THE YOUNG PEOPLE'S OWN STORE
BENSON & THORNE Co.
 1518-1520 FARNAM STREET

POSTAL SUB-BANK IS OPENED

Government Savings Depository is Established in Brandeis Store.

PATRONS RUSH TO BE FIRST

One Woman Refused the Privilege of Opening an Account Because She Would Not Tell Her Age.

Isadore Fanger, 2450 Decatur street, alias "Red Fang," a newboy at Sixteenth and Farnam streets, had the honor of opening the first account in the postal savings bank at the Brandeis stores, which threw its doors open to the public at 9 o'clock yesterday morning.

"Red Fang" was waiting at the door of the big store before it was opened in the morning and when admitted to the store made a wild run for the new bank, where he managed to hold his place at the window until Thomas Redman, superintendent of the bank, threw up the blind announcing the opening of the first postal savings bank in the United States outside of a postoffice.

However, Fanger was not the only man in line when the bank was opened. About twenty people were there when the window was opened. At the close of the noon hour over 100 people had deposited sums ranging from \$1 to \$75 in the new bank.

A Professional Deposit.

The second person to open an account with the bank was Samuel Burns, one of the oldest merchants in Omaha. He has been in this city since 1861 and has had the distinction of being one of the first depositors in postal accounts in almost every bank in the city.

Tom and Jack Redman, the young sons of Thomas Redman, were third and fourth to open accounts. There were also many who tried to open accounts, but for several reasons were refused.

Mrs. Thomas Drew of Milan was most crestfallen when she tried to put \$5.00 in the bank, but was told that nothing more than \$100 was allowed to be deposited at one time. Mrs. Drew said she has sold her farm and carried the money to the bank in a shoe box. She tried to get Mr. Redman to take the money and give her a receipt for the same, but this, he informed her, was impossible.

CONSTRUCTION COMPANY SUE FOR MAN'S DEATH

Fatal burning of Samuel Larsen, employed by the Selden-Breck construction company, builders of the Keeline building, is the basis of a \$15,000 damage suit in district court. Mrs. Mary Larsen, widow and administratrix of his estate, sues the construction company.

Larsen was employed to fire and tend the salamanders to keep concrete work in the building from freezing. A can of gasoline exploded in his hands, setting fire to his clothing. He died January 17. It is alleged the company negligently failed to have gasoline cans labeled in vermilion red and Larsen mistook a can of gasoline for one of oil.

PENSION AGENT MAKES REPLY

Hedge Says No Saving to Government Will Be Made.

ALL CLERKS WILL BE RETAINED

Pets Forth Assertion that Business is Being Handled Cheaper at Local Points Than from Washington.

DES MOINES, Ia., Aug. 15.—(Special Telegram)—Hugh B. Hedge, pension agent for the Iowa-Nebraska district, said today that the abandonment of the local pension office by congressional action would not effect any saving to the government but rather would increase expenses.

"The records show that the business is being handled cheaper here than from Washington," said Colonel Hedge, "and consolidation of the business will be an expense to the government."

C. D. ELLIOTT, FORMERLY OF OMAHA, DIES IN SEATTLE

IOWA CITY, Ia., Aug. 15.—(Special.)—Clarence D. Elliott, formerly an attorney of Iowa City and Omaha, died in Seattle, Wash., and will be buried at his old home, Tipton, Ia. He was state organizer of the Modern Woodmen of America in Seattle after leaving Omaha and organized Elliott Bay camp, now the largest camp in the world, save one.

Printers Will Meet Next in Nashville

CLEVELAND, O., Aug. 15.—Nashville, Tenn., today was chosen as the 1913 convention city of the typographical union by the convention in session here.

The only roll call of the session came on a resolution to establish an employment bureau. It carried after a heated debate.

A thousand telegrams were sent from the convention hall to senators and congressmen at Washington protesting against the proposed increase in postal rates on second class mail matter.

As a result of a division in the women's auxiliary over the right to recognize Mrs. Frank N. Long of Cincinnati, international secretary and treasurer, Mrs. Long and a portion of the delegates convened separately and after electing Mrs. C. A. Bennett of Springfield, O., president pro tempore, made plans to recognize no other organization or convention than their own.

REPOR TIS MADE ON BATTLE IN MANAGUA

ing in the death and wounding of twelve women and children.

During the bombardment, General Thomas attempted to take the government position at La Toma by assault from the southeast to which the government vigorously replied with cannon and the fire from the men in the trenches.

The government's heavy guns, however, were directed away from the city. After an engagement lasting two hours, the fire of the government forces was compelled to withdraw. Later they resumed firing upon the city and the government forces planted field pieces 1,000 yards east of the American legation, while two of the government boats protected the lake front, and under the government's cannonading the rebel forces retreated until evening when they continued to drop shells into the city during the night.

The casualties are reported heavy, particularly among the rebels. The government captured 3,000 rounds of ammunition and two rapid fire guns, disabling two more.

Colonel Restrain was killed. General Thomas is said to be seriously wounded, while Captain Emmanuel Chamorra of the government forces was mortally wounded. The American foreman of the electric light plant upon which the rebel fire was concentrated was wounded.

ARMY WORM EATS RUSSIAN THISTLES INSTEAD OF CORN

SIOUX FALLS, S. D., Aug. 15.—(Special.)—Bugologists are greatly interested in the peculiar and unusual taste exhibited by the pest and unusual taste exhibited by the army worms, which are operating in a limited territory in western Stanley county, near Kadoka. For years one of the greatest vegetation pests of the farmers there, as well as in many other parts of the state, have been the Russian thistles, or "tumble weeds," as they are commonly known. The army worms operating near Kadoka have developed a sudden taste for Russian thistles, which during past years have always been "passed up" by them. The army worms first appeared on the farm of S. S. Hughes, near Kadoka, and he thought his corn and other crops were a "poison." But, much to his surprise and delight, the army worms devoted their entire attention to the Russian thistles. They clean up the thistles and leave nothing but the clear stalks standing and do not in the slightest degree molest the grain and corn in the fields where they are operating. The selection of Russian thistles for food is a new "stunt" of the army worms and the matter will be reported to the experts of the Agricultural department at Washington.

PROMINENT MEN ON JURY INVESTIGATING ROSENTHAL MURDER

(Continued from First Page.)

says that for some time messengers from those "higher up" and from certain police inspectors have surreptitiously visited Vallon and Webber in their cells and told them to tell what they pleased about Becker, but if they informed on the big fellows they might as well make away with themselves, as they would meet death later.

Mr. Sullivan said, after seeing District Attorney Whitman: "Whitman has made a case against Becker and none of Becker's blackmailing employers seems to care a hang about Becker's situation. In fact, they have sent word to Rose, Webber and Vallon to throw Becker to the wolves. But they are determined that their own names shall not be brought out. Rose will make good, but Webber and Vallon have been reached and I am afraid they have made up their minds to weaken. I have told Vallon that he is not playing square and that I will not longer act as his counsel."

Patent Office is to Be Investigated

WASHINGTON, Aug. 15.—Investigation of the condition of business in the patent office was provided in a resolution adopted by the senate today.

The measure authorized the economy and efficiency commission to spend not to exceed \$10,000 in an examination of the system of granting patents.

Senator Sanders bitterly criticized the present system of issuing patents. "The congestion of business has become so great," he said, "that resulting conditions have made patents nothing but rights of action in the courts. They do not protect." The resolution had been adopted by the house.

Candidate Seidel On Campaign Trip

FARGO, N. D., Aug. 15.—Emil Seidel, former mayor of Milwaukee and now candidate for vice president on the socialist ticket, invaded North Dakota for a two days trip today. The only reference to a presidential candidate was made when he said:

"Theodore Roosevelt, that arch-reformer of today, is satisfied with a little regulation of railroads. I say you democrats and republicans are too cheap.
