Nelson and Others Urge Legislation to Prohibit Postal Workers from Joining Labor Organizations.

WASHINGTON, Aug. 10.-Increastd pay for rural mail carriers and federal appropriations for good roads held the interest of the senate today in debate on the postoffice appropriation bill. Attempts to bring both subjects to a vote were defeated by the inability of senate leaders to keep a quorum in the chamber. The plan for federal aid to public road

building in the states will be taken up Monday and a vote had on several important amendments that are pending. This will be followed by a vote on Senator Johnstone's amendment to increase the pay of rural carriers from \$1,000 to \$1,200 per year.

The postoffice bill, as passed by the house, carries the Shackelford amendment authorizing the government to help defray the cost of maintaining roads used for public purposes. The senate committee has recommended in its place a federal commission to investigate the subject before any money is appropriated. Today Senator Overman of North Caroappropriation of \$500,000 to each state for good roads work, to be available as soon as the state had appropriated a like

Increase Asserted Not Enough. Senators Gronna, McCumber, Simmons Johnston and others led the fight today for increased pay for rural mail carriers. The senate committee has authorized an increase of 10 per cent from \$1,000 to \$1,100. Senator Clapp of Minnesota, declared the rural carriers would still be under paid at this figure. Senator Gronna demanded creater increase of compensation for carriers whoseroutes are longer than the standard of twenty-four miles.

Legislation to prohibit postal employes from joining "outside labor organizations" was urged by Senator Nelson and others. Senator Nelson declared postal employes should be allowed to have their own organizations, but that it would be "a calamity" if they were joint organizations like the American Federation of Labor, where they might be ordered out on "strike."

Senator Cummins joined in saying that it would be "intolerable" to allow postal or other government employes to be subject to strike orders. Both senators joined with Senator Reed, Clapp and others in demanding that postal employes have the right to appeal to congress for a redress of their grievances.

President Has Refused to Sign Twenty-Five Measures.

MORE COMING THIS WEEK

Measures-Statehood and Army Appropriation Among Most · Important.

WASHINGTON, Aug. 10 .- When President Taft yesterday vetoed the oll bill eh had stamped with his disapprovala the twenty-fifth legislative measure sent to him from congress. Most of his vetoes have been on camparatively unimportant subjects.

Four of his vetoes have been of tariff bills. His one other veto of importance last year was directed at the joint resolution admitting Arizona and New Mexico to statehood. This bill met with executve dsapproval because of the provision in the Arizona constitution allowing the recall of judges.

In adition to the wool bill, the president has returned one other important measure at this session, the army appropriation bill, which, as it passed congress would have legislated General Leonard Wood out of office March 4, and would have made radical changes in the army. Already, however, he has planned enough vetoes for this session to add half a dozen to the present record.

The vetoes of the steel tariff bill and the legislative, executive and judicial appropriation bill with its amendment abolishing the commerce court, will be sent to congress early next week. Messages returning the proposed cotton revision bill and the excise bill will be prepared when congress sends them to the White House

Detectives Trying to Trace Bank Deposits

Police Lieutenant Becker, now behind the bars for the murder of the gambler, Herman Rosenthal, is said by members of the line introduced an amendment for an state's attorney's staff, to have deposited Man Held Eight Months by Mexthousands of dollars in several savings banks.

The deposits were the proceeds, the public prosecutor believes, of gambling and blackmail, and the search for these savings accounts is being continued, not only in the city, but in Rochester, where, it is understood, Becker has an account under a name not his own. Detectives of the district attorney's office say that two accounts, one in a savings bank in Newark and another in Elizabeth, N. J., belong to Becker.

District Attorney Whitman, before departing for a two days' rest in Manchester. Vt., indicated that he believed that the police know where Harry Horrowitz and Louis Rosenzweig, the two much wanted gunmen, could be found. The public prosecutor points out that "Dago Frank" Cirofici and "Whitey" Lewis were not taken into custody by the police until his own detectives were close on the trail of the two gunmen.

And yet Roosevelt threatens to beat senators, congressmen, governors, sheriffs and coroners uness they declare for him.

"Loyalty to progressive principles othing to do with the matter. In Ohio Judge E. B. Dillon was nominated on the republican ticket for governor. Dillon was enough of a progressive to be acceptable to progressives. But Rooseveit thereafter demanded that Dillon declare for him (Roosevelt) or face the opposition of a second candidate. "Governor Deneen of Illinois was not asked by Roosevelt's agent how he would stand as to Lorimer's successor or whether he would support a progressive state program. The Illinois congressmen were not catechised as to their position on national legislation. But they are plainly given to understand that if they declare for Roosevelt they will be aided, or at least will not be opposed by Roosevelt. That is the meaning of the telegram which each one received from Roosevelt's managers in Illinois.

"Support of Me," Sole Test, " How do you stand on me? is Roose velt's sole test of qualification for a progressive.

"What would become of the progress movement under such leadership, And yet, it is exactly the plan Roosevelt pursued when president. It is the Roosevelt way. He supported Lodge for United States senator two years ago, and Penrose for United States senator four years ago. He has always played this kind of a political game.

"It is characteristic of Roosevelt that, while he seizes upon issues that make good propaganda and gives them publicity, he has not the pattence nor stability nor depth of conviction to prevent his sacrificing essential principles and permanent results to personal considerations and temporary advantage. STATE POLITICS PICKING UP

Committees Soon to Meet to Tackle Several Ticklish Problems.

BULL MOOSERS TO GATHER AGAIN

Convention of Two Weeks Ago to Be Reassembled as if it Had Taken a Recess and Had Not Adjourned.

Nebraska politics which have been rather quiescent since the platform conventions promise to pick up some the coming week, although no one expects the cam paign to get on a full head before next month.

Both state committees made by the loublet conventions in Lincoln, and each claiming to be the regular republican organization, are to be convened in Lincoln. The committee named by the Aldrich-Yelser convention, which made H M. Bushnell of Lincoln temporary chairman, is to have a session Tuesday to hoose permanent officers. This committee is the one that is essaying to turn the machinery of the republican party so far as concerns the presidential ticket, over to the candidate of the new progressive party, and the pins are said to be set to make F. P. Corrick of Lincoln. chairman. Mr. Corrick was secretary of the state committee several years ago and has aspired ever since to the chairmanship. He was in the La Follette pew in the primary, but has since slid over

into a Roosevelt seat. The committee named by the regular republicans, of which General J. H. Culver of Milford is acting chairman, is called to meet at the Lincoln hotel at 2 p. m., Wednesday. The notices for the meeting are being sent out by Secretary Frank Shotwell, and inform members that the purpose is to effect a permanent organization, and transact any other business that may come up. So far as is known no slate has been made up for the official places.

In the meantime the candidates nomi nated on the state ticket as republicans are having their troubles, being summoned peremptorily by the bull moosers to side in with them, or take the consequences. The candidates themselves expect to hold a family gathering to talk the situation over, and discover, if they can, just where they are at. The chief difficulty arises over the electoral ticket, which is divided between Taft and Roosevelt supporters, and every one running for state office sees the necessity of having this kink ironed out, so as to make it possible to vote a straight ticket if desired. What most of the candidates would like is to have two sets of electors, one labeled "republican" and the other 'progressive," and have their own names carry both labels.

Bull Moose Program The political wise ones are also looking call to be issued fon the organizashole standard of ethics is his own per- in Nebraska. The bull moose convention that met in Lincoln two weeks ago did not do anything but choose delegates to the convention at Chicago, making everything else dependent upon action to be taken there. It is said now that the convention did not adjourn, but merely took recess subject to call of the chair, and that instead of having a brand new convention the old one will be reconvened. taking no chances on having intruders get control. This convention will name a set of eight presidential electors for the Roosevelt ticket, presumably five or six of those already nominated, with two or three names added. What it will do on the rest of the ticket is uncertain, but the assumption is that it will endorse those candidates that take oath to support Roosevelt and join the third party and either pass up the others or put in party. new nominations. This bull moose convention will probably be held in Omaha the first part of September in hope of making a better showing than was made delegates and spectators all told, and it is possible some big-gun speaker may be sent in to help drum up a crowd.

Kansas Federal Judge Restrains Woodmen Camps

ROCK ISLAND, Ill., Aug. 10.-(Special Telegram.)-Judge Ralph C. Campbell of the federal court sitting at Fort Scot, Kan., today issued a sweeping temporary injunction restraining 163 local camps of the Modern Woodmen of America, out of 900 camps in that state from proceeding with the organization of a seceding order called the Kansas Fraternal Woodmen. The court forbids action of any kind or character until August 24, the date set for final hearing.

Head Clerk C. W. Hawes at the headquarters of the society in this city said the society's counsel entertained not the slightest doubt the temporary injunction would be made permanent. The head clerk said:

He Predicts that it Will Make Platform, but Will Not Endorse Any Candidate for the

OYSTER BAY, N. Y., Aug. 10,-How near the progressive party came to a break at its first national convention was told today by Colonel Roosevelt. The negro question, he said, created a breach which for a time threatened to make serious trouble. The disagreement, said Colonel Roosevelt, was due largely to the fact that some northern delegates who were genuinely anxious to help the negro in the south did not understand

how to do it. They told the colonel that by refusing to give the blacks in the south representation he was treating them unfairly and that they could not consent to such action. Colonel Roosevelt's reply, he said, was to point out to them the attitude of the negro delegates in the republican convention and to say that if they wished to create these conditions within the progressive party they must do it without him. In the face of this ultimatum the colonel had his way and he believes that he succeeded in con-

vincing those who at first opposed him that it was the right way. "It was the only way, absolutely," Colonel Roosevelt said. "If the new party should win," he continued, "many people would say, six months after election, that the plan had failed, because the egro still suffered from injustices." But in'ten years, he said, they would understand that a step in advance had been taken and that the country was on the right way toward the solution of the

whole problem. Colonel Roosevelt cheerfully admitted tion of a straight-out bull moose party platform had taken material from the democrats.

"William J. Bryan says you have taken democratic ideas." he was told "We have," he replied with a smile We have taken all the democratic ideas
