DOUBLE DEADLOCK IN CONGRESS IS BROKEN AND SESSION CLOSES

Senate and House Pass General Deficiency Bill and Adjourn Sine Die.

LA FOLLETTE WINS HIS POINT

Resolution to Continue Archbold-Roosevelt Inquiry is Passed.

Committee Will Investigate Correspondence with Congressmen.

STATE CLAIMS TO GO OVER

Chamberlain Abandons Filibuster on Condition That They Be Included in Next Session's Bill.

WASHINGTON, Aug. 26.—The second session of the sixty-second congress adjourned both houses at 4:30 p. m. today. The double deadlock that had held it over from Saturday and into an early morning Sunday session dissolved when it met today.

Without a roll call Senator La Follette won his fight to force the senate to pass the Penrose resolution, directing an inquiry into the Archbold-Penrose-Roosevelt controversy involving Standard Oil contributions to the republican campaign of 1904 and correspondence or financial transactions between Mr. Archbold, George W. Perkins, Colonel Roosevelt and members of congress.

The committee which is directed by the resolution to make the inquiry, however, will not begin before October. The general deficiency bill, upon which there was a second filibuster in an attempt to force the house to accept the senate's amendments to pay certain claims of Oregon, Virginia, Maryland and Texas, was finally agreed upon with the understanding the bill be passed this year without the claims and that they be included next year.

And thus the session came to a close without a voting quorum in either house. Provision of Resolution. "As finally amended the resolution authorizes the Clapp committee to probe the following points: The statement of Senator Penrose made in the senate regarding the Standard Oil company's campaign contributions to the republican national committee of 1904. Expenditures and contributions in the campaign fund for presidential nominations this year. Financial transactions and correspondence relating thereto between John D. Archbold and members of the senate and house. Financial transactions and correspondence relating thereto between George W. Perkins, Colonel Roosevelt and members of the senate and house. The house took a recess at 2:30 o'clock until 4:30 on the theory that the senate then would be caught up and an adjournment soon would follow.

ATLANTA CONTRACTOR LOST IN MICHIGAN WOODS

ATLANTA, Ga., Aug. 26.—Morse De Leon, prominent Atlanta contractor, is believed by his relatives here today to be either lost in the Michigan woods or to have met a more tragic fate. Police in Chicago and Michigan have been asked to search for him. Nothing has been heard from De Leon since he left his brother's home in Chicago, August 2, saying that he was going to Saginaw, Mich., and from there into the northern woods for a fishing trip. He is said to have had considerable money with him. E. W. De Leon of Chicago, brother of the missing man and president of a casualty company, today notified relatives here that the Saginaw police had been unable to discover if the contractor ever arrived there.

WORK BEGINS ON PARCELS POST SYSTEM AT ONCE

WASHINGTON, Aug. 26.—Postmaster General Hitchcock announced today that he would confer immediately with members of the Interstate Commerce commission, respecting rates for the parcels post system authorized by congress. The system will be put into operation as soon as practicable.

"I believe," said Mr. Hitchcock, "that domestic parcels post will prove of immense benefit to the people of the country and eventually will afford substantial financial support to the Postoffice department."

UNIVERSITY PROFESSOR WHO ADDRESSED STATE BANKERS.

Defense of Becker Will Be Conspiracy on Part of Gamblers

NEW YORK, Aug. 26.—With the appointment of W. J. Flynn, chief of the local secret service, as chief investigator of the aldermanic investigation committee, came the news today that the ablest defense in the country will aid Chief Flynn in ferreting out evidence of police blackmail. The committee expects to meet tomorrow for further organization.

Police Lieutenant Charles Becker, now behind the bars on charges of instigating the murder of Herman Rosenthal, the gambler, was busy today preparing defense of the accused lieutenant. Becker's lawyer, it is learned, expects to show that he was the victim of a gambler's plot, headed by "Bald Jack" Rose and the man who has supported his "confession."

Rose and others, counsel will assert, have sufficient reasons to seek revenge on Becker for his activities against them. It will be further alleged that a plot to murder Rosenthal was conceived three months before he was killed, but the plan was abandoned at the instance of certain east side gamblers. It also will be contended that Rosenthal was offered \$10,000 to go to Canada, but that when he demanded \$25,000 it was decided to make away with him.

Subpoenas probably will be issued today by the district attorney's office for the appearance of landlords of property used as disorderly houses and gambling dens before the special grand jury investigating police graft that has cropped out in the Rosenthal murder case.

Court Refuses to Dismiss Charge Against Darrow

LOS ANGELES, Cal., Aug. 26.—The motion of Clarence S. Darrow's attorneys to dismiss the indictment charging the former chief counsel of the McNamara with the bribery of Robert F. Bain, the first juror chosen to try James B. McNamara, was denied today by Presiding Judge Willis of the superior court. The case was continued until tomorrow, when the date of Darrow's trial on the Bain charges will be set.

Attorneys for Darrow, and the defendant himself, were obviously disappointed at the adverse ruling of the court. Earl Rogers, chief counsel for Darrow, argued that as the jury which tried Darrow recently on the charge of having bribed George Lockwood, had heard all of the Bain evidence and held it to be insufficient, it would be a waste of time and an unnecessary imposition upon Darrow to bring him to trial again.

District Attorney John D. Fredericks insisted that the state had strong evidence and was confident of a conviction. It was stated that the prosecution did not have to rely in this case solely upon the testimony of Bert Franklin and Bain, both of whom made confessions.

Postoffices Must Close on Sundays

WASHINGTON, Aug. 26.—All first and second class postoffices will be closed on Sundays as a result of one provision of the new postal appropriation bill passed by congress and signed by President Taft. Every important city in the United States is affected. Hereafter only special delivery letters will pass through on that day and no mail will be placed in lock boxes.

Postoffices in several cities have been closed Sundays heretofore. The postmaster general has permitted that under a regulation where it was evident that local sentiment demanded it. The closing is now compelled by law.

Traction Wage Dispute Will Be Settled

CHICAGO, Aug. 26.—Settlement of the wage controversy between the street railway companies and their union employees was expected to be reached today when union leaders and officials of the company held another conference at Mayor Harrison's invitation. It was the eighth conference called by the mayor to avert a general strike and bring about peace.

DAVENPORT CONTRACTOR DIES OF HIS INJURIES

GRINNELL, Ia., Aug. 26.—(Special.)—Thomas J. McCarthy, the Davenport contractor who was so badly injured in an automobile accident on Friday afternoon and brought to the city hospital here, was operated upon Saturday afternoon and died that evening. He was a well known contractor of Davenport, Ia. His three companions—Thomas Walsh, Patrick McCarthy and Reed Lane—are also prominent Davenport men.

ATLANTA, Ga., Aug. 26.—Colonel C. C. Wilson, aged 67 years, former president of the United Wireless company, died late last night at the United States penitentiary here, where he was serving a three-year sentence for using the mails in an attempt to defraud. Uraemic poisoning was given as the cause of the colonel's death.

Loeb Will Be Called to Testify in Regard to Campaign Funds

OYSTER BAY, N. Y., Aug. 26.—What Colonel Roosevelt knew and did in the matter of John D. Archbold's alleged \$100,000 contribution to the republican campaign fund in 1904, what President Roosevelt said to the late E. H. Harriman and what Mr. Harriman said to President Roosevelt about Harriman's \$200,000 contribution, are matters to which William Loeb, Jr., formerly Mr. Roosevelt's private secretary, is prepared to testify before the senate committee investigating campaign contributions, Colonel Roosevelt said today.

"Mr. Loeb told me last night that he had seen statements that he was to be brought before the committee," Colonel Roosevelt said. "He wished to come and tell me about these rumors. I told him that if he was called he was to go, of course, and to testify to everything."

WASHINGTON, Aug. 26.—George W. Perkins will not testify tomorrow, as had been arranged, before the Clapp committee of the senate investigating contributions to the campaign funds of 1904 and 1908. The terms over adjournment in which congress finds itself, which has made it impossible for the committee to get a quorum, has overruled that plan. The appearance of Mr. Perkins has been indefinitely postponed.

Banker Makes a Fortune

NEW YORK, Aug. 26.—Joseph G. Robin, who is in the Tombs awaiting sentence following his conviction for grand larceny in connection with the wrecking of the Northern bank, is said to have made another fortune through speculation which he carried on while a prisoner. With a view that Robin could furnish valuable information in the case now pending against former City Chamberlain Hyde, the former president of the Northern bank was not sentenced after his conviction, but was kept in the Tombs and during the daytime it is reported he occupied a room in the criminal courts building which is equipped with a telephone and typewriter.

Premier Borden is to See Suffragettes

LONDON, Aug. 26.—The British suffragettes are about to put Robert L. Borden, the Canadian premier, to the test. He has finally consented to receive a delegation of women who will place before him their views on all phases of their political status and request to be told of his opinions and as to whether he intends to do anything for their cause in the Dominion of Canada.

Mr. Borden has been the recipient of much attention from the suffragettes since his arrival in England some months ago.

He has, however, succeeded in evading their demands for an interview, but he has now relented and consented to meet a delegation which will call on him Saturday afternoon.

Two Boys Drowned in Pond Near Deadwood

DEADWOOD, S. D., Aug. 26.—(Special Telegram.)—Although he could not swim, 8-year-old Orl Griffen gave his life in an attempt to rescue his companion, John Layton, aged 12, in an ice pond near here yesterday and both boys were drowned. A watchdog guarding their clothes led to the discovery of the accident just too late. The older boy had gotten into fifteen feet of water and called for help. Both boys live in Teraville.

Masher Badly Hurt by Negro Athlete

DES MOINES, Ia., Aug. 26.—Raymond Dysart, colored, who last year played on the freshmen football team of Minnesota state university, is being held by the police after probably having fatally injured Michael Eide, white, when the latter, according to the police, insulted two young girls last night. Witnesses told the police that Eide threw his arms about the girls, that they screamed for help and that Dysart, who was standing nearby, knocked Eide to the pavement, breaking his neck.

APPEAL TO RED CROSS FOR AID TO FLOOD SUFFERERS

WASHINGTON, Aug. 26.—Tales of poverty, sickness and threatened starvation came to the American Red Cross headquarters here today from the relief committee at Natchez, Miss. The communication made an urgent request for \$50,000 to be used in alleviating the suffering on account of the recent flood in the Mississippi valley. The appeal was promptly telegraphed to Miss Mabel Boardman at Manchester, Vt., for action. It is probable that a preliminary donation will be telegraphed to Natchez tomorrow.

WOODROW WILSON IS COMING

Democratic Candidate Will Make One Speech in Nebraska.

SULLIVAN IS OUTLINING TOUR

All Addresses Will Be Formal and There Will Be No Talking from Real Platform of the Train.

CHICAGO, Aug. 26.—Roger C. Sullivan of Chicago, former democratic national committeeman from Illinois, said that Governor Wilson would make one speech in Chicago during the campaign and a second Illinois speech at some down state point, probably Springfield, during state fair week. Mr. Sullivan also said that Governor Wilson would speak at Kansas City, St. Louis and Lincoln, Neb. It was stated, however, that Governor Wilson would make no attempt to deliver any car-end speeches at any other points. His speeches at the cities named will be formal, and the democratic party nominees will do all his traveling between points at night.

SEA GIRT, N. J., Aug. 26.—Governor Woodrow Wilson's plan for making only a few scheduled campaign addresses and no stump tours met with the approval of the members of the campaign committee, with whom the governor conferred at national democratic committee headquarters in New York today.

"I am only to speak on particular occasions," announced the governor, "and there will be no stump tours."

In announcing his itinerary for the next three weeks, the governor revealed his intention of concentrating his attention on New York, Pennsylvania and New Jersey. He will open his campaign in New York with a speech on Labor Day at Buffalo.

British Newspapers Criticize Canal Bill

LONDON, Aug. 26.—The Panama canal bill was characterized today as practically a dishonest repudiation of a direct bargain, by newspapers representing the views of all the British political parties.

Meanwhile no definite procedure by the British government in regard to the bill can be framed for nearly all the cabinet members are scattered over the European continent at various watering places or else shooting grouse on the Scottish moors and most of the prominent politicians outside of the cabinet are engaged in similar ways.

It is certain, however, that the government will propose the reference of the question to The Hague court of arbitration, although no details of the method of submitting it have been agreed upon.

Petition for Recall of Gov. Johnson

SAN FRANCISCO, Aug. 26.—A petition for the recall of Governor Hiram W. Johnson has been put in circulation here by Alva Udell, an attorney. Udell could not be found today. Investigation failed to show that he had any powerful support in offering the petition.

One of the charges made in the petition is that Governor H. W. Johnson approving legislation intended to foster land grab by wealthy individuals. Udell led a demonstration against the relief corporation of San Francisco in the disorders following the great fire of 1906.

Soldier Probably Thrown from Train

SPARTA, Wis., Aug. 26.—Authorities suspect that George W. Burns, United States artilleryman, found unconscious on a railway track near Sparta today and who died later at a hospital, was thrown by companions from a moving passenger train late last night. Burns was 24 years of age and was a member of battery D, Fifth artillery, Fort Snelling, Minn.

POSTHUMOUS TITLE FOR LATE EMPEROR OF JAPAN

TOKYO, Aug. 26.—The posthumous title of "Meiji Tenny" meaning "emperor of the era of enlightenment," is to be conferred on the late Emperor Mutsuhito during a great ceremony to be held at the imperial palace here tomorrow. The Japanese Diet has been prorogued.

Demand Inquiry Into Charge Against West Virginia Senators

WASHINGTON, Aug. 26.—A demand for the investigation of the election of Senator W. E. Chilton and C. W. Watson of West Virginia was made in a petition signed by Governor Glascock and others, presented today to the senate through Senator Gallinger, the presiding officer. The petition called attention to the election of the two West Virginia senators.

A request for the reading of the petition was made by Senator Penrose before its contents were known. When the document had been partly read Senators Bailey and Bacon objected to the printing of its allegations in the public records of the senate before they had been investigated by the committee on privileges and elections.

The petition contained records of newspaper charges and alleged conversations, intimating that charges of bribery had been made, but never had been investigated.

Senators Bacon and Bailey charged that while the election took place nearly two years ago and the charges had been made about that time, Governor Glascock and his associates purposely had refrained from sending the petition to the United States senate until almost the last day of its session.

Illness Compels Kaiser to Cancel All Engagements

CASSEL, Hesse-Nassau, Aug. 26.—Emperor William is suffering considerable pain from the attack of muscular rheumatism which has affected him for some days. The doctors in attendance have advised his majesty that it will be necessary to avoid exposure during the prevailing bad weather. The emperor has therefore taken strict precautions against cold and wet as he does not wish anything to interfere with his approaching visit to Switzerland to attend the army maneuvers there.

The report of the emperor's condition issued today says the muscles and glands of his majesty's neck are causing him great pain. The affection began with a chill on Friday, which was followed by pronounced illness.

FAMOUS GIRL UMPIRE SAVES MAN'S LIFE

SIOUX FALLS, S. D., Aug. 26.—(Special.)—By rendering first aid to the drowning, Miss Amanda Clement, the famous base ball umpire of South Dakota, who, during the last year has been physical director in the Young Women's Christian association headquarters at LaCrosse, Wis., saved the life of a young man who apparently had been drowned. Particulars of the rescue have been received by South Dakota friends of Miss Clement. Instead of returning to South Dakota this summer and accepting the numerous invitations to umpire ball games, Miss Clement has remained at LaCrosse, and has devoted the summer to teaching classes of young women and girls to swim. The young man was swimming near where Miss Clement had her party of girls. Another man named Hood went to the rescue of the drowning young man, and when he had brought him to shore was so exhausted himself that he could do nothing further to resuscitate the young man, who was next to death's door. Miss Clement saw the rescue and went to the assistance of the young man. Her knowledge of first aid to the apparently drowned came in very handy, and after strenuous work she had the satisfaction of seeing the young man recover consciousness. It was generally conceded that he would have died after being brought to shore had not Miss Clement been at had to work over him so promptly and so scientifically.

American Aviator Wins British Race

SAINT MALO, Aug. 26.—Charles T. Weymann, the American aviator, today won the principal event of the hydro-aeroplane meeting, which started here on Saturday. Weymann, who flew in a monoplane, made the excellent time of one hour and forty minutes for the distance of 145 kilometers, (approximately 90 miles, 1 furlong), from St. Malo to the island of Jersey and back. The whole race was over the waters of the English channel.

Eight-Year-Old Boy Dies of Bullet Wound

YANKTON, S. D., Aug. 26.—The authorities are investigating the death of an 8-year-old son of R. H. Bisset, a farmer of Beaver Creek. The little boy was found shot through the heart in the farm home. Four children were in the house alone and it is thought a young brother shot the boy accidentally in play, as a loaded revolver was found with one shot fired, replaced where Mr. Bisset always kept it. The boy denies any knowledge of how his brother was killed.

LIFE SAVINGS OF WOMAN ARE RESTORED BY CONGRESS

WASHINGTON, Aug. 26.—Foreclosure of a mortgage on a Montana home was prevented and the savings of a lifetime were restored to Mrs. Katharine MacDonald of Butte, when congress last night passed the Shoshone irrigation claim bill. Mrs. MacDonald will receive \$11,000 of the \$20,000 carried in the bill for the relief of about 400 claimants who lost heavily by the failure of a contracting firm which was creating the Wyoming project.

President Taft vetoed the original bill, but approved the measure which in its final form imposes the charge against the general reclamation fund.

ROYAL FLUSH ON TWO-CARD DRAW CAUSES DEATH OF FOUR

TEKOA, Wash., Aug. 26.—Four men were killed here today following an argument over a saloon card game. During a game of poker Patrick Collins drew a royal flush on two cards. On the "showdown" he placed a royal flush upon the table. A dispute followed, during which Curley Gardner struck Collins on the head with a revolver, killing him. Deputy Sheriff William Estep of Colfax and Grant Dickson, town marshal, went to the saloon to summon witnesses. As they entered the door, Palous Gardner, Curley's brother, shot both officers to death. Then he fired a bullet into his own brain.

PUGSLEY TALKS OF AGRICULTURE

Scientific Agriculturist of the State Shows that Soil is the Place Where Wealth of Country All Originates.

The feature of the first day of the sixteenth session of the convention of the Nebraska Bankers' association came yesterday afternoon when T. L. Matthews of Fremont in an address arraigned the money kings, the trusts and at the same time paid his respects presumably to Theodore Roosevelt, though he did not mention his name.

"I would not wish to say anything offensive or injurious to any address, but I am constrained to say that a man whose offers are filled with the stench of the steel trust, the harvester trust and others too numerous to mention, several of which were under indictment for high crimes and misdemeanors, that man is not an ideal character to stand as godfather to a reform party whose shibboleth is, 'Thou shalt not steal.'"

When Mr. Matthews finished the foregoing statement in his address on "The Relation of the Banker to Society," he was greeted by applause that lasted five minutes.

The speaker made the statement near the close of his address, which had been principally a vilification of the money kings of the world. He frequently was interrupted by the applause, but his reference to Theodore Roosevelt received greater endorsement than anything else he said.

Mr. Matthews said he was not framing an indictment finding all rich men criminals, "for that would in no wise be true." "We are voicing an objection," he declared, "to the maladministration of massed wealth and calling attention to a few danger signals."

invited to fill pulpits. When he had finished he received congratulations from all sides, two or three preachers inviting him to occupy their pulpits and deliver the address to their congregations.

Mr. Matthews quoted Andrew Carnegie, saying "While the law may be sometimes hard for the individual, it is best for the race, because it insures the survival of the fittest in every department. We accept and welcome, therefore, as conditions to which we must accommodate ourselves, 'Great inequality of environment.'"

"J. P. Morgan has a controlling influence in financial and industrial institutions whose capitalization amounts to \$12,000,000,000. The wealth of the United States is computed at \$100,000,000,000, so you see, Mr. Morgan controls an amount equal to one-ninth of the wealth of all."

"The Wall Street Journal defines banking power as being measured by the sum of capital, surplus, deposits and circulation. The 7,000 national banks have a combined banking power of \$3,000,000,000. Mr. Morgan's ownership and control of wealth, which I placed at \$12,000,000,000, therefore, just doubles the sum of the banking power of all the national banks of the United States."

"While Mr. Morgan's ownership and control is stupendous and monumental, he stands not alone as one, to whom the distribution of wealth has given prominence and undue and dangerous power. Mr. Carnegie's fortune is estimated at \$200,000,000, the larger part of it made out of watered stock sold to the people; rotten armor plates sold to the government, as was proved by a congressional investigation; the protection of an unequalled for high tariff and the abuse of the men, women and children in the employ of the Steel trust."

As to Rockefeller. "The personal fortune of Mr. Rockefeller is estimated at \$1,000,000,000, made by stifling competition, bribery, secret rebates, violation of the laws of humanity and the laws of God.

"The stench of kerosene has polluted the lobby rooms of every legislature from Maine to Manila, and no Rockefeller foundation will ever in time or eternity atone, or compensate the debauchery of
