LODGE RESOLUTION IS ADOPTED BY VOTE NEARLY UNANIMOUS

Foreigners Warned Against Acquiring Land that Might Be Used for Naval Purposes.

EXTENDS MONROE DOCTRINE

Intended to Prevent Embarrassing Situations from Arising.

IN THE INTEREST OF PEACE

Further Notice to Nations to Keep Out of Western Hemisphere.

FOUR SENATORS AGAINST IT

Negative Votes Are Cast by Cummins and McCumber, Republicans, and Perry and Stone, Democrats.

WASHINGTON, Aug. 2.—After a three-hour debate behind closed doors, the senate today, 51 to 4, adopted the Lodge resolution defining the attitude of the United States in disapproval of the acquisition by foreign interests of any territory on the western hemisphere which might be used as military or naval bases or menace "the approaches" of this country.

The senators voting against the resolution were Cummins and McCumber, republicans, and Perry and Stone, democrats.

An amendment offered by Senator McCumber to take out of the resolution the reference to "corporations or associations which have relations to another government" was defeated.

Before the senate had proceeded far the discussion began to touch so close to government secrets that the doors were closed and consideration went on in executive session.

Senator Lodge, calling up the resolution which is framed to record the disapproval with which the United States would view the acquisition by foreign interests of property on the western hemisphere which might eventually become military or naval bases declared that its passage was in the interest of peace.

"The committee on foreign relations believed it wise that the United States should not let a situation arise in which it might be necessary to urge a friendly nation to withdraw when that nation could not do so without humiliation," he said.

"What is the real meaning of this resolution as it affects the Monroe doctrine?" asked Senator Cummins.

"The declaration rests on a much broader and older ground than the Monroe doctrine," replied Senator Lodge. "This resolution rests on the generally accepted principle that every nation has a right to protect its own safety."

There was no demonstration, in accordance with the court's previous orders.

UNITED STATES MAY BUY BIG TRACT NEAR FT. RUSSEL

CHEYENNE, Wyo., Aug. 2.—(Special.)—For the purpose of having the largest military reservation in the United States with its own water supply, maneuver grounds, target ranges for rifle and mountain and heavy artillery all in one tract, engineers have been making surveys and investigations between Fort Russell and the Pole mountain maneuver camp, and it is announced that the government will purchase a strip of land five miles wide and twenty-five miles long connecting these two points. This plan will give the War department complete control of a strip five miles wide by forty miles long and embracing millions of acres of mountains and plains. The Cheyenne and Fort Russell water system lies within this area and the government will be able to protect the watersheds and insure pure water at all times. Hundreds of ranches will be purchased, as well as thousands of small tracts of land owned by individuals.

CINCINNATI, O., Aug. 2.—Harry, alias Tom Davis of Chicago, one of four men arrested yesterday on the charge of having bogus money and illegal wire tapping outfits in their possession, threw a grip, which the police say contained \$75,000 in bogus money, into the Ohio river today while being brought from Newport, Ky., across the Central bridge to Cincinnati.

Darrow Asked About His Alleged Attempt to Bribe Detective

LOS ANGELES, Cal., Aug. 2.—Returning to the collateral allegation that Clarence S. Darrow sought unlawfully to acquire evidence to be used against the McNamara, Darrow was cross-examined at the resumption of his bribery trial today concerning his relations with W. J. Turner of Chicago.

Darrow testified that Turner was a detective who had worked for him in the Moyer-Hamwood-Pettibone cases in Idaho. He admitted the authenticity of telegrams which passed between himself and Turner in which the subject was Detective Guy Biddinger and the alleged attempt of Darrow to secure important evidence by bribing Biddinger.

Darrow was then asked about sending John R. Harrington to Detroit to gather evidence concerning the arrest of James E. McNamara.

Army Bill Amended to Meet Taft's Views and Again Reported

WASHINGTON, Aug. 2.—With practically all features upon which President Taft based his veto eliminated, the army appropriation bill was again reported to the senate today by the military affairs committee, carrying approximately \$4,000,000.

The section inserted in the bill when it was in conference to legislate Major General Leonard Wood, chief of staff, out of office on March 4, was not in the reconstructed bill. The bill as the house passed it, was changed only in that it did not carry the proposal to remove General Wood.

Former Iowa Man Is Killed in Chili

CLEAR LAKE, Ia., Aug. 2.—(Special.)—All the news that has yet been received regarding the death of Harold McLaughlin came from the Central Chili Copper Co. This was meager, simply stating "Regret to inform you of fatal accident to Harold McLaughlin. Am making preparations to send body to Iowa." It will be from four to six weeks before the body can reach here. He was superintendent of the mining industries of this company, which is composed of wealthy Englishmen.

A year ago he was granted a vacation and came to this city, where he visited his parents, Mr. and Mrs. James McLaughlin. On the 14th of August last he was united in marriage with Miss Helen Fitch, daughter of Will P. Fitch of Mason City. They left immediately for Chili. No death has ever occurred which caused so much interest and sympathy as has this. Mr. McLaughlin was a student in the Iowa State university and completed his work in the School of Mines of Michigan. He was only 32 years of age and the position he holds as superintendent of the mammoth industry of the Central Chili Copper company attained the success in life that he had achieved.

Both men were well known in Douglas and their German friends have sent them to Montevista to investigate their deaths and to make a report to the German ambassador at Washington.

No news as to the identity of the perpetrators of the hanging has been received here but the incident has been taken as a warning of danger to all foreigners in isolated and unprotected localities in Mexico.

Mexicans' Victims Natives of Germany

DOUGLAS, Ariz., Aug. 1.—John Hertling and Guido Shubert, the men hanged at Montevista about a week ago, were natives of Germany and subjects of that country, though Hertling had taken out his original papers for American citizenship.

Hertling was the watchman at the Montevista mine and Shubert was his guest.

Both men were well known in Douglas and their German friends have sent them to Montevista to investigate their deaths and to make a report to the German ambassador at Washington.

No news as to the identity of the perpetrators of the hanging has been received here but the incident has been taken as a warning of danger to all foreigners in isolated and unprotected localities in Mexico.

MINNEAPOLIS, Aug. 2.—That C. S. Lake, who, it was announced in dispatches yesterday had resigned as superintendent of the New York, New Haven & Hartford railroad, will come to Minneapolis next week to become general superintendent of the Minneapolis & St. Louis railroad, was the statement today of W. G. Blerd, vice president. Since the resignation of M. B. Custer two years ago the vice president's office has handled the duties of general manager and general superintendent.

STEEL TRUST EVILS ARE POINTED OUT IN COMMITTEE REPORT

ENEMY TO ORGANIZED LABOR

Stockholders Exercise Injurious Influence on Business.

Legislation Recommended to Meet Existing Conditions.

MORGAN AND GARY CONDEMNED

Says Roosevelt is Responsible for Its Growth—Corporation Accused of Lowering Condition of Employees.

WASHINGTON, Aug. 2.—The report of the majority of the committee of the house of representatives directed more than a year ago to investigate the United States Steel corporation was submitted to the house today by Representative Stanley of Kentucky, chairman of the committee.

The report was signed by the chairman and Representatives Bartlett of Georgia, McClintock of Maine, Beall of Texas, and Littleton, New York, democrats; Representatives Gardner, Massachusetts; Danforth, New York; Young, Michigan; and Sterling, Illinois; republicans, dissented from the report of the majority. Representative Sterling submitted his individual views in a minority report and Representative Littleton, democrat, dissenting from the recommendations of the majority for amendment of the Sherman anti-trust law, filed his views. Representatives Gardner and Danforth will unite in another minority report, which Representative Young will sign and add to it his own findings as to the facts surrounding the organization and operation of the steel corporation.

The report of the majority deals with the steel trust from its inception and describes the various steps by which J. P. Morgan and his associates built up the corporation. In addition to recommendations for legislation suggested as remedial, the democratic members of the committee made general accusations against the men responsible for the organization.

Individual Accusations.
J. P. Morgan and his associates held up as being the beneficiaries of enormous profits realized from the overcapitalization of the subsidiary companies of the steel corporation and later of the corporation itself.

Judge E. H. Gary and his dinner to steel manufacturers are credited with a scheme by which prices and territory were controlled by the steel trust after pooling agreements were discarded.

Former President Roosevelt is indicted for making the control of the steel trust absolute and is charged with being responsible for the gigantic stature which the trust has attained.

The United States Steel corporation is flayed as an enemy of organized labor, accused of lowering the sociological conditions of its employees and of contributing to American industry workers and work methods un-American and foreign to the best interests of labor.

Principal stockholders of the Steel corporation are accused of exerting a powerful and injurious influence on the business of the United States by means of control exercised through interlocking directorates of railway and industrial organizations.

The activity of the corporation in politics is laid bare and its influence described, and the "steel trust" as a tariff beneficiary and its part in the making of the Payne-Aldrich tariff act are touched upon by the democrats.

Recommends Remedies.
The committee recommends legislation to cure trust evils and to meet existing conditions. It condemns the Steel corporation, but does not invade the jurisdiction of the United States court, in (Continued on Second Page.)

WILSON WILL NOT RESIGN

Governor Will Hang on to Office He Now Holds.

FORMAL ANNOUNCEMENT MADE

Democratic Candidate for President Decides to Follow the Precedent Set by Grover Cleveland.

SEA GIRT, N. J., Aug. 2.—Formal announcement was made today by Governor Wilson that he would not resign the governorship of New Jersey during his campaign for the presidency.

The governor had kept his mind open on the question of resigning ever since the Baltimore convention. Leading democrats in the state, however, have urged him to follow the precedent of Grover Cleveland, who was nominated for the presidency, but continued in the office as governor of New Jersey.

Governor Wilson is interested in prospective reports from committees investigating the tax problem and the efficiency of state affairs in New Jersey, and prominent democrats have asked him not to forsake his office unless called to a higher one.

Through stacks of back correspondence Governor Wilson picked his way cheerfully today, facing constant interruptions from callers.

"I feel about my correspondence," he said with a smile, "very much like the frog that tried to get out of a well every time he jumped up two feet he fell back one."

Notwithstanding his strenuous days Governor Wilson says he is in excellent health. His recent yachting trip had a beneficial effect, even though he admits he is not accustomed to sailing.

Joseph E. Davies, secretary of the national committee, who was in conference with the governor early today, suggested another sea trip soon, but Governor Wilson wished that by quoting this limerick:

It is getting to be such a bore,
I don't go much out for a door;
But this walking around,
Without touching the ground,
Is getting to be such a bore.

Three visitors from Washington were scheduled to talk with Governor Wilson today—Senators Hoke Smith of Georgia and Culbertson of Texas and Representative Henry D. Clayton of Alabama, chairman of the house judiciary committee.

Governor Wilson spent fully an hour today writing his own name as swiftly as he could, while a negro stood by blotting a stream of letters. No more rubber stamp signatures will go forth from the summer capitol.

Passengers on Train See Man End Life

MARSHALLTOWN, Ia., Aug. 2.—(Special Telegram.)—While passengers on a Northwestern train looked on today, Earl McNair, aged 22, living near Montour, committed suicide in a pasture near the railroad right-of-way. As the train sped by passengers saw him place the revolver to his head, saw the flash of the explosion and the smoke and saw him fall. Montour officers were notified when the train reached there and they identified the man as the son of Mr. and Mrs. J. Lester McNair, who live a short distance from the scene of the tragedy. A letter in McNair's pocket said he planned the deed.

A. French of Quincy, Ill. She will be taken home. She confessed her startling kidnapping tale was not true. She returned a diamond ring claimed by a neighbor of her aunt in Chicago and when detained by the police led to drown herself in the police station. Trying to Help Every Little Cheese Have Channels of Its Own

WASHINGTON, Aug. 2.—What makes the holes in cheese, and other problems, such as what is whiskey, what is beer, over which the government's learned scientists have argued and almost fought, have been laid aside for research into the causes of the little winding tunnels that penetrate a Swiss cheese.

The holes in cheese, say the men of science, are dollars and cents to the merchant, for they indicate a grade and value. So they propose to learn how they may be encouraged.

Carbon dioxide, nitrogen, hydrogen and some of the other imparts of chemistry have to do with making the holes and the professors with the reports and blow pipes hope to find a way so every little cheese may have some channels all its own.

Secret File Kept by Sugar Company

SAN FRANCISCO, Cal., Aug. 2.—A secret file kept by the Western Sugar Refining company was the subject of the interrogation of William H. Hannan, secretary of that company, at the hearing here today of the government's suit against the American Sugar Refining company.

Hannan, who was called by the government in an attempt to prove an alliance between the American and the California companies, admitted that a secret file was kept by the company, to keep certain information from clerks and bookkeepers, but said he had withheld none of the correspondence sought by the government.

He was questioned closely as to the absence of letters and telegrams which the government attorneys believed to exist, but replied that he had produced all the correspondence he could find, after a thorough search.

RODENBURG STATES CASE CLEARLY TO THE BULL MOOSER

Illinois Congressman Does Not Mince Words in Answering McCormick's Question.

CHICAGO MAN TOLD SOME THINGS

Informed that Inquiry is Impertinent and Out of Place.

OTHER MEMBERS MAKE ANSWER

Seeking to Find Out How They Stand on Colonel's Candidacy.

REPLIES NOT ALL SATISFACTORY

Copley Only Man on Delegation Who Comes Out and Admits that He is for Roosevelt and His Ideas and Methods.

WASHINGTON, Aug. 2.—Questioned by Medill McCormick of Chicago, one of the managers of Colonel Roosevelt's presidential campaign, as to their attitudes toward the colonel's candidacy, republican members of the Illinois delegation in the house today engaged either in consultation among themselves or in making reply.

Representative Rodenberg answered as follows:

Medill McCormick: I regard your inquiry as impertinent as I absolutely deny your right to interrogate any republican candidate as to his attitude.

W. A. RODENBERG.
Others commented as follows:
Representative James R. Mann—I have nothing to say.
Representative George E. Foss—I have made no reply to Mr. McCormick.

Copley is a Mosser.
Representative Ira S. Copley sent the following message to Mr. McCormick:

"I was nominated for congress on a progressive republican platform in 1908 and again on the very same platform this year. I sought the nomination on the republican ticket. I feel that I am in honor bound to support all candidates honestly nominated on the same ticket so long as I remain on that ticket. I do not accept the action of the republican national convention as binding on my conscience. Before going further I must await the action of the national progressive (or by whatever name it may be designated) convention, both as to its candidate and platform. I send this answer to you direct that you may make such disposition of it as seems best."

Representative Charles E. Fuller:
"I am a republican and shall support the entire republican ticket, state and national."

Representative James E. McKinley:
"I am not a candidate for re-election. I will not reply to Mr. McCormick's telegram."

Prince is Regular.
Representative George W. Prince replied:

"I was regularly nominated at a primary election as a republican candidate for congress; as such nominee I deem it my duty to support the republican ticket. In that regard I stand exactly where Governor Deneen stands."

Representative John A. Sterling said:
"I did not reply to the McCormick telegram. I am for Taft—everybody knows that."

Former Speaker Joseph G. Cannon:
"I have nothing to say about Mr. McCormick or his telegram for publication."

Representative William B. McKinley:
"Mr. McCormick did not honor me with one of his messages."

Want's White Man's Party.
NEW ORLEANS, Aug. 2.—Supporters of Colonel Roosevelt met here today formally to organize the progressive party in Louisiana and to name delegates to the Chicago convention.

Among those who are certain to be elected delegates are John M. Parker, who declared last night before leaving for Chicago that he would fight for a "white man's party," and Pearl Wright, formerly national committeeman of Louisiana.

Mr. Parker's statement that he would urge the adoption of a plank in the platform making it "strictly a white man's party," is the only public declaration so far as to how the Louisiana progressive view the negro.

No attempt is being made, so it is understood, to put forth any state ticket. JEFFERSON CITY, Mo., Aug. 2.—Members of the progressive party in Missouri began to plan today to get the names of the proposed state candidates of the third party on the official ballot. The secretary of state has ruled that he will not order the third party candidates put on the ballot, as the law provides that all candidates for offices shall be nominated at a primary election. The law does not include the electoral ticket which can be nominated by petition.

An appeal to the court is threatened by the third party leaders.
