The Oats Market Has Been Acting

Sluggish for the Last Week, Nothwithstanding Action in Wheat and Corn.

OMAHA, Aug. 14, 1911. The sudden strength in the wheat marfrom the northwel was very bealish, with no rain to a arm the trade over 2 wet harvest, and the reports on yields over fattering as on previous days, but the added a bearish feature to the mantet by reporting that the east is asking for very little spring wheat so far. The secret of the tightening of the market stems to be in the cash situation, with a correase instead of an increase in the stocks. There is little crance of any im-to tant increase in the vilible supply for some time, and the cast, prices will un-

of action in the ceptember option. Cash Certain lenours in the corn trade are September under cash corn. The market presents two distinct propositions, the cash and September based on small sup-plies of old corn, with more or less of congestion in the market for the early months ever since last May. The new cash prices must be based on the promise of the growing crop which is certainly fiattering at this time. Leaders in the live stock trade declare that less corn be needed for feeding from the 1912 crop, and it looks now as if crop might ed last year by over 300,000,000 bushels. Continued fine weather will undoubtedly

the action in wheat and coin. The cash demand continues good, with no accumulations from the new crop. Cash oats unchanged to 4c lower.

Prices on Board of Trade.

CHICAGO, Aug. 14.—Grain prices were CHICAGO. Aug. 14.—Grain prices were weaker today, a factor being fine crop weather. Cash demand was negligible and istronger, early cables failed to noid the market. The close was generally steady on the lower levels, with wheat the to the off.

Lack of buying was noticeable in wheat, Shorts, who of tate have covered freely, seemed content and liquidation absorbed the learly gains. Cables, largely based on unpromising European crop conditions,

were higher and were reflected in the early trading by upward prices. The uniformly favorable reports, with their story of undiminished yields, coupled with a lessched cash and export demand, crowded the figures down. The close was steady. September ranged between 25%c and 25%c, final figures being 4c lower at 35c. December touched 35%c and 25%c, and finished %6%c lower, at 12%4623%c.

HOGS-Prices generally were put on a oc higher level this morning. With a moderate run of hogs here and bullish tenerts from Cricago and other markets.

speculators paying fully 5c higher and my trans was gun added their requirements. Aithough a pretty fair number of good shipping hogs were among the offerings, shippers were a little conservative in their buying and bought no more than recently. Evenness was a promnent feature of today's trade, as the packers took hold of the market offer the more took hold of the market after the more urgent shipping orders were filled and paid prices about steady with the opening. Both mixed and heavy packing grades changed hands mostly a nicket higher than yesterday. The market was fairly active throughout and a complete clearance was made comparatively early

in the morning. A few loads of good light hogs sold at the top price, \$8.35.

SHEEP-While receipts of sneep and lambs this morning were a little larger than a week ago and a year ago, they were lighter than two weeks ago. Ac-cording to first estimates the receipts footed up about forty-three cars or in the neingliborhood of 10,750 head, the blg bulk of the offerings consisting of lambs. There were just as few fat sheep on the market as vesterday and with the excepshowed pretty fair quality or about the same as on yesterday, there being a goodly number of fair to good lambs on

As a matter of course the increased iscompts are due to the lact that western sale. Really choice stuff of any kind was carce.

Leafy as the season advance.

Iteally desirable beef steers were very stance this moning, while the supply on of five cars of Montana wethers at \$3.95, practically nothing else was done during medium kinds. The general market on beef cattle was very slow and buyers remed determined to buy the cattle for less money than reservance or least them. less money than resterday of leave them any solution in the eastern trade, and this fact had a beartiff influence on the local trade, any anceu before the property much business was than acted, but in the end the cattle solution anywhere from weak to loc or more life. on Monday. Buik of the wethers on sale today were fat and in good condition, but had a little too much weight to suit the

packers.
As a fairly liberal supply of lambs was on hand and prices here being a little too high when compared with the eastern trade the market continued very dull and trade the market continued very dull and weak throughout most of the forencon. PROBE GRAFT IN CLINTON

Manner in Which Bridges Are Put in Subject to Inquiry.

OTHER COUNTIES COME NEXT

Lightning Destroys Station at Dallas Center-Des Moines Citizens Object to Noise Made by Loco-

motive Whisties.

(From a Staff Correspondent.) DES MOINES, Ia., Aug. 14.-(Special Telegram.)-Henry E. Sampson, assistant attorney general, has returned to Clinton to continue directing the probe into graft in county affairs there. An investigation is being made by expert accountants and by the highway commission as to the cost of bridges, also the grand jury is probing into the manner in which county business has been transacted for a good many years.

It is found that there has been great graft going on for a long time and the county is out large sums. One member of the board has resigned and other resignations are said to be imminent. When the probe in that county is completed other countles will be investigated also.

Lightning Destroys Station. Lightning at an early hour today caused the burning and complete loss of the station on the Minneapolis & St. Louis railroad at Dallas Center.

Too Much Whistling. A delegation of residents of a fashionable residence district called today upon the chief of police and induced him to ask of the railroads that they stop the unnecessary use of whistles on that part of their line between the city and Valley Junction. Traffic has become very heavy and the use of the whistles, it is claimed, is compelling many people to remove from the residence dictrict, which is adjacent.

Organize to Aid Schools.

Prof. P. G. Holden was today placed on a salary of \$5,200 a year by the Greater Des Moines committee and its newly organized crop association to engage in showing how to teach agriculture in the rural schools and to carry on the work that is planned by that association for the betterment of crop conditions, His secretary, Prof. Stayner, who managed the recent unsuccessful political campaign for Holden, is in charge of the organization of the state to carry on this work in the schools.

Candidate Gets Off Ticket. The secretary of state today received notice from George C. Yeaman of Sloux City withdrawing as a democratic candidate for the legislature from Woodbury county. Yeaman was nominated at the primary by having his name written on, but it seems there is a desire to have another candidate who will be named by the county committee.

Going After Incendiaries. The state fire marshal will present to grand juries in various counties of the state the matter of accusations against ten different persons suspected of having burned buildings. Incendiarism is de expects to convict several more persons this year and then devote most of the

time to inspections. Preparing for Car Shortage, It was announced here today that the Chicago & Northwestern railroad has just ordered 2.000 new box cars for use in the western business, especially in handling grain. Other roads are also making purchase of equipment, all in anticipation of a demand of great force for the crop-moving season.

Open Up Bull Moose Campaign. Carl Franke, the chairman of the new progressive party state central committee. today opened up headquarters for that organization and from this date on an active campaign is promised. A supply of literature has been ordered and a dragnet is out for speakers willing to go on the stump in this and other states to talk for Roosevelt.

seen fit to open for the campaign. is expected the democrats will get started ahead of the regular republicans and it is still not decided whether there will be two republican committees.

SWALEDALE-Mr. and Mrs. Gus Dahlstrom, of near here are the parents of triplets, born yesterday. The youngsters are two girls and one boy, weighing, 4, 6 and 8 pounds.

HAMPTON-Lightning which struck the Farmer's elevator here at 4 o'clock Monday morning set fire to the building completely destroyed it and 10,000 bushels of oats and wheat. The loss is estimated at \$6,000, fully insured.

REINBECK-Seven hundred and twenty acres, three farms belonging to as many estates, were sold at public auc-tion here today for a total of \$112,470. The lion nere today for a total of \$112,470. The largest of the properties was the Alexander, 360 acres, which sold for \$152 an acre, a total of \$54,720. The other farms brought \$155 and \$145 an acre. farms brought \$155 and \$145 an acre.

CORNING—The news has just reached here of the death by drowning of Thomas Gill, a former resident of this piace, who went to Fresno, Cal., four weeks ago. Mr. Gill, with a friend, a Mr. Piper, were enjoying themselves at a swimming pool at Fresno. They were lying on the sand when a party of men piayfully seized them and threw them in the water. Piper swam across the pool, but Gill, who could not swim, drowned. The
