Nothing Encouraging Develops for Bull Operators in Wheat.

lend in Reports from Scattered Sections About Too Much Moisture and Not Enough Warm Weather.

OMAHA, July 29, 1912. Trade in wheat is in a position where there is nothing very encouraging for bull operations unless there is a spread of black rust. On the other hand the

buil operations unless there is a spread of black rust. On the other hand the market is so near an export level, where active foreign selling may develop that there appears little chance for any important decline from the present level. This makes the market about a standoff. Until all chance for black rust damage is out of the way traders think it advisable to take the buying side on depressions caused by local bear pressure. Cash wheat unchanged.

Traders in corn cannot ignore the weather map. The southwest claims injury to crop due from hot, dry weather. B. W. Snow, the crop expert, wires, "My reports on corn are coming very bad. East of the Mississippi river it has been cool and wet and the crop is weedy and it is fully as late as it was on July 1. In Nebraska, Kansas and Oklahoma the crop is already hurt by dry weather just when it was tasseling. Iowa and Missouri are holding about the same position as last month, it is late and uneven, but will pe all right if the season is long chough. The general prospect is but will be all right if the season is long enough. The general prospect is distinctly poorer than it was July 1 because a month has passed and none of the poor start has been made up." The season is so wet that the corn crop is badly damaged and it cannot be cuitivated. It has rained most every day since June 11. Cash corn, %c to 11/2c higher. The feeling continues bearish with spasmodic action in the July option, which modic action in the July option, which will soon be out of the way. The har-vesting is progressing under very favorvesting is progressing under very tavorable conditions in most states. Peoria wires: "Some pretty big yields here in oats. As high as eighty bushels to the acre and from that down to saxty." Cash oats higher.

Wheat at Liverpool closed unchanged to higher.

CHICAGO GRAIN AND PROVISIONS Features of the Trading and Closing

Prices on Board of Trade.

CHICAGO, July 29.—Damage of black rust to a greater extent than previous estimates put the wheat market today on the upgrade. Closing prices were firm at #67% to %c net advance.

Exporters appeared to have seen new light regarding rust danger to wheat if the weather were to take an unfavorable turn. Humid days, it was stated, would quickly give rise to a serious condition, especially in blue-stem fields, where the grain yet needs nearly two weeks more to mature. On this account, a half perhaps instead of a quarter of the North Dakota crop was figured as still being under menace. Export sales of thirty boat loads helped offset the early bearish effects of fine cool winds in the spring crop belt and of huge receipts southwest. September fluctuated from \$2% to \$4% with last sales \$4% a jump of \$40% above the level of forty-eight hours before.

Extreme heat and inadequate rainfall in Kansas and Oklahoma where corn is in tassel made the price of the cereal take a rapid ascent. September ranged from \$5% to \$6% c. Cosing strong 1466% up at \$69% c. Cash grades were firm. No. 2 yellow, 744674% c.

Outs advanced in sympathy with corn. It was also said that the bearish showing in reports would be reversed in a short time. High and low points touched by September were 33% c and 32% c, with the close % c up at 33% c.

Support from packers lent steadiness to the provision market, despite larger arrivals of hogs than were looked for. At the end of the session prices for the most part ruled within 5 cents either way of the figures current at the previous close.

Week Opens with Continuance of Irregular Conditions.

POLITICAL OUTLOOK NOT LIKED onfidence felt in Crop Prospects Offset, Temporarily at Least, by Other Influences-Steel Issues Sold.

NEW YORK, July 29.—The week in the stock market opened with a continuance of the very dull and irregular conditions that have marked operations on the exchange during the past fortnight, the only appreciable difference being an increase of bearish sentiment, augmented by small activity from the same quarter. The confidence felt in crop prospects. The confidence felt in crop prospects seems to be offset, temporarily at least, by other influences, among which might be cited the political outlook. The minority report of the congres-sional committee which investigated the United States steel corporation, calling

for federal regulation of all corporations whose capital exceeds a fixed amount and other criticisms leveled against large corporate interests was used as a basis for the selling of steel shares in the early part of today's session, with sympathetic recessions in other speculative nathetic recessions in other speculative favorites.

American Sugar and beet sugar issues also declined sharply.

Bonds were irregular, with weakness in Missouri Pacific, Total sales par value amounted to \$1,532,000. United States government bonds were unchanged on call.

Number of sales and teading quotations on stocks were as follows:

*Sunday. CATTLE-Receipts of cattle were CATTLE—Receipts of cattle were considerably lighter than on Monday of last week and less than half what they were the corresponding day last yes!. At the same time Unicago reported very large receipts and a sharply lower market. Under the intluence of the decine at other points, the feeling here was naturally weak at the opening, but the local ouying demand proved to be so good that hitle or no change took place in prices.

HOGS—In spite of large receipts and lower prices at Chicago the hog market here opened in good season with shippers buying hogs of good quality excusively at prices fully steady and in spots strong when compared with Saturday's market. As usual packers were the smallstrong when compared with Saturday's market. As usual packers were the smallest buyers at the opening and did not fill the bulk of their orders until the shippers had practically dropped out. Packing hogs and the mixed kinds sold market slow; lambs, \$5.0027.15.

Wool Market.

ST. LOUIS, July 29.—WOOL—Steady: territory and western mediums, 202246; fine mediums, 18620c; fine, 13017c.

LONDON, July 29.—The offerings at the wool auction sales today were chiefly cross breds, amounting to \$.552 bales. The demand was quiet and prices were in buyers' favor. Prices are now about 74 per cent higher and grades suitable for America ten per cent dearer.

Metal Market

ST. LOUIS With Saturday's prices, snippers buying several loads of choice shipping hogs at the top price, \$7.50.

No. Av. St. Pr. No.

Shiller-About fifty-seven cars of sheep and lambs were yarded this morning, it being the largest run since March 28. The receipts included shipments from Montana, idaho, California and the corn belt, bulk of the suff coming from Idaho. Fat sheep and lambs were about equally represented among the total receipts. With the exception of a few loads of good wethers, quality was similar to that of recent shipments. Al-

though the supply of lambs was a little larges than asual, there were no real good. 22ndbs on sale.

Buyers were out fairly early in the morning looking over the large receipts for anything that would make desirable killers. There was a good demond for real good stuff, but as comparatively little of that kind was on the market, trade at the best was only fairly good season.
Prices paid for sheep and lambs were generally steady with the close of last week. Some fairly good lambs become at the big bulk of the supply was disposed of in fairly good season.
Prices paid for sheep and lambs were generally steady with the close of last week. Some fairly good lambs become at the best was only fairly active.

In the end buyers and seliers got to generally steady with the close of last week. Some fairly good lambs become at the best was only fairly active.

In the end buyers and seliers got to gether and the big bulk of the supply was disposed of in fairly good season.

More Militiamen Sent to Paint Creek to Suppress Riots

CHARLESTON, W. Va., July 29.—The Third battalion of the West Virginia National guard was ordered tonight to proceed at once from Mount Gretna, Pa., to the Paint Creek mining district of this state, where a strike has been on for months. This is the second call sent to Mount Gretna, where the guardsmen have been attending a summer school of instructions, within a few days. By tomorrow 465 state soldiers will be scattered throughout the mining district in an effort to put a stop to the rioting and

James Roberts, a bookkeeper at one of the Lewis mines at Chelyan, was shot in the hip today as he walked toward a train. At the time many miners were congregated about the railroad station. Warrants for the arrest of some of the miners were issued tonight and an attempt will be made to serve them in the morning. A preliminary hearing has been set for temorrow afternoon and a company of militia has been sent to Chelyan The situation at Mucklow and Toms-

burg, scenes of violence last week, is reported as quiet, although further outbreaks are feared momentarily. Governor Glasscock did not issue a prociamation today declaring martial law. Such action had been rumored. It is said the executive and his advisers believe there should be a greater force of militia present before taking this step.

The miners at many points held meetings today. The principal speakers were socialists who are candidates for offices on the legislative and county tickets.

Arctic Explorers Resemble Animals When Found July 17

CHRISTIANA, July 29.-Captain Eina Mikkelsen, the Danish Arctic explorer, and the engineer, Iversen, who were rescued July 17 on the coast of Greenland by a Norwegian fishing vessel, after naving spent more than two years in that region, looked like wild animals when their rescuers found them. They had spent the previous winter at Bass Rock island, not Shamrock Island, as previously stated, and it was there that the Norwegians came upon them in a cabin which they had built.

The first sign that there were human beings on the island was a wooden bar with the date 1912 cut in it, set up as a signal, which the Norwegian fishermen happened upon. Investigation disclosed the cabin. The fishermen knocked on the door and Mikkelsen and Iversen rushed out, nearly naked, with guns in their hands, under the impression that the knocking was caused by beasts of

Mikkelsen had been very ill on the long journey to Bass Rock Island and Iversen had dragged him 100 miles on a sledge. Fortunately the men had enough ammunition to enable them at all times to pro-

Old Catholic Decree Not Revoked By Pope

ROME, July 39 .- The report that the pope has repealed the decree "Ne Temre" is absolutely unfounded nor is it likely ever to be revoked as it embodies provisions, which have governed the saurch procedure for two centuries.

It is probable that the misunderstanding with respect to the repeal of the decree arose through the suspension of the provision relating to mixed marriages in Germany and Hungary. The other provisions of the "Ne Temre," however, are in full force in those two countries. while in the United States and England all provisions of the decree without exception are still in force. Thus a marriage between Catholic and Protestant without the sanction of the parish priest It is declared that possibly the United

States and England may later obtain a change in that provision.

GOVERNOR COLQUITT GIVEN BIG VOTE IN TEXAS PRIMARY

DALLAS. Tex., July 29.-With practically 75 per cent of the vote cast in the democratic primary election of yesterday accounted for in present returns it is indicated that Governor Colquitt "will have a majority of about 40,000 over Judge W. F. Ramsey and that Congressman Morris Sheppard will have nearly as many popular votes as his three oppon-ents combined and a majority of the district instructions to members of the

In twelve congressional districts the incumbents had no opposition. Congress-men Dies, Young and Callaway have won in their districts. The nomination in the First district has been won by Horace W. Vaughan, in the Fourth by Samuel Rayburn and in the Eighth by Joseph E.
