Wheat, 103 cars; hogs, 5,000 head. Corn Belt Farms

A good farm in the corn belt is a safer investment than any bank stock or any other form of security.

We have unlimited faith in the ability of any farmer to make good who buys good corn land. We are selling land in MINNESOTA, THE BREAD AND BUTTER STATE

When you stop to consider the soil, the climate and rainfall, the location, markets, schools and churches, and the class of people, you will find that we have selected land in a portion of the country that cannot be excelled. Having considered these points, if you will also stop to consider the price at which we are able to sell these lands, you will be surprised that you can buy a farm close to market, everything ideal at

\$65 TO \$100 PER ACRE, ON EASY TERMS

Take your map and see the location of Lyon County. Note that it is half way between Sloux City and the twin cities, with good trunk line railways and not very far from the lowa land. It is noteworthy that the state line seems to have reduced prices of land in Minnesota, while prices in Iowa are \$150 to \$250 per acre. We can sell you just as good a farm, better improved, in Minnesota for about half the money.

The present season is showing some magnificent crops on the farms we are offering for sale. It is a country devoted to diversified farming, corn, wheat, barley, rye, oats, flax, potatoes, timothy and clover. If you are a soil expert you will know that timothy and clover mean good soil, and the soil can always you will know that thingth be kept in good condition.

WHY NOT GO AND SEE

You know Payne Investment Company does not offer a proposition to the public unless satisfied that the land is good and that the purchaser will be able to make his crops pay for the land. We have an office at Marshall and salesmen there ready to show the farms at any time. We also run

AN EXCURSION EVERY TUESDAY

We have every confidence that you will agree with every statement made. You will be surprised at the beauty of the country as well as its products. Let us talk to you or send you some of our literature describing some of the different farms that are offered, with prices, terms, etc.

Lower Price is Looked for in the Oat

Reports of Immense Yields.

OMAHA, Aug. 2, 1912. There are two strongly opposing forces wheat at the present time which must be seen by everybody. The bumper crop of the northwest is so near maturity and the late advices from there give so little indication of any serious spread of black rust that the effect is very bearish. On the other hand Chicago actually sold about 2,000,000 bushels of cash wheat in the last four days and cancelled warehouse receipts on over 1,500,000 bushels. Exporters at the same tims sold 2,000,000 bushels of the new wheat crop abroad. Chicago will have no run of so't winter wheat. So far the cash and export busi-ness has not started an aggressive bull market owing to the bearish news from the spring wheat country. It looks like a safe market in which to buy on de-It looks like

cash wheat was lollic lower.

Before the close of the July option traders called attention to the probability f an acute bull situation developing in September corn because the difference between the September price and the cash corn level was altogether too great The trade had a strong swell in that month early yesterday and prices held well at the close. The dry weather over the southwest has only been fairly re-

Complaints of injury for corn, if the

in the wheat and corn in face of the cash prices and reports of big yields run in many sections. Considering the im-mense crop grain men think the market will drag much lower and it looks like prices wil have to go to an export basis. No.
Cash oats, 1@1/2c lower.
B. W. Snow, Bartlett-Frazier's crop ex-First Trading is Continuation of

CHICAGO GRAIN AND PROVISIONS Wheat, bu ...

CHICAGO, Aug. 2.-Increased estimates of yield counted today against the value of wheat. In consequence the market closed %6% to 15,01% cunder last night. Corn showed a net decline of %6% to 15,01% cand oats a fall of %c to 1c. For provisions the outcome varied from 5c off

to a like advance.

According to a leading expert the total crop of wheat in the United States this season will be 707,000,000 bushels. As the CORN-September, 671/2/2671/2c; Decemsame authority two weeks ago had put ber, 541/2c; May, 581/2c. the probable aggregate at 760, bushels and had figured a month that the sum would be only 641,000,000 bushels, the effect on the market today tended heavily to favor the bear side. Weakness, however, was apparent from the start, the chief early influence being confined to the seven upper counties of North Dakota and to about half as much

North Dakota and to about that as much territory adjacent.

A raily in the last half hour resulted from an improvement of cash wheat demand, sales of 900,000 bushels here under reported. The fact that world shipments restricted to be light counted as an ald successful to be successful t reported. The fact that world shipments promised to be light counted as an ald to the bulls. In the course of the session September ranged from 626 V<sup>20</sup>kc, with the close firm, but ic net lower at 2016 20%c.

Heavy rains in the southwest where needed brought about a down turn in the price of corn. There were also predictions that the crop this year would be 78.000.000 hushels more than last season. September fluctuated between 66% 2066% and 68c. closing firm at 67% 366% a loss September fluctuated between 654206.5c and 68c closing firm at 674,6674, a loss of 464c net. Cash grades were weak. No. 2 yellow, 744,675c.

Increasing sales to arrive depressed oats. September ranged from 32c and 324c, comparatively steady. The only net gain was January pork 5c.

HOGS—Trade in hogs today was again active and about 5 to loc higher than yesterday's market. Business started early with shippers the strongest buyers packers waiting until a little later in the morning before filling the bulk of their orders. In most cases shipping hogs were made a dime higher. The mixed and packing grades changed hands 5c higher than yesterday with the common kinds showing about the same advance. Of late, the spread in prices between choice light and common heavy hogs has been becoming narrow, but this morning common hogs did not sell to as good and antage us on yesterday. On the whole there was a good demand. Trade was active from the opening and practically everything was disposed of by 10.36 o'clock. Several loads of good lightings were bought by shippers at \$2.0, the top price of the day. This is the lighest price for hogs since November, 170, the same price having been paid in gaunary, 1911.

Until today the highest point touched by the bog market this year as shown by the bog market this year as shown by the common results for the large the bog market this year as shown by the bog market this year as shown by the large the price of the bag market this year as shown by the price of the bag market this year as shown by the bog market this year as shown by the bog market this year as shown by the price of the bag market this year as shown by the bog market this year as shown by the price of the bag market this year as shown by the price of the bag market this year as shown by the price of the bag as shown by the bog market this year as shown by the bog market this year as shown by the price of the bag market this year as shown by the bog market this year as shown by the bag market this year as shown by the price of the bag and the price of the p
