Indications That This Country Will Have Surplus of Wheat.

CORN IS AT CRITICAL STAGE

No Deliveries of Oats Have Been Made This Month-Price May Sonr When Shorts Con-

trol the Market.

OMAHA, July 31, 1912. With the large winter wheat movement and favorable weather for maturing and securing one of the largest spring wheat crops ever raised in the nothwest, the surroundings are very bearish. The fact that prices are on an export level is not a bullish influence at present, as the United States has a good-sized surplus and the quicker they sell it the better it will be for the trade, as it will leave a stronger domestic position and make the later on in the year. One of the best posted men in the export trade says that within three and one-half weeks Russia will be a competitor of the United States and in two months Canada also will be in competition. The weather throughout the northwest is generally favorable and conditions in Canada are

Cash wheat unchanged to be higher.
The growing corn crop has yet to pass
through the critical stage. Anything in
the way of a hot weather crop will influence the late months chiefly. The otember option will be influenced by the strong cash position. The weather reports today are generally very favorable, and provided it keeps so, traders look for a much more liberal movement inside of two weeks. The immediate course of this market depends chiefly on the weather map. Cash corn ic nigher.

Oats are more congested than any other grain, as there are no stocks any place and no deliveries have been made this month. It is said that one house has 300,000 bushels and wants a delivery,

and there is no telling how high the price will go when the shorts try to control this market. Cash oats unchanged.

CHICAGO GRAIN AND PROVISIONS Features of the Trading and Closing

Prices on Board of Trade. CHICAGO, July 31.—July grain prices whirled rapidly today in the last fifteen minutes before the business in that month's delivery came to an end. That option of wheat went to pieces, break-ing 8 cents from the top point of the session and closing 6½ cents under yester-day's finish. Unloading by a few longs who had miscalculated that there would who had miscalculated that there would be a lively demand was the reason. Other wheat futures closed to to hold clower. Shorts in wheat had unobtrusively settled up early and had checkmated opponents who were lying in wait for stragglers. Export sales on a liberal scale was what made the shorts so wary. Besides there were heavy rains in France interfering with the harvest. Fear existed also that showers in North Dakota would lead to a renewal of the black rust menace. Apprehension in regard to the conditions northwest however, were disputed by optimistic dispatches from crop experts. Accordingly, the bullish tendency experts. Accordingly, the bullish tendency

ranged from 93%c to 94%c, closing easy, to net lower at 93%c. Inadequacy of the rains in the southwest furnished campaign material for bull leaders in corn. July finished, &c off to 4c up compared with last night. September fluctuated from 86c to 67c and closed &c net higher at 65%. Cash grades were firm. No. 2 yellow was quoted a

count of commission demand for January products became weak under fairly free offerings by western packers.

General Hardening of Prices After

Period of Uncertainty. STEEL CONDITIONS FAVORABLE

List Moves Upwar das Session Advances, but Gains Most Marked in Specialties Canadian Pacific Higher.

NEW YORK, July 31.-Early dealings in stocks today indicated a degree of in-decision, followed later by a general hardening of prices. To what extent the statement of the United States Steel corporation was responsible for the movement must remain a matter of con-jecture but steel shares were again the most active feature, with evidence of what is tchnically called "good buying." Only in a comparative sense, however, can the steel report for the second quarter of the year be regarded favorably. The cotton dividend barely was earned and there still remained a large deficit to be overcome in the remaining six months. Advices from authoritative sources respecting the steel industry re-main highly encouraging, embracing not

CATTLE—Receipts were light today, only 71 fresh cars being reported in. This leaves the total for the three days at 8,291 head, as against 9,875 head for the same days last week and 18,961 head for the corresponding period a year ago.
Receipts of all kinds of cattle having been so extremely small this week, buyers have been unable to secure as many as they have been in need of and for that reason were all hungry for fresh supplies again this morning. As a result the mar-ket opened early and very active and practically everything was sold at a very carly hour. The prices paid were good and strong; in fact, if anything a little beeves, \$5.80@8.85; Texas steers, \$4.90@7.10; higher than yesterday, so far as the bet-ter grades were concerned. This would apply to all kinds of cattle, beef steers, apply to all kinds of cattle, beer steers, cows and helfers and stock cattle and feeders. With discouraging advices from Chibids on this class of stuff, but scarcely any sheep or lambs changed hands on the first round.

Advices from other market points, especially from Chicago, were very dis-couraging, indicating as they did that buyers were bidding way lower prices and that very little business was being done. As a result of these unfavorable advices buyers at this point were very slow and backward about doing any busi-ness, apparently inclined to await further information, before fulling orders. Thus ness, apparently inclined to await further information before filling orders. Thus it happened that the entire forenoon wore away with very little business being done. YEARLY GRAFT IS \$2,400,000

Developments in Rosenthal Case Most Sensational.

BECKER ONE OF FOUR LEADERS

Rose, Collector for Police Lieutenant, Gives Details-Names

> Are Known to Prosecutor Whitman.

NEW YORK, July 31.-Sworn statements tending to show that the annual graft collected by high police officials in New York city from gambling houses and other illegal resorts has amounted within the last year to \$2,400,000 are in the hands of District Attorney Whitman tonight. The statements were made to the dis-

trict attorney today by "Bald Jack" Rose self-accused collector for Police Lieutenant Charles Becker, head of the "strong arm squad," who tonight began his second day of incarceration in the Tombs prison as an alleged instigator of the murder of Herman Rosenthal, the gambler. The annual yield of \$2,400,000 protection

money was equally divided, according to a high police official.

Whitman, it was learned, has the efforts in this now most sensational "powith discouraging advices from Chicago and other eastern points, the market lice exposure" that New York has ever was late in starting and trade was rather slow and quiet during the first couple of hours in the morning. Buyers made their early rounds looking for anything that would make desirable killers and placed was learned, holds a position at head-hids on this class of stuff, but scarcely quarters and is in a strict sense a civilian employe.

Prominent Man Caught.

The name of a former prominent city official has been brought to the attention of the district attorney as having been closely connected with the "graft system," but it was learned that the evidence thus far obtained against him is not of a tangible nature. The evidence, however, is being closely followed by the detectives in the employ of the district attorney.

It also became known tonight that if Lieutenant Becker will tell all he knows, not only in respect to his own alleged complicity in the murder, but will unfold the inner workings of the graft system. insofar as it may involve the "men higher up," no effort will be made to enforce the extreme penalty for the crime of which he now stands accusedthe murder of Rosenthal-but he will be granted leniency on that condition

The alleged fact of the \$2,400,000 graft fund was told to him by Becker, Rose said, in a sworn statement today. Becker, he said, told him that he handled \$600,000 a year and that equal amounts were handled by three other officials. This, CHICAGO LIVE STOCK MARKET he said, came in collections from gambling houses, pools rooms, houses of ill

Rose said he had collected gambling graft for Becker for months, and he would obtain for him the rates paid by gambling houses, make a tabulation of what these receipts amounted to monthly, and yearly, and how the money was handled. That there were other collectors besides Rose is the assumption of the district attorney, who hopes to identify them.

Prince of Police Department.

"Becker told me that he was the prince of the police department," Rose said. "He paid me liberally out of my collections, but I never was able to keep what I got. I was a fool gambler, and gambled it all away."

Part of the business between the gamblers and the police, the district attorney was told, was boldly done through checks, although his efforts to secure evidence in this form have proved "Bridgie" Webber, the gambling house

Pioneers Are Dead keeper, who also has confessed and whose story largely resulted in the arrest of Becker, promised Whitman, it was learned, to corroborate Rose's statement in regard to the collections. Webber today admitted to the district attorney that \$2,000 was the sum which Franklin county, Massachusetts, and his he received to pay the men who actually

Had Faith in Becker. In regard to the murder itself, Rose said to Mr. Whitman that the reason why it was done so openly and that no effort was made to cover the number of the big gray murder car as it drove upto the hotel Metropole to "get" Rosenthal was that Becker was "relied upon for protection."

In addition to the men "higher up," District Attorney Whitman is investigating the records of two members of the 'strong arm squad' who helped Becker Laddin, aged 34, succumbed to a long iii- in some of his socalled fake gambling ness. Mr. Laddin came to this country raids. They will be asked to appear from Ireland in 1973 and has lived in "voluntarily" before the grand jury and if they refuse Commissioner Waldo will be requested by District Attorney Whitman to suspend them.

Although Whitman realizes that he is dealing with the testimony of gamblers in constructing his case, he believes that the corroborative evidence is strong. He plans, it was learned, to go slowly in the case and it appears likely that the grand jury investigation will continue all the summer.
