## BRIEF CITY NEWS

**Lighting Fixtures—Burgess-Grandon Co.** Have just printed—Now on hand. **Presbyterian Hospital**, 1246 S. 19th St. **Sesby the Dentist**, City Nat. Bldg. 2566.

**Omaha Flating Co.—Estab. 1892.** D. 2536. **Stack-Falconer Co.**, 24th and Harney underlakers, embalmers. Douglas 887.

**We have guaranteed electric irons for** E. S. Wolfe Electric Co., 1519 Farm St.

**Bodwin Robbed of Eighteen Dollars.** S. Bodwin, 139 North Twenty-sixth street, was held up and robbed of \$18 by two masked men last night at the corner of Twenty-fifth and Dodge streets.

**Miss Lambert Undergoes Operation.** Miss Edith A. Lambert, stenographer in the city legal department, underwent an operation for appendicitis at Wise Memorial hospital yesterday. Her condition indicates an early recovery.

**The Palm—A moving picture and vaudeville theater**, located at 1329 Douglas street is now open for business. The management promises the public the very best shows going in this line of entertainments.

**Charged With Bear Cutting—Pete Mangam and Robert Easton**, the former living at 1218 Jackson and the latter at 1417 South Sixteenth streets, were arrested last night by Patrolmen Chapman and O'Connor for dancing the bear cut at Metz hall.

**Dr. Slabaugh Operated Upon—Dr. Frank W. Slabaugh**, who for the last two weeks has been at the Nicholas Senn hospital, suffering from a serious attack of appendicitis, was operated upon yesterday, and is now on the road to recovery. Hospital attendants say his illness was unusually severe and he had a narrow escape from death.

## Newspaper Men Buy Interest in Bakery

G. L. Stem and James A. Austin, have bought an interest in the New England Bakery company, which will be reorganized. Mr. Stem will become treasurer, Mr. Austin the secretary and Albert Wittaschek will be president. The company has been incorporated for \$50,000, fully paid up. The plant is located at 2212-15-17-19 Leavenworth street. Mr. Stem has been a newspaper man in Omaha since 1892 and Mr. Austin for the last six years. Mr. Wittaschek has been connected with the New England bakery for the last fifteen years.

The plant of the company has recently been enlarged and completely modernized, making the bakery entirely automatic and of the latest ideas.

## DIETZ DANCING PARTY ENJOYED IN CLUB HOUSE

The Dietz club gave its regular dancing party Thursday evening in its club house on Carter lake. Those present were:

Misses: Ethel Padmore, Irene Higby, Nettie Schooley, Myrtle Peets, Alfie Johnson, Daisy Guerin, Bertha De Vaughn, Anna Lynch, Rose Gallet, Maude Cramer, Agnes Lament, Elgin Gordy, Ida Stewart, Rose Gordy, Myrtle Orier, Ruth Dahlquist, Edna De Vaughn, Lulu Norgard, Marie Gabler, Frances Goldman, Anna Lick, Jessie Padmore, Addie Cronk, Stella Archer, Bertha Wilson, Adella Beselin, Gaiet, Marguerite Jensen, Alberts.

Messrs: Clarence Hall, Claude Rife, Russell Evans, Dr. Hayes Gantner, Earl Eisenhart, Andrew Brown, Fred Evans, L. W. Knight, Ose Slaughter, Kenneth Hatch, Lee Gregg, George Beerman, Percy Gwynne, M. L. Conkling, Jim Flanagan, William Danz, William Boyd, Frank Spellman, W. F. Schollman, Al Blaufuss, Clyde Forney, Ed Hawley, Ed Lafferty, H. R. Cronk, L. E. Devine, H. R. Cronk, A. E. Bruce, J. R. Stricker, Harley Deems, William Craighead, Alfred Leik, George Graf, Freeman Bradford, Otto Nielson, Harry Smith, James Ward, R. E. Cornwell, Joseph Moran, Mr. and Mrs. Charles O'Neill, John J. McMahan, Carl Palm, Roy Glover, Bernard Hogue, Royal Goff, George Johnson, J. Neff, William Bolin, William Eatner, G. O. Hale, Charles Gordy, Harlow Myers.

## OCTOGENARIAN DIVINE, ONCE OF OMAHA, WEDS

Rev. Newton Mann, 90 years of age, former pastor of the First Unitarian church, Omaha, and Rev. M. Rowena Morse, aged 46, a woman Unitarian minister of Chicago, were married a week ago in Delphi, N. Y. Mrs. Mann once was a teacher at the Omaha high school. Dr. Mann, now presiding in a Unitarian church at Kenosha, Wis., has been dean of the Unitarian ministers in the United States. He met his bride at Keokuk, Ia., when he went to hear her eloquent preaching in the pulpit there. They exchanged nuptials a number of times.

Mrs. Mann has no intention of quitting the pulpit because she has taken a husband.

## HUGE TANKS FOR GASOLINE HAULED THROUGH STREETS

Saturday a huge truck, requiring four horses to haul it, carted two immense tanks to Dresher Bros. They just arrived and it is asserted they are the largest ever constructed for the purpose of holding gasoline for a dry cleaning plant. Each has a capacity of 500 gallons. Next week they will be buried deep under the ground near the plant. These will make a total of eight such tanks required by this company. The other six each have a capacity of 500 gallons. Dresher Bros. are just installing over \$5,000 worth of new machinery for use in dry cleaning business.

## SCHOOL AND COLLEGE WORK

### Suggestions for Betterment of Health in Class Rooms.

#### OPEN WINDOW AS A VENTILATOR

Conclusions of Investigation into Temperature in School Building and Means of Improvement.—Educational Notes.

An inquiry prosecuted by the Board of Education of New York City into the question of school room ventilation, resulted in the discovery that only one system was satisfactory—the open window with the addition of flues. The report says that after obtaining evidence from eminent medical authorities, the committee agrees with Prof. C. E. A. Winslow that there is only one principle of ventilation upon which authorities are unanimous, namely—that a high temperature is detrimental to mental vigor and to health. The report continues: "Formerly it was thought that a deficiency of oxygen and an excess of carbonic oxide gas in the air of crowded rooms was cause of discomfort, headache, lassitude and similar evils. Next it was assumed that air which had been breathed contained an organic emanation of a poisonous nature which was called crowd poison. Experiments made in England, in Germany and in America, have convinced many experts that these assumptions are all incorrect. At present physical conditions rather than the chemical constitution of the atmosphere are held to be of most importance, although about this there is not unanimity of opinion. "Eminent medical men, such as Dr. W. Gilman Thompson, professor of medicine in Cornell university; John W. Brannan, chairman of the board of trustees of Bellevue and allied hospitals, and Walter B. James, professor of medicine in the college of physicians and surgeons, Columbia university, contend that the air which in a closed system of ventilation passes over highly heated coils and through ducts to enter the classroom at 70 Fahrenheit, lacks freshness and has been deprived of some quality necessary to health, precisely as sterilized milk, though of the same chemical composition as fresh milk, will not properly nourish a baby, so this cooked air, they say, will not properly aerate the blood."

The committee learned that in some of the classrooms in winter the temperature was often as high as 90 degrees, a "murderous temperature," the report adds. The windows were not used as ventilators.

The report recommended that classrooms be kept at a temperature of 60 to 68 degrees and that the windows be opened at intervals.

## WENTWORTH MILITARY SCHOOL

Lexington (Mo.) Institution Prepared for Fall Term.

Major Cocks, the United States government detail at the academy, has just returned from Kansas, where he took part in the army maneuvers recently held near Fort Leavenworth.

The academy is erecting a new swimming pool to be ready by the opening of school. This will be quite an addition to the academy equipment as it will enable each student to learn how to swim.

The fall term begins Thursday, September 12, with indications that the attendance will far exceed that of last year.

Captain H. H. Tabetts of the general staff of the army, in his report of the annual inspection of the academy, says: "The exercises observed at this school consisted of guard mount, battalion parade, review and instruction, battalion and company close and extended order, advance guard, rear guard, outposts and combat exercises, bayonet exercises, detachment drills in first aid and litter drill, signaling with flag and field telegraph, and engineer drill in bridge construction. Sentinels were inspected on post and found to be well instructed in general and special orders. Barracks and mess were inspected and found to be well policed and sanitary in every respect.

"The ceremonies and close order drills were executed correctly in every detail. At inspection, uniforms were found to be clean and well fitting, shoes were polished and cadets attentive in ranks. Rifles were in excellent condition."

## Buford Drags Boy From Wheels of Auto

While hundreds of shoppers looked on as a speeding automobile turned off sixteenth street into Dodge and cornered Felix McDonald, a 14-year-old messenger boy, who was riding his wheel close to the curb, Harry Buford, police patrol chauffeur, alone retained presence of mind and rescued the lad from his perilous position at the risk of his own life.

Buford saw the messenger boy's danger and heedless of his own risk, he dashed out to the street and jerked the lad from his wheel. An instant later the auto passed over the bicycle, breaking it in two. The driver of the auto saw that he narrowly escaped injuring the boy and had wrecked the wheel, but kept going and disappeared at Fourteenth street.

MacDonald then turned to thank his rescuer, but the police chauffeur had modestly disappeared.

## GEN. CARTER TO COMMAND CENTRAL DIVISION OF ARMY

Major General William H. Carter has been placed in command of the Central division of the War department, with headquarters at Chicago. He has been granted three months' leave of absence, at the expiration of which time he will relieve General R. D. Potts, who is now in command at Chicago.

General Carter commanded the Department of the Missouri, with headquarters at Omaha, prior to 1906, being transferred from here to the command of the Department of the Lakes February 1, 1906. He was there till November, 1908, when the Central division was formed and he was ordered to Washington as a member of the general staff of the army. From this latter assignment he goes to command the Central division.

## BOSSIE MAKES HIS REPORT

Explains the System of Scoring Used by the Inspectors.

### HIGHEST SCORE EIGHTY-EIGHT

Arwood Dairy and Friesland Farm, Certified, Score 94.6 and 92.4, and C. Spanggaard Leads with 88 for August.

Dairy Inspector Bossie has made the following report on the condition of Omaha dairies for the month of August: I submit the following scores as to sanitary conditions of dairies supplying the city of Omaha with milk and cream. So many requests have been received at this office as to the meaning of said scoring, would suggest the dairy papers be requested to once more publish the report as follows:

Equipment of a dairy constitutes the following:

- Health and tuberculin test of cows.....6
- Comfort, water and food.....6
- Drainage of barn, construction of same.....16
- Condition of utensils.....11
- Location, construction and facilities of milk room.....11
- Total.....40

Methods of a dairy considered most important as follows:

- Cleanliness of cow.....8
- Cleanliness of stable, barnyard and stable all.....16
- Cleanliness of milking milk room and care of utensils.....20
- Cleanliness of attendants, prompt and efficient milking, transportation and storage of milk.....16
- Total.....60

The following equipment is allowed 40 per cent and the methods used as to cleanliness 60 per cent. This is the United States government standard and the method of determining the scores for Omaha dairies. Scores follow:

### CERTIFIED DAIRIES

Name	Score
Arwood Dairy company	94.6
Friesland Farm	92.4
OTHER DAIRIES

H. Claus, Mount Carmel	77.4
D. Sheanin, North Benson	77.2
Sam Christensen	74.3
Frank Vaad, City Park	74.3
P. J. Christensen, West Dodge Dairy	74.3

## Omaha Attorneys Give High Praise For Bar Meeting

Still speaking in enthusiastic terms of the meeting of the American Bar association, held in Milwaukee last week, Omaha attorneys, who attended, returned yesterday, among them being Assistant Attorney General Sylvester R. Rugh, N. H. Loomis, Montgomery, Irving F. Baxter, W. D. McHugh, W. F. Gurley, Ralph W. Breckenridge and J. A. C. Kennedy.

"It was a wonderful meeting," said Mr. Breckenridge, a former member of the executive committee of the association. "It was characterized by most brilliant and masterful papers and discussions. Great problems were discussed ably, freely, and with the utmost fearlessness and steadfastness to fundamental truth. I think probably the most powerful addresses were those of President Gregory; Frank Kellogg, who discussed the new national issue; Senator Sutherland of Utah, who spoke on the constitution; and Henry D. Esterbrook, our former fellow townsman, who took the subject of the judges in a symposium. It would be foolish for me to attempt to tell anything in detail regarding these addresses; they were simply great.

"Nebraska was well represented. Besides the large delegation from Omaha, there were present Judge C. B. Letton of Lincoln; Dean W. D. Hastings, of the college of law of the University of Nebraska; Judge W. E. Stewart of Lincoln, Fuller of Hastings, B. M. Latine of Grand Island and others. It made me proud of Nebraska.

"The color line questions was of most interest to outsiders. The executive committee had admitted three negroes to membership, while ignorant of the fact that they were negroes. When it was learned that they were such, the committee rescinded its action, admitting them to membership. I was not present at the meeting at which the action was rescinded. When the matter came up at the national meeting the committee made a special report, explaining the reason for rescinding its former action and leaving the entire matter to the association itself. I dissented from the opinion of the majority, because I doubted the committee's power to rescind its former action. Secretary Dickinson and the attorney general effected a compromise, which was adopted by the association. It was agreed that the men already elected should remain as members, but in future the membership should be limited to white men."

## Schools Improved in Many Districts

When the fall term of school opens September 9, the 25,000 school children will begin to make use of the old school property and \$200,000 worth additional, for approximately that sum has been spent on two new buildings, two additions and other improvements.

These improvements include interior furnishings, exterior remodeling and painting and beautifying the grounds.

At Kellom a six-room addition costing about \$45,000 has been built and at Long a similar addition has cost \$35,000. A 5x75 foot addition also has been built at Leavenworth, which, with other work there, cost \$20,000.

Other improvements are painting one wing of high school, installation of lockers, kitchen, dining rooms, manual training and departments and repair of plumbing and ventilation facilities in many schools.

Castellar and Central Park buildings have been completed and will be ready for the opening day of school. These buildings cost in the neighborhood of \$60,000 each, including furnishings and improvement of the campuses.

Assignment of teachers now is being made. Superintendent Graf expects to have the work completed Thursday of Friday. A few teachers will have resigned and a few new ones will be on the staff, but the most important work is to assign the teachers to the several buildings.

There are 600 teachers and while many

## RECALLS CHARLESTON QUAKE

R. A. Smith of Union Pacific Tells of His First Big "Story."

### WRITES AS BUILDING CRUMBLES

Rides and Walks Twenty-Five Miles to Telegraph Station with Story of Great Loss of Life.

Vivid recollections of the Charleston S. C., earthquake, which occurred twenty-six years ago yesterday, are held by R. A. Smith, chief of the Union Pacific advertising department, who, at the time of the horror, was a cub reporter on the staff of the Charleston News and Courier. The death roll of the Charleston earthquake was between eighty and 100 and the property loss, between \$5,000,000 and \$5,000,000.

While in a reminiscent mood Mr. Smith told his friends of some of the incidents of the quake.

The first shock was felt at 10:30 o'clock in the morning. It was a short, jerky motion of the earth, followed by what seemed to be a pulling away of everything that was attached. Mr. Smith was sitting in the reporters' room of the News and Courier and when the first shock came, was hammering a typewriter, getting out early copy for next morning's paper. The building was a four-story brick and stone structure. As the quake gained in severity Smith looked up to see a portion of the second story wall tumble out. The other reporters ran, but he continued his work until he finished his copy. Then he joined those in the street. At that time the ground was tossing up and down, the movement being so great that men were thrown off their feet. All around them walls were falling.

In the offices all the forms were piled and many of the cases tumbled over. After the first quake the reporters commenced to gather news and the reporters were routed out and set to work getting their cases ready for the morning's edition. They succeeded and the paper came out with a six-column story.

For twelve hours Charleston was cut off from the rest of the world, the wires in all directions being down. To get the news out to the Associated Press, Mr. Smith took proof sheets of the News and Courier and rode a freight train and walked to Somerville, twenty-five miles inland, where he filed the entire story.

Those who were killed, were crushed under falling walls, most of them being killed outright. The wounded numbered nearly 200. One peculiarity of the earthquake was that all around Charleston and Somerville, there were fissures opened in the earth and for several hours they spouted out water, sand and mud. Scientists who examined the sand, said that some of it came from a depth of several thousand feet.

## Public Treasurer's Report

Total Tax Collections for August Over Two Hundred Thousand.

### DISBURSEMENTS THREE MILLION

Total Receipts for Month Are Three and a Half Millions, Half Million Dollars Over Expenditures.

City and County Treasurer Ure's report for August shows that during the month \$228,233.33 in taxes was collected. The total receipts were \$2,547,112.01 and the total disbursements \$2,927,168.18. Following is the report:

Balance July 31.....\$ 3,318,588.05

Receipts—

- Tax.....\$ 228,233.33
- County taxes.....18,284.25
- City miscellaneous.....83,263.98
- County misc.....15,261.52
- So. Omaha water.....1,748.80
- Omaha water.....57,952.03

Total.....\$ 3,547,112.01

Disbursements—

- City school and water.....\$ 457,387.37
- County.....121,938.46

Balance on hand August 31.....\$ 2,927,168.18

Funds delivered to W. G. Ure Jan. 4.....\$ 2,856,369.16

Receipts—

One peculiarity of the earthquake was that all around Charleston and Somerville, there were fissures opened in the earth and for several hours they spouted out water, sand and mud. Scientists who examined the sand, said that some of it came from a depth of several thousand feet.

## Lives Endangered By Small Hurricane That Sweeps Omaha

In a windstorm of only half an hour's duration at 6 o'clock last night, several large plate glass windows in the downtown district were blown out and several persons narrowly escaped death or serious injury from falling glass.

According to telegraphic dispatches, the storm was general throughout the eastern part of the state, although towns as far west as Lincoln also suffered. At the state fair grounds nearly \$1,000 worth of damage was caused and one man badly hurt by a falling pole.

Beatrice also suffered from the wind, but the plentiful rain which followed it is being hailed with delight for it will practically make the corn crop.

In Omaha, a huge window in the Union Pacific city ticket office was blown in and Rustin Caray, a ticket clerk, painfully cut by bits of glass. Charles Bierman, another clerk, was also cut.

Across the street a window on the first floor of the Woodmen of the World building was blown out and Max Orkin, one of the proprietors of the Orkin Brothers stores, was struck over the head. His clothes were torn and several pieces of glass scratched him about the face and arms. His wife and daughter, who were with him, were uninjured.

R. E. Polyer, a laborer, waiting for a 10th-bound car, was struck by a fragment of glass and his face was cut. In the Bee building a skylight was blown out.

The Persistent and Judicious Use of Newspaper Advertising is the Road to Business Success.

**BOYLES COLLEGE**

**THE FALL TERM OF BOYLES COLLEGE OPENS MONDAY, SEPTEMBER 2.**

In both the day and night sessions. The position of Boyle's College, the largest business college in the United States, west of Chicago, was not gained by accident. IT WAS WON BY MERIT. No school in the west ever attained the record maintained today by Boyle's College. An annual enrollment of over 1,200 students. A curriculum surpassing greater than that ever attempted by even the best business colleges. A faculty that is truly the envy of every business training institution in the west.

The 1912 Year Book is now ready. It tells you just precisely why you should prefer Boyle's College if you are desirous of becoming a successful Stenographer, Bookkeeper, Private Secretary, Salesman or Telegrapher, or if you wish to qualify for United States Government position as Railway Mail Clerk, Departmental Clerk or Government Stenographer or Bookkeeper. Send for it today. Address Boyle's College, 1807 Marney Street, Omaha, Neb.

**St. Teresa's College**

Formerly the Winona Seminary Winona, Minnesota

CONDUCTED BY THE SISTERS OF SAINT FRANCIS

YEAR BEGINS FIRST WEDNESDAY IN SEPTEMBER

College confers degrees of B.A., B.S., Litt. B., Mus. B.

Saint Clare Seminary—Classical School and College Preparatory. Secretarial Course.

Saint Agnes Grammar School—For little girls.

Conservatory of Saint Cecilia—Piano, Violin, Voice, Organ, Harp, Harmony, Composition, Normal Music.

Departments of Art, Normal Art, Dramatic Expression, Household Economics. Strong faculty of specialists; splendidly equipped laboratories and gymnasium; moderate prices; students from thirteen states; normal department for students preparing to teach.

Direct lines of railway from Chicago, Milwaukee, St. Paul, St. Louis.

Only earnest, capable students who have a purpose in study are solicited.
