

HEAVY RAINFALL IN WEST

Western Part of Nebraska and Kansas and Eastern Colorado Soaked.

SIX INCHES FALL IN SOME PLACES

Cloudburst in Eastern Part of Colorado Washes Out Some of the Burlington Tracks—Rain Works Itself East.

According to the reports to the railroads, the heaviest rains in years were general over the western half of Nebraska and Kansas and over eastern Colorado and Wyoming Thursday night.

At the time of the morning report to the Burlington, heavy rains were falling all through the Republican valley lines in northern Kansas, the precipitation at that hour nearly everywhere exceeding an inch and in numerous places nearly double this.

Through Nebraska rain was falling as far east as Hastings, seemingly much heavier to the west. Between McCook and Benkelman the water was over the tracks and the low grounds nearly the entire distance was a lake.

North of McCook and covering an area of a couple of counties on either side, as far north as Alliance, station agents reported one and two inches and still raining, with every indication that it might continue for hours.

Cloudburst at Peetz. The heaviest rain on the Burlington system was on the Brush-Alliance line, just over in Colorado, south of Sidney.

Plateau Valley Soaked. Up the North Platte branch of the Union Pacific there were heavy rains all the way to Bridgeport, ranging from one to two inches, throwing many of the streams out of their banks.

On the St. Joseph & Grand Island, Concordia reported three inches, which about the same amount of precipitation all along the main line through Kansas and into Colorado.

On the Northwestern lines there was little rain west of Chadron, but from there northwest into Wyoming and up into the Black Hills country there was a steady downpour last night and this morning heavy showers over the entire honestest country.

Republican County Committee Opens Its Headquarters

Many county committeemen visited the Douglas county headquarters of the republican party yesterday in the newly opened quarters at room 750, Omaha National Bank building.

Mayor Jim Learns to Drive His Auto

"Wo-o-o," said J. C. Dahlman, Omaha's cowboy mayor, as he drove to his office yesterday in a new seven-passenger automobile, purchased for him by the city commission.

When the mayor started out he had listened attentively to advice on the proper levers to jerk in emergency, but his hands are more accustomed to the handle reins than to a steering wheel and he can't get used to a stationary stirrup.

INDEPENDENT PHONE POLLS BEING REMOVED

Chief City Electrician Michaelson has received assurance from the Nebraska Telephone company that all poles used by the Independent Telephone company, now defunct, will be removed from city streets as fast as the lines are vacated.

Aishton Says that Business is Fine and Getting Better

Vice President Aishton of the Northwestern came from the east yesterday and after spending a couple of hours inspecting the new \$90,000 freight depot that the company is erecting at Council Bluffs came to this side of the river, remaining until afternoon, when he went to make a tour of the South Platte country lines.

bright and I believe that Omaha is going to go ahead. The country is back of it with a splendid crop, and times ought to be good. We are going to do our share to help get the crop to market, but if the millions of bushels of grain should be thrown onto the market with great rapidity no road or system of roads in the world could handle it.

UNITED DOCTORS CURE

They Found and Removed the Cause of Mr. Davison's Trouble at Once.

Every month since I commenced the United Doctors' treatment it has been a pleasure to report progress and improvement, and now, after being treated under their treatment for five months, I am almost entirely free from the pain in my back and hips from which I had suffered so long.

"As to my stomach trouble and constipation, which has been of thirty years' standing, I can say that I now have a good appetite and can digest my food better than for years and have not had to take any bowel pills for over six weeks, the longest time I have missed taking physic of some kind in twenty-five years. My kidneys are so completely relieved that I am able to do considerable work in the field, which is also a new thing for me.

"My case was so complicated that perhaps that is why it fooled the other doctors. I paid them lots of money for treatment, but I never got any permanent relief until I went to the United Doctors. "I had given up hope of ever getting any better, but finally took the advice of my family who had been trying for a long time to get me to consult with the United Doctors, but I had thought it was of no use. But finally I was persuaded to go and be examined and I saw at once that they understood my case and they seemed to get to the right spot at once and commenced removing the cause right from the beginning. I am sure that when my treatment is finished I will be as well as any man could be.
