HOGS—The greater part of a small supply of hogs was picked up early by shippers and speculators at prices mostly steady to strong, and in some instances a nickel higher than Saturday market. Packer buyers filled comparatively few of their orders from first hands this morning, their purchases being generally at steady figures and possibly a little lower in some cases. There was apparently a good demand and trade was generally active. Practically everything was disposed of in very good season. Several loads of good light hogs were bought by shippers at \$8.50, a nickel above the best price on Saturday. Receipts footed up about thirty-five loads, or 2.400 head, slightly larger than a week ago, but almost 1.800 head short of the supply two weeks ago. It was just an ordinary run, quality being very little if any different from recent shipments. HOGS-The greater part of a small sup-

Although a fairly large run was at the disposal of buyers, there seemed to be a very fair demand for killers. As the offerings at other markets were rather limited with early advices indicating stronger prices in the general trade there seemed to be a builtsh feeling on the part of sellers. Little business was done early in the morning. early in the morning.

Once underway it was not very long before the bulk of the holdings was taken out of first hands. As really good lambs were rather scarce what were here sold generally steady and in some cases strong in comparison with the close of last week. Most of the fat sheep were from Wyoming and on the whole not quite as good as what has been arriving here during the last several weeks back. Prices paid were generally steady.

A fair number of feeder buyers were on the market and a considerable volume of trade was done in the feeder division. Most of the purchases were made at figures steady to 10c higher. Sales look a little higher on paper than the actual market on account of buyers having to take a large percentage of heavy and fairly fat stuff in their purchases.

Once underway it was not very long second victory in the afternoon in a despendence of the purchase were made at six seeds of the fat sheep were made at figures steady.
