

The More Advanced Positions ARE INVARIABLY OFFERED TO MOSHER-LAMPMAN COLLEGE

In our offices we have dozens of letters from the great Typewriter Companies asking us for our EXPERT GRADUATES for positions with the big business houses of the West. Unconsciously, but naturally, nearly every one of these letters begins by saying that they are referring us the "MORE ADVANCED CALLS." WHY should business firms thus single out the Mosher-Lampman Business College as the NATURAL, LOGICAL place to get young men and women who are trained for these more ADVANCED POSITIONS, where the biggest salaries are paid? It's because, as business men have time and again said, they have found Mosher-Lampman Graduates to be the best trained, most efficient, accurate and satisfactory.

You would be interested in hearing the story of how Mosher and Lampman laid their plans to found and operate a high-grade business school that should fit ambitious, brainy young people for the big, high-salaried positions, as Court Reporters, Expert Accountants, Etc.—but YOU WILL BE MORE INTERESTED in knowing that, although the Mosher-Lampman Business College is less than five years old, the call for our graduates has become so great—so far beyond the supply—that the Mosher-Lampman College now absolutely guarantees you a good position upon graduation. Think what this means! A few months spent in the Mosher-Lampman College, the school located in palatial new quarters, which are the delight of our students and the envy of our competitors—pursuing to graduation a course that is more interesting and fascinating than a novel—and the stepping into a fine position with the training and opportunity necessary to success.

Then think of the company you'll be in—surrounded by far-seeing young men and women whose pleasure is their work, whose ambition is to climb a little higher than their predecessors, and association with whom will be an inspiration to you. Scores of young people from all parts of the West have already enrolled for the

Railway Commission Investigates Hay Sales of Shippers.

ADVENTISTS CHOOSE OFFICERS

Elder Christian of College View Re-Elected President of Nebraska Conference—May Finish Historical Building.

(From a Staff Correspondent.) LINCOLN, Aug. 28.—(Special.)—A complaint was filed some time ago with the railway commission by stock shippers that the South Omaha Stock Yards company was discriminating in the sale of hay, claiming that a better grade of hay was furnished regular shippers than was furnished occasional shippers. An investigation disclosed the fact that the men who shipped occasionally generally got rid of their stock as soon as possible after arriving at the market and therefore bought hay that they could get the quickest, while the regular shippers were generally on the ground and watched for the opportunity to buy the best. The stock yards company was in no way to blame for this condition.

Deficiency at Beatrice.

Land Commissioner Cowles is of the opinion that the Beatrice institute will have a deficiency of nearly \$20,000 this year. This is caused in a considerable degree by the typhoid epidemic which prevailed last year and again this year, which made fearful inroads on the funds of the institution. There are about 400 inmates of the institution housed in seven buildings.

Deputy Printing Commissioner Harry G. Thomas returned from Omaha today, where he went in connection with the official business of his office.

Fire Commissioner Randall returned from the Big Horn Basin country this morning where he has been spending his vacation.

Court House Bonds.

The attorney general's office received a communication from J. A. Singham, an attorney at Tekamah asking for the amount of bonds which had been issued by the counties of the state for the building of court houses since the state was organized. The amount runs up to something over \$2,500,000. The county of which Tekamah is the capital is considering the matter of building a court house. An attempt to vote bonds has been made several times, but on account of Oakland, Lyons, and Tekamah all three having designs on being the county seat, the bonds have never carried.

Morched Keeps Busy.

John H. Morched, democratic candidate for the office of governor, was in Lincoln a short time yesterday on his way to Ord where he addressed a picnic gathering. Frank G. Odell, the "Bee Wizard," will not be at the state fair this year, having left yesterday for a two weeks' lecture tour on the Pacific coast, talking before farmers' institutes and teachers' meetings.

Need Room at Capitol.

The supreme court officials and others in the state house are much interested in a rumor that certain candidates for the legislature are preparing a bill for introduction the coming session to complete the historical society building across the street from the southeast corner of the state house grounds. When the present building was started it was the idea to make it fireproof, of modern construction, to be used by the supreme court and state library. More room is needed for the departments already in the building, some

of which are in very cramped quarters and will be more so when the legislature meets and takes up the quarters now being used by the fire commissioner, oil inspector, physical department of the railway commission, irrigation department, veterinary offices and several other offices.

Rooms for Fair Visitors.

Three thousand rooms have been reserved for state fair visitors by Secretary Whitten of the Lincoln Commercial club. In addition to these are the hotels and rooming houses so that there is no excuse for anyone being without good sleeping accommodations during the fair. The fact that a large number of state fair visitors are going to camp out on the grounds reserved by the state fair management for that purpose will also tend to help a great deal on the room proposition. Those attending the fair may insure themselves rooms by writing Secretary Whitten in advance stating what they want.

Rate Complaint Dismissed.

The state railway commission has dismissed the complaint made by the Grand Island Commercial club against the rates on freight maintained by the Union Pacific railway and the St. Joe & Grand Island railway from Omaha to Grand Island and from Grand Island to several stations. On account of the mix-up on rates inter-state, the commission claims that they were unable at this time to make any decision because of the case on the Sanborn decision now before the United States supreme court, consequently the matter will have to stand as it is pending the action of the court, when it may be taken up again.

The grand total of the assessment roll is \$7,929,642.

Mr. Estes at the point of a gun ordered them to surrender. Instead the men took to their heels. Estes fired after them, not desiring to hit them, but to give them a good scare. One young man, Spurgeon Cochran of Falls Valley, Okla., was struck

with several of the shot, three of them penetrating his lung. A colored man also received a few shot, but the shot was fine and neither of the men was badly injured. Cochran was taken to a hotel and a surgeon called. He will be able to join the circus in a few days.

South Omaha Demos in Row Over Picnic

The Woodrow Wilson democrats of Omaha and South Omaha are contemplating a picnic at Sydnicate park in South Omaha some time within the next few weeks. It was said that L. B. Casey, president of the Young Men's Wilson club of South Omaha, and Jerry Howard, in charge of the headquarters in Omaha, should arrange for the picnic. At a democratic meeting held last night in South Omaha Casey was not even admitted to the room, while the secretary, John Keegan, was also refused admittance, in order that John Gillin might run things to suit himself. Whether or not the picnic will now be held will depend upon whether the factions can agree better on the time and place of holding the picnic than they can on the matter of who shall run the affairs for Wilson in South Omaha. Since Casey has been elected president of the Young Men's Wilson club he has quit delivering ice, at least for a few days, and his customers who do not know that he is president of a democratic faction in South Omaha and that he is busy planning picnics are wondering what has become of their genial ice man.
