

DR. COCHRAN ENTERS NAVY

He Will Receive Appointment as Acting Assistant Surgeon.

TAKES SEVERE EXAMINATION

He Will Have Charge of the Examining Department of the Local Recruiting Station, Vacated by Dr. R. J. Straeten.

Dr. Francis B. Cochran, for several years examining physician for the Burlington and for several years a resident of Omaha, will be appointed by the bureau of navigation to the office of acting assistant surgeon of the United States navy and will have charge of the examining department of the local navy recruiting station.

Dr. R. J. Straeten, past assistant surgeon, who has been the examining officer at the local station for the last two years and whose shore duty was completed last month, will be assigned to the Atlantic fleet. He will report to one of the battleships in time to take part in the review of the Atlantic fleet in New York harbor on October 15.

Shore Duty Expires.
Dr. Straeten recently received notice that his shore duty had expired, but owing to a shortage of medical men in the navy he was ordered to name some physician in this city or one nearby and give him a severe examination.

Prisoner Gets Sulky and Stays in Jail

Edward Johnston, 260 Poppleton avenue, arrested Saturday during the heavy down pour of rain at Thirty-second and Poppleton avenue, where he was lying asleep under a tree, was discharged in police court.

Desk Sergeant Marshall released Johnston early Saturday morning after he had sobbed up and told him to go home. Johnston sulked in his cell and refused to leave and was in the same mood Sunday morning when he was told to go home. He threatened to "get" the officers for arresting him.

RAIN DOES NOT EXTEND VERY FAR TO THE WEST

The rain of Monday night and Tuesday morning was heaviest along the Missouri Valley and from Sioux City on the north to Hule on the south, and extending on either side for a distance of twenty to thirty miles, ranged from one inch to one and one-half inches. There was one-half inch at Central City, but no rain west of there.

Along the Burlington there were heavy rains from Omaha to Ashland, the precipitation being around one inch. West of Ashland it grew gradually less, at Lincoln there being only a sprinkling.

Parties coming in from Lincoln this morning and observing the conditions from the car windows say that to a point as far west as Ashland, the wagon roads appeared very muddy, but were drying rapidly under the warm sun and by reason of a strong wind.

GRAFF'S AUTO BREAKS WHILE STANDING STILL

"Who broke my automobile?" asks Superintendent E. U. Graff. "I worked until noon yesterday, left my machine standing at the west side of the city hall, started it up and started out. Heard a scraping, got out and investigated and found one wheel off, the axle broken and scraping on the pavement."

Superintendent Graff declares he has had no collisions and the auto people tell him this is the second accident of the kind they have had to deal with. He has driven his car 8,000 miles and his repair bills have been a source of envy to the engineering department, which has been compelled to practically rebuild some of its machines or buy new ones.

Clean up sale Wednesday. Wash dresses, linen suits, skirts and coats, \$1 each. See advertisement page 2.
