. Conservative operators are cautious against sales on the break, as they re-sard the bearish views as too unanimous. A report from each of the 105 counties in Kansas, based entirely on threshing returns, says the wheat crop is 90.491.432 bushels. This makes an average of 11.3 bushels per acre. Cash wheat 120%c lower.

lower.
Complaints continue to come regarding the corn crop conditions in the west and southwest. Corn specialists say that timely rains will be the only thing that can pull the crop through. The cash market continues strong. Local traders are buying the May and December options on the breaks, as the outlook for a large crop is not very favorable at present. Cash 16213c lower.

Aside from the congested condition in July oats, sentiment favors the selling Aside from the congested condition in July oats, sentiment favors the selling side on all hard spots. The trade is looking for larger receipts in the last few days of the month. In parts of Illinois the cutting of oats will be finished this week. Some say the fields will average fifty bushes to the acre. will average fifty bushels to the acre. Unchanged.
Clearances of wheat and flour were 139,000 bn.; corn. 5,000 bu.; cats 40,000 bu.
Liverpool market closed: Wheat, unchanged to 4d higher; corn. 4d higher.

Packers were a little later than usual in getting out and bought very sparingly during the first hour of the session. As usual, the hogs of good quality of all weights were picked up first, and although the common and rough kinds sold later in the morning, on the kinds sold later in the morning, on the whole, they showed more improvement than some of the better hogs. It might also be mentioned here that the spread in prices between good and common logs is gradually getting less. Trade was active at the opening, but eased off a little after the first hour of trading, getting better again at any near the close. ting better again at and near the close.

SHEEP AND LAMES—Receipts of sheep and lambs were large for a Friday as about twenty car loads arrived at the yards. This is the largest run right at the end of the week since the fore part of May and about 4,000 more than for the corresponding day a year ago. Aside from two loads of choice lambs from Idaho, the general quality was pretty much the same as on every day since the beginning of the range season. The much the same as on every day since the beginning of the range season. The two loads of best lambs were as good as any western stuff that has appeared among the offerings this year. Ship-ments were received from Montana and Idaho, with about a lead of fed and na-tive stuff from the combolt. As usual of late, bulk of the supply was made up of wethers, the remainder being principally lambs and eves

lambs and ewes.

The market was a repetition of what has taken place during the last few days except for the early sale of two cars of Idaho lambs at \$7.50. Buyers were apparently anxious for any lambs that would make desirable killers and trade in this class was active, prices paid being fully 10@15c higher than yesterday's Trade in fat sheep was a little slow, but not quite as bad as on yesterday. A few loads of fairly good Idaho wethers

A few loads of fairly good Idaho wethers brought \$4.30. The market on fat sheep may be quoted as fully steady with yesterday's market but 40,650c lower than the close of last week.

Totals—Cattle receipts were light, there being all told only fifteen cars reported in. This was not enough to make much of a market. For the five days this week receipts fall a trifle under 12,000 head, being slightly smaller than for the same period last week and and smaller than a year ago by 7,600 head.

There were practically no beef steers, at least nothing of any consequence on sale this morning, while the demand was good and the reeling strong. Buyers claimed that they could use a few good killers and had there been anything desirable here they would undoubtedly have commanded strong prices.

There was a little sprinkling of cow stuff which sold to the killers. There was no material change in the market, trade remaining in about the same condi-

BOSTON, July 26.—The Commercials Bulletin will say of the wool market to-morrow: The Boston wool market has passed through another quiet, inactive week, although, generally speaking, transactions have not been so large and transactions have not been so large and the total volume of wool sold was somewhat less than a week ago, largely accounted for by the absence of the large buyers, who operated heavy last week. Despite a slightly less demand, prices are well maintained and on all sales the full range of a week has been received. As last week, trading in territory wool has been confined largely to original bags, on which prices are very firm.

At London prices are generally firm, on which prices are very firm.

At London prices are generally firm, although some evidence of weakness was apparent the first of the week. American buyers have continued to operate well on the better offerings of crossbreds.

The shipments of wool from Bosfon from January 1 to July 25, inclusive, were 160,225,571 pounds, against 120,826,439 pounds for the same period last year. The receipts from January 1 to July 25, inclusive, were 204,126,135 pounds, against 173,699,080 pounds for the same period last year.
