Only a few stock cattle and feeders were offered, but they commanded good, firm prices, selling if anything to better advantage than yesterday. From start to finish it was a good strong market on all kinds of cattle, the trade being very sat-isfactory to the selling interests.

the hog market this morning so far as prices were concerned, everything selling in about the same notches as yesterday. Both shippers and packers evidently had very fair buying orders, but the trade was at no time what might be called active. Still there was a very fair movement and the receipts were practically all disposed of in good season. Buyers continue to favor good light hogs, but they claim that the proportion OMAHA. Today a fairly large run of sheep and lambs arrived at the yards, as about thirty-one loads were yarded. As recently the big bulk of the receipts come in from Idaho, wethers showing up in the largest numbers. There was a good sprinkling of yearlings and lambs, but few ewes were among the offerings. General quality was about the same as on the previous days of the week, there being just a fair sprinkling of really good wethers and lambs in the barn. There was a good demand for choice stuff, and naturally this attracted much attention on the part of the buyers, but no trading was done early. As usual, sellers have a little trouble in getting buyers to look at the common to medium grades early.

Trade was almost a repetition of yesterday's market, as very few sales were made during the forenoon, the big bulk
