Thus declared Sam Schepps today, ar rested here for alleged complicity in the Rosenthal murder. He denied vigorously that he had made a confession.

District Attorney Whitman wired Acting Mayor Pettit of Hot Springs today that a detective authorized to get Schepps' extradition papers from Governor Donaghey was due in Little Rock today. He will go immediately to Hot Springs if he kets the necessary papers.

"What's the use of going to all that trouble?" asked Schepps. " I will return to New York without extradition

Schepps seems to have lost all fear o returning to New York, but he appears anxious to discredit the confession of "Bald Jack" Rose. Schepps says he is indignant at Rose for implicating him in the Rosenthal murder. What he has to tell District Attorney Whitman, Schepp declares, will cause rigid investigations to continue well into next year.

"I am the keystone in the arch." Schepps said, "and when they get me back to New York, the entire arch will fall. There was one important thing we overlooked and that was to change the number of the automobile."

One statement he made has confused the local officers.

"You can mark the date-on the twentyfifth of February-all this investigation will stop," he declared, but refused to amplify the assertoin.

Schepps at Hot Springs already has in-

dicated that he may confess everything that he knows of the murder. Schepps, according to Rose, rode in the murder car up town and later paid the gun men for their work. "It vexes me very much that it has been stated that \$2,000,000 has been fixed as the figure. I have not the slightest netion of how much is necessary, but I remember Mr. Bryan telling me the sum used in his campaign. I have forgotten the exact figures, but it certainly was inder \$1,000,000.

Governor Wilson also amplified his lews on organizations and political machines upon which Frederick W. ## A story with a moral for the agricultural supply man

Here is a little story, many years old. A young farmer was complaining because he had so little money. Said a neighbor: "If you dig deep enough in that turnip field next your house, you will find gold." So all summer he toiled and dug; he had a wonderful crop of turnips, but found no gold. One day the neighbor met him, looking weary and sorrowful, driving a load of prize turnips to market.

"I see you found your gold," said the neighbor. "Where?" said the lad. "There," said the smiling neighbor, as he pointed to the big, round, yellow turnips.

The wonderful gold mines of South Africa, the Rand mines, yield \$175,000,000 a year. Their discovery startled and thrilled the world. The yearly output of the farms of the state of Nebraska exceeds \$400,000,000; the total farm population is a little over half a million; the state is not yet half tilled. This has not thrilled anybody yet—it's time it did.

It is time for the people of Omaha and the state to wake up and realize that Nebraska is full of gold; that all it needs is to be scientifically and thoroughly and completely cultivated and farmed.

Some things are being done in Nebraska and are well done. Fortunes are being made by those who are doing good work, using both their brains and their hands.

In order to compel our own people to do as well as the best, and to attract those who are ambitious to come to a state where so many opportunities lie open, The Bee is about to issue the

# Nebraska Development Number The Omaha Bee

The Bee asks those to co-operate with it in distributing this magazine who will soonest and most directly be benefited by a greater farm output.

The creameries, the live stock commission men, the poultry supply houses, agricultural implement concerns, all depend for the growth of their business on the growth of the farms.

They will do well to stock up with the Development number, and send it out far and wide, all over the United States, to Canada, even to Europe.

Nebraska needs more farmers, who will produce more grain, more cattle, more cream-more turnips.

This magazine number will appeal to farmers; first, because of its appearance-it is about 14x10, on book paper, stitched, edges trimmed, beautifully illustrated; second, because it contains just the information which will inspire him with enthusiasm for Nebraska.

The development of Nebraska is bound to come. Why not bring it about in your own lifetime?
