

MASTEN GIVEN PROMOTION

Railway Mail Service Superintendent Named to Head New Division.

SUCCEEDED BY JAMES L. STICE

St. Louis Man to Head Fourteenth Division at Omaha—Masten Organizes Fourteenth in One Year.

John M. Masten, superintendent of the railway mail service, fourteenth division, for the last year, has been promoted to the superintendency of the fifteenth division, with headquarters at Pittsburgh. The postoffice department notified Mr. Masten of his promotion by telegram yesterday.

Mr. Masten was sent to Omaha a year ago to establish and organize the fourteenth division. The fifteenth division, of which he will have charge, is a new one and will be one of the heaviest in the service, covering territory from New York to Chicago and St. Louis, handling all mail out of New York City and other large industrial centers.

It is said Mr. Masten was selected for this position because the department recognizes his ability as an organizer of new divisions and also his ability as a man of unusual thoroughness and statistical ability.

The appointment takes effect September 1, and Mr. Masten is to leave for Pittsburgh as soon as he can arrange to go. James L. Stice of St. Louis, appointed to succeed Superintendent Masten, will arrive from St. Louis Monday.

The fourteenth division was established here September 1, 1911, and opened for business December 1, 1911.

Singularly enough, Mr. Masten got his appointment yesterday, on the thirty-first anniversary of his entry into the railway mail service.

Commendation from Millard, Senator Millard has said of Superintendent Masten:

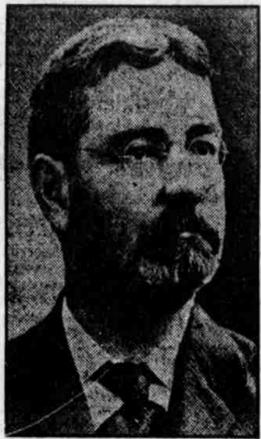

"Omaha was most fortunate in getting such an expert as Mr. Masten to inaugurate the fourteenth division of the railway mail service. When he was at Washington he had only to send his card to the president and he was given an audience at once, and the same was true when Mr. Masten wanted a conference with any member of the senate, for they all recognized him as authority on the subject of railway mail service."

In 1898 Mr. Masten was sent to Porto Rico to establish the American postal system there. December 9 of the same year he went to Cuba to do similar work.

Defended Freight System.

Mr. Masten was largely instrumental in establishing the system of transferring magazines by freight. When Munsey and other large magazines sought to join the postmaster general in putting the new law into effect Mr. Masten was called to Washington as an expert statistician to give figures on the cost of hauling the magazines. Last June, when an effort was made to repeal the act entirely, Mr. Masten again was called to Washington, where he appeared before the senate postoffice committee to assist the second assistant postmaster general in presenting the case to the committee. A committee of three members of the house and three members of the senate

RAILWAY MAIL SUPERINTENDENT WHO GETS PROMOTION.

JOHN M. MASTEN.

was appointed to investigate the matter further, and an appropriation of \$25,000 was made to carry on the investigation.

All Saints' Mission Will Be Reopened

All Saints' mission, established eighteen years ago by Rev. T. J. Mackay when he was pastor of St. Paul's church at Council Bluffs, and which has been closed for more than a dozen years, will be opened today and again be made one of the virile co-ordinate organizations of the Episcopal church in this city. The little church is located at Eighteenth street and Third avenue, and in preparation for its reopening more than \$700 has been expended for repairs.

STORM STOPS PICNIC FOR GATE CITY CLUB

The picnic of the Gate City club, scheduled for Courtland beach yesterday afternoon, was not half begun when a storm blew up, the speakers and the crowd scattered and the picnic resolved itself into a committee in search of a square meal.

Mayor Dahlman was there and John H. Merohed was slated to appear in time to make a campaign speech, but if he arrived at all the Gate City club never knew it.

Charley Williams, general manager of the picnic, and W. E. Stockham, chairman of the committee on sports, arranged several races of fat and lean men and awarded prizes.

An article that has real merit should in time become popular. That such is the case with Chamberlain's Cough Remedy has been attested by many dealers. Here is one of them. H. W. Hendrickson, Ohio Falls, Ind., writes, "Chamberlain's Cough Remedy is the best for coughs, colds and croup, and is the best seller." For sale by all dealers.

KINKAID FOR WHOLE TICKET

Congressman from the Sixth District Expects to Be Re-Elected.

IS PROUD OF HIS RECORD

Thinks the Homesteaders Will Greatly Benefit by the Measure Allowing Them to Prove Up After Three Years.

"I don't know a thing about politics, but I expect to find out a few things within a short time," remarked Congressman Moses P. Kinkaid of the big Sixth district of Nebraska, who is in the city at the Rome.

Congressman Kinkaid arrived yesterday from Washington and with him has brought a well developed case of hay fever. He will stay a day or two in the city and then leave for his home at O'Neill, where he will at once enter the campaign in his own behalf and in behalf of the straight republican ticket of Holt county and the Sixth congressional district. He feels that his re-election is pretty certain as the Sixth district is republican by a good working majority and his nomination last spring was unanimous. Besides, in the Sixth district the republican party is pretty well united.

During the last session of congress Mr. Kinkaid secured the passage of one measure, at least, that he thinks has added materially to his strength in his district. That measure is the one permitting homesteaders to prove up after a residence of three years, instead of waiting five years as under the old homestead law. He also secured the passage of another measure that is likely to prove of lasting benefit to the irrigated districts of the state. Under the old law the owner of land who took water from a government ditch could not make final proof and make patent until the last water right payment was paid. Under the new law proof can be made at the end of three years and the patent issue. The water right still attaches as a lien, but can be paid in installments, as before.

Relative to the bill for the opening of the Fort Niobrara reservation to settlement. Congressman Kinkaid secured the passage through the house and had it placed on the senate calendar, where it will come up for passage soon after the December session convenes.

BRANDELS BUYS STOCK OF MANDELBERG JEWELRY

The entire stock of A Mandelberg, 1522 Farnam street, was bought Saturday by Brandels Store.

The stock, which comprised diamonds, jewelry, watches, silverware, leather goods, etc., was offered at trustees' sale and the Brandels firm secured it all, together with the fixtures. Mr. Mandelberg has been in business in Omaha for many years, being one of the pioneer jewelers.

The entire stock is being moved to Brandels Stores, where it will be placed on sale at some future date.

Half Coal Produced Wasted in Mining

WASHINGTON, Sept. 1.—Of a production of 300,000,000 tons of coal in the United States in the last year 250,000,000 tons were either wasted or left under ground probably unfit for future use, according to a statement today by Dr. Joseph A. Holmes, director of the United States bureau of mines. In addition to this startling waste, Dr. Holmes declares that users of coal, through faulty methods derived only about 10 per cent of the energy of coal used. Furthermore, he added, the loss by waste in other minerals such as zinc, potash, sulphur and natural gas would reach into the hundreds of millions of dollars annually.

MRS. HOPE, WEDDED IN OMAHA. ASKS DIVORCE IN NEW YORK

NEW YORK, Sept. 1.—(Special Telegram.)—Charging that her husband, George N. Hope, assistant to the controller of the Harriman railroad system, with an office in room No. 502 Singer building, had treated her cruelly, cursed her, threatened her life and finally left her on July 1 last, Mrs. Bertha Miller Hope this afternoon filed suit for separation in the supreme court, through her attorney, F. H. Montgomery. In her complaint Mrs. Hope says they were married in Omaha May 12, 1906.

Detailing instances of Hope's treatment of her, she says that on December 22, 1908, while they were at Sherman, Tex., Hope struck her in the face in the presence of her sister.

Mrs. Hope says her husband receives a large salary from the position he holds with the Harriman railroads and he also owns valuable city lots in Omaha, where they formerly resided after their marriage. She asks liberal alimony.

DEWEY WILL LOSE ARM FOR SLEEPING ON TRACK

Clarence Dewey, Thirteenth and Ohio streets, nearly lost his life at 8:45 o'clock last night when he went to sleep on the rails of the Missouri Pacific railroad at Fifteenth and Nicholas streets. A switch engine passed over part of his right arm, tearing the flesh away before he was seen and had the engineer not stopped on the instant, Dewey's head would have been crushed. He was picked up and taken in the police patrol to the St. Joseph's hospital, where Police Surgeon Harris dressed the mangled arm. Monday it will be amputated at the shoulder.

According to witnesses, the mishap was the fault of Dewey, who is said to have been drinking when he chose his resting place.

ARCHBOLD IN LONDON SAYS IT'S JUST LIKE ROOSEVELT

LONDON, Sept. 1.—When John D. Archbold, president of the Standard Oil company, arrived at Plymouth tonight on the steamer Majestic, he was told that Colonel Roosevelt had denounced him as being a falsifier for his testimony before the senate committee investigating campaign contributions.

"That is just like him," said Mr. Archbold. "I don't mind it. I adhere to every word I said, and when I return to New York, I will be prepared to substantiate my allegations."

Alcoholism Causes Death of Woman

Georgia Kiser, divorced wife of Harry Kiser, employed at a local theater, was found dead in bed at 809 North Sixteenth street at 4 o'clock yesterday morning. Alcoholism is thought to have caused her death. J. J. Shannon, a teamster, who was in the room with the woman when she died, was arrested.

Shannon and the woman went to the room early in the morning. Both had been drinking heavily.

The Kiser woman was about 40 years old. Harry Kiser will probably ship the body to the woman's home at St. Joseph, Mo., for burial. An inquest may be held.

Culls from the Wire

Funds for circulating petitions for the recall of Governor Oswald West of Oregon are being sought in Portland.

The United Garment Workers of America in their fourth biennial convention in Indianapolis, selected Nashville for the next meeting and elected officers.

America won the first motor boat race of the international series for the Harmsworth trophy on Huntington bay and established a world's record for a thirty-mile course.

George Cree, editorial writer on the Rocky Mountain News, and police commissioner of Denver, announced his engagement to Blanche Bates, the San Francisco actress.

Major General Thomas H. Barry, who has served two years as superintendent of the United States Military academy sailed down the Hudson for a new station at Governors Island.

To prepare for the opening of the Panama canal, the coast survey has made a thorough examination of the Pacific entrance to the waterway and the charting of the harbor will be undertaken at once.

That the United States will not oppose the action of Great Britain in forwarding a note to the Chinese government, demanding that the British government be consulted in regard to any action contemplated in Tibet became known.

A SPLENDID FOOD TOO SELDOM SERVED

In the average American household Macaroni is far too seldom served. It is such a splendid food and one that is so well liked that it should be served at one meal every day. Let it take the place of potatoes.

Macaroni has as great a food value as potatoes and is ever so much more easily digested.

Faust Macaroni is made from richly glutinous, American-grown Durum wheat. It is every bit as finely flavored and tenderly succulent as the imported varieties and you can be positive it is clean and pure—made by Americans in spotless, sunshiny kitchens.

Your grocer can supply you with Faust Macaroni—in sealed packages 5c and 10c. Write for free Book of Recipes.

Stomach Sick, Sour, Upset and Full of Gas? Pape's Diapepsin.

In five minutes! Time it! All Indigestion, Heartburn and Dyspepsia gone and your stomach feels fine.

Wonder what upset your stomach—what portion of the food did the damage—do you? Well, don't bother. If your stomach is in revolt; if sour, gassy and upset, and what you just ate has fermented into stubborn lumps; your head dizzy and aches; belch gases and acids and eructate undigested food; breath foul, tongue coated—just take a little Diapepsin and in five minutes you will wonder what became of the indigestion and distress.

Millions of men and women today know that it is needless to have a bad stomach.

A little Diapepsin occasionally keeps the stomach regulated and they eat their favorite foods without fear.

If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quickest, surest, most harmless relief is Pape's Diapepsin which costs only fifty cents for a large case at drug stores. It's truly wonderful—it digests food and sets things straight, so gently and easily that it is astonishing.

Please don't go on and on with a weak, disordered stomach; it's so unnecessary.
