Limits of Automatic Compensation. A ponderous volume of nearly 1,200 pages on the law of workmen's compensation and state insurance already on the book market is a reminder that there are limits to the automatic operation of any reform.

Color Only Skin Deep. After a great tempest in a teapot the American Bar association, composed of the most able and distinguished members of the legal profession in this country, side-stepped the color question by adopting a resolution affirming the membership rights of the three negroes who had been admitted, but at the same time reciting that it was never contemplated that members of the colored race should become members of that association, and requiring in the future recommendations of colored lawyers for membership to set forth that fact explicitly.

Responsibility in Divorce. An eastern judge, whose experience in the matter of granting divorces has been sufficiently extensive to warrant his speaking as with authority, suggests in a magazine article that the plaintiff in all divorce cases is at least negatively responsible for the condition that has led to the suit.

Looking Backward This Day in Omaha SEPT. 1. Thirty Years Ago—Prospects point to a lively fight for control of the Douglas county delegation to the republican convention, the prize sought being the nomination for congress, for which John M. Thurston is backing Church Howe against John L. Webster, while Pat O. Hawes, who calls himself "contingent congressman," wants to be retained.

People and Events. One of the mysteries of the time is why women dispose of their husbands by shooting when divorces are easy to get. Alimony is more soothing to a spiced heart than a funeral bill.

SUNDAY SMILES. First Citizen—Who is that stranger hurrying down on the other side? Second Citizen—I don't recognize him. Must be a new political party.—Judge.

51,109 State of Nebraska, County of Douglas, ss. Dwight Williams, circulation manager of The Bee Publishing company, being duly sworn, says that the average daily circulation for the month of July, 1912, was 51,109.

Delivery of the Sunday Newspaper. Just now the postmaster general and his assistants are bending their energies to devise ways and means of putting in force the congressional order closing first and second class postoffices on Sundays, and to do so without clogging the arteries of the mails and without inflicting unnecessary hardship upon postoffice patrons.

Education and Begging. Under this heading the current number of the World's Work throws out some suggestive thoughts about the irreconcilable conflict in the conjunction in the college president of the direction of the students' education and the begging of donations to the endowment.

Ten Years Ago—Union Pacific strikers formed a long procession that marched through the streets and wound up at Courtland beach for a Labor day celebration. Among the speakers were George J. Kieffner, chairman; Father Williams and others.

Lincoln as a Traveler. Trek of the Family from Indiana to Illinois. The route taken by the Lincoln family in removing from Indiana to Illinois in 1830 has been officially determined by act of the Illinois legislature, and the state historical society is preparing to mark it with monuments.

Why Not Use The BEST Skin Soap instead of the poorest? The difference in cost is trifling; the result in use often astonishing. Cuticura Soap does so much for poor complexion, red, rough hands, dry, thin and falling hair and baby skin troubles, especially when assisted by Cuticura Ointment, that no other can take its place.

Something's surely wrong over in Chicago when they have to advertise there for men to attend a sorority dance. The policeman has to listen to trouble, but he is not in it with the troubles of our great water commissioner.

Democracy are going to demonstrate to the farmers the great profits of the Harvester trust, but how is that going to help T. R.? It seems that the head of the Linotype concern had to go all the way to Reno to find a matrimonial type caster that eliminates the hyphen.

Individual drinking vessels for horses are proposed by the New York health department as a conservation measure resting on the same ground as the individual cup for human drinkers. The next thing will be individual cheeses for the mice and separate wallowing mires for the pigs.

Another Recruit at Armesgeddon. In spite of Perkins, in spite of Flinn, in spite of Tim Woodruff, we have at times been disposed to doubt the sincerity of the third-term party. Now that the Hon. Bourke Cockran has been nominated for congress by Mr. Roosevelt's organization in Mr. Roosevelt's home district, all our doubts are dispelled.

Chicago now figures that its laundry bill is increased \$17,000,000 yearly by reason of the smoke nuisance. Which reminds us that Omaha has some smoke nuisance to contend with, especially during the winter.

Rev. In-His-Steps Sheldon clamors for a "progressive" church. Why not go the whole way, and have a "progressive" Bible, as well? We know where they can get a man to write it.

Preachers are now warned against temptation, such as the desire to deliver sensational sermons, to complain of poor pay, and other similar devices that entrap them. It is kept on the preacher will be held down to simple religion as a topic for discourse.

Everybody will be glad to know that the Blue army was successful in repulsing the attack of the Red invaders, aimed at Leavenworth. It makes one shudder to think of Leavenworth in the hands of the enemy and Editor Anthony not there.
