

MOOSERS ENDORSE TICKET

State Progressives Will Support Republican Slate.

TWO ELECTORS ARE NOMINATED

W. O. Henry of Omaha and O. G. Smith of Kearney Placed on Electoral Ticket in Place of Two Taft Men.

(From a Staff Correspondent.)

LINCOLN, Sept. 4.—(Special Telegram.)—Nebraska bull moosers last night endorsed the candidates on the republican state ticket with the exception of two electors who have declared for President Taft.

The state convention this afternoon was called to order with scarcely 150 persons present and after these few delegates fought for over an hour a resolution to permit a chair-chosen committee to do the nominating, a recess until evening was taken, when Party Manager F. P. Corrick admitted that the party petition did not contain the requisite number of names to make it legal. By evening the managers had solicited enough signers from the state fair crowds to permit completion of the convention program.

The committee was finally named, but to serve in an advisory capacity only.

Governor Hiram W. Johnson of California, was in the city during the proceedings. He made two speeches during the day, one at the fair grounds in the afternoon and the other at the convention at night. He was entertained by Governor Aldrich at the executive mansion and William J. Bryan came from Fairview to attend a reception and luncheon tendered by the commercial club.

It was 8 o'clock when Chairman Wray tapped the convention to order, and called for the report of the resolutions committee, which was read by Don L. Love, as follows:

We, the progressive party of the state of Nebraska, in convention assembled, hereby endorse and reaffirm the platform adopted by the progressives in national convention assembled in Chicago, on August 5, 1912. We regard this platform as the greatest document ever written in the history of American politics.

We believe in the principles set forth by our great leader, Theodore Roosevelt, in his confession of faith before that convention, and we pledge ourselves to embody those principles in the statutes of the state of Nebraska as far as it is possible to do.

We believe in a permanent non-partisan tariff commission, and we demand that those schedules of the present tariff which have already been proven contributory be immediately reduced.

While we believe in the strict enforcement of the Sherman anti-trust law, and the prosecution and imprisonment of all violators thereof, we do not believe that this will settle the trust problem, and we believe that a non-partisan industrial commission should be created, with the same power over the monopolistic trusts that the Interstate Commerce commission has over the railroads, because we do not believe that the common people of the nation will permanently permit any set of men to control the output of any commodity, as well as the price.

We believe that the people who elect presidents have the right to nominate them, and we call upon congress to speedily enact general presidential primary law.

We believe in the direct election of United States senators.

We cannot ignore the fact that all over this land there is a growing distrust of the federal judiciary, and we demand that congress enact a law limiting the power of inferior federal courts to set aside a statute of sovereign states; and we advocate the election of lay judges to the federal bench, to send there-with all the endorsements written or oral, of said candidates and objections thereto.

Better Roads and Equal Rights.

We believe in a thorough revision of our public road laws, looking to a more efficient system of road administration, to the end that the farmers may have better means of transportation from their farms to the markets.

We believe in equal suffrage for women, and we pledge the progressive party of Nebraska to do all in its power to bring it about.

We favor the enactment of a uniform marriage and divorce law.

We view with apprehension the fact that practically every fire insurance company has been forced out of existence during the last two years, and that tendency to monopolize both fire and life insurance to the detriment of development of home insurance for Nebraska.

We favor the enactment of such insurance legislation that will preserve the policyholders their fair and equal rights and we favor a law that will provide for a more direct control of fraternal insurance companies by their members.

We favor the enactment of a "blue sky" law, to the end that our people may not be robbed by promoters from this or other states.

We favor the creation of an immigration agent and publicity bureau, to the end that vast areas of tillable land in the western part of the state may be brought to the attention of the landless people everywhere.

Down with the Postmasters.

We object to the interference of federal officeholders with the conditions and primaries, and we believe that a law should be passed taking the entire Post-office department under the control of the public welfare, both economic and political.

We favor the use of our public schools for the discussion of all subjects concerning the public welfare, both economic and political.

Water power in Nebraska is one of the great natural resources and control is still within the power of the state.

We believe that if properly developed, cheaper power can be found and great manufacturing centers built up. And we believe that laws should be enacted and if necessary a constitutional amendment adopted to the end that these great natural resources of the state should be conserved and developed in the interests of the people of the state.

We believe in the short ballot as the necessary primary law.

We believe in the initiative and referendum and the recall, and the non-partisan board of control, our state institutions under civil service regulations, and we call upon all of the people of the state to vote for the constitutional amendment providing for direct legislation.

We believe and declare that the rights of the individual should be exalted and placed above property rights and that all honest labor and toil should be justly compensated.

We also favor first and second choice voting at primary elections. Official publicity pamphlets, state wide registration, stringent corrupt practice acts and the limitation of the use of money in campaigns.

We specifically endorse the five constitutional amendments submitted to the people by the last legislature, to-wit: The initiative and referendum, legislative term and compensation, non-partisan board of control, biennial elections, and home rule for cities.

J. Mc'Brien, in behalf of the committee on organization announced that sufficient names had been secured on the petition to insure its legality and moved that the selection of Wray as chairman and J. C. Sprecher be made permanent. Mc'Brien then moved that a committee of seven be appointed to perfect the organization in the way it should be, so that it would be legal.

A delegate with much earnestness opposed any plan on the part of the convention to saddle on the party a committee that they knew nothing about or who they were. He was finally assured by Mr. Mc'Brien that they would be good men and the belligerent objector acknowledged the plan to be satisfactory. The motion then passed.

Business was suspended on motion of

Forty Million Words Daily Stored in Minds of Omahans

Despite the fact that old Doc Fahrenholt has a habit of climbing up to murky heights and the atmosphere at times causes heated remarks featuring the under regions, Omahans are reading 40,000,000 words of literature daily in volumes loaned from the shelves of the public library.

Head Librarian Edith Tobitt places the estimate of books loaned out daily during the summer months at 900, which would mean a total of 5,400 volumes a week as the shelves are closed on Sunday. Allowing 25 pages to each book as an average, the leaves of 5,400 copies would sum up to 1,350,000. The usual page of a light novel, a political treatise or a biography contains approximately 250 words, so that the aggregate number of words for the week would be 338,750,000.

Jasper L. McBrien to allow Governor Johnson to speak before his train should leave. Chairman Wray introduced Miss Lucille Eaves of the University of Nebraska to preside during the address of Governor Johnson. He referred to her as the "Jane Addams of Nebraska."

The Auditorium was well filled, a large number being women, when Miss Eaves, after a ten-minute speech, introduced Governor Johnson.

Johnson Lambasts Opponents. The address of the visiting governor began with a long tirade against the Chicago national republican convention. He gave a history of the primary which elected the delegates from California, and assured the people that the third party convention in Chicago organized a party which will be the salvation of the country. He made many radical prophecies, among them one that if the progressive cause won, this country would jump ahead twenty-five years in the space of two months.

He seemed to be particularly opposed to Mr. Wilson and the democratic platform and ridiculed the latter to the apparent delight of the audience. In closing Governor Johnson paid a high tribute to Governor Aldrich and said he was glad he was a fighter that made him worthy to be the executive of such a great state as Nebraska.

At the close of Governor Johnson's address Chairman Wray announced that the committee on nomination would report. The committee reported in favor of endorsing the six Roosevelt electors on the republican ticket and that W. O. Henry of Omaha and O. G. Smith of Kearney be selected to make up the full eight electors.

John C. Sprecher offered a resolution asking that the six Roosevelt electors on the republican ticket be endorsed and that inasmuch as Taft and Sherman are the legal nominees of the republican party, that these six electors be asked to resign. He said that the Taft men had a right to vote for the nominees of their party, and in all common decency should be given that right.

D. C. Van Dusen opposed the resolution saying he was opposed to any kind of a deal which would recognize stealing.

W. T. Graham of Omaha in a red hot speech denounced the proposition to ask the Roosevelt electors to withdraw, because the third party has no right to ask candidates of another party to withdraw. Sprecher's resolution was not adopted.

George W. Norris was endorsed for the United States senate as was also C. H. Aldrich for governor.

Fight Over Endorsement. The resolution also called for the endorsement of the full republican state ticket but a delegate offered as an amendment that all the candidates on the state ticket be asked to state where they stand on president. Another delegate offered an amendment that no one be endorsed until he had announced how he stood.

F. P. Corrick then suggested that the candidates be voted on as their names were called which seemed to meet general favor.

Mr. Williams of Lincoln said that he came out of the democratic party and had burned the bridges behind him and he wanted no man on the ticket unless he is for Roosevelt and Johnson.

Van Dusen volunteered to vouch for all of the state officers, and said that while three of them were for Taft they had a right to be, and any move of the convention to turn them down would put the party in hot water.

The amendment that the state candidates be required to announce their choice for president was voted down and the state officers on the republican ticket were all endorsed. The convention then took up the matter of finances and adjourned.

J. A. C. Kennedy was appointed representative of the Commercial club on the committee of four provided for by the city council to draft an ordinance covering the proposed taxation of arseways and subways.

T. P. Redmond of J. L. Brandeis & Sons Co., was elected member of the executive committee to fill the vacancy left by the death of H. Hugo Brandeis.

Elected to active membership were Frank E. Coatsworth of George H. Lee & Co., and W. H. Jones, freight and passenger agent of the Northwestern railroad.

Commercial Club Resumes Activities

The active work of the Commercial club was taken up again when the executive committee met yesterday for the first time since the vacation season began.

The invitation of the Knights of Alexander-Ben to be at the Den for next Monday night, Omaha night, was accepted. The club will go to the Den in a body.

The club took cognizance of the coming of a "Made in Pittsburgh" train that is to be in Omaha Monday afternoon, September 16. Joseph Barker, chairman of the entertainment committee, is to have charge of details of the entertainment to be offered the Pittsburgh party.

BOARD TO MEET CONTRACTORS

Commissioners and Caldwell & Drake to Adjust All Details.

TO CHECK UP NEW BUILDING

Fuchs, Son & Blind are Given Contract for Mural Paintings in the New County Court House.

Conference of the Board of County Commissioners and Caldwell & Drake, county building general contractors, preliminary to the county's occupancy of the new building was called for next Tuesday by the Board of County Commissioners yesterday. According to the resolution the parties to the conference will be the board, John Latenser, county building architect, the county attorney, the general contractors and their counsel, Stout & Ross, and the general contractor's bondsmen, the Fidelity and Deposit company of Maryland, and its counsel, Mahoney & Kennedy.

The purpose of the conference is to adjust details of the occupancy and its effect upon contracts and agreements between, the county and the general contractors.

Check Up the Work. Next week the board and the architect will go over the entire building, checking up the work so far done, detail by detail, to make sure that it is up to specifications. Mr. Latenser said that probably in some minor details the work is not up to specification standards, but no building can be absolutely so, and this building will be nearer than the average.

Mr. Latenser explained his estimates on work done, on which payments to Caldwell & Drake have been made, and satisfied the board that the estimates have been correctly made. Commissioner Harte, who last Saturday said he thought the estimates had been excessive, had nothing to say.

Sam Blind, of Fuchs, Son & Blind, who have the interior painting and decorating contract, informed the board that he has no contract with Phillipson & Co. of New York for the mural paintings and asked the board to let Fuchs do this work. The contract was given Fuchs, Son & Blind with the understanding that they would employ Phillipson & Co. to do the murals. Mr. Latenser said Phillipson & Co. are working on the murals, but Mr. Blind said he has no arrangement with Phillipson & Co.

This decoration matter will have to be thrashed out by the board. Commissioner Lynch said he will favor holding Fuchs, Son & Blind to their agreement regarding Phillipson & Co. or else give the mural work to Edward J. Holislag of Chicago, who was in charge of the mural decoration of the Congressional Library in Washington, D. C.

Orkin's Doors Closed Because of Throgs

Orkin's Douglas street store was the scene of an immense jam yesterday morning, the occasion being the opening of a clean-up sale of summer dresses. The crush was so large when the store opened that the people could not be handled and it was necessary to close the doors for a while. The business all morning was tremendous. Another sale, which the Orkins expect to be a record breaker, will be started Saturday morning, when suits and coats will be closed out at prices never before known here.

FRIENDS OF FRIENDLESS CONSIDER CRIME CURES

Annual meeting of the Nebraska Society for the Friendless was held at the Young Men's Christian association last evening. About forty members were present. Judge Howard Kennedy of Omaha, presided and delivered the principal address, speaking on "Restitution as a Penalty for Crime."

C. L. Carlson, editor of the Breeders' Review, spoke on the relation of heredity and the prenatal influence for the prevention of crime. James Parke Sullivan, using himself as a personal illustration, talked on the cure of crime.

Dr. E. A. Fredenhagen, national superintendent of the Society for the Friendless, attended and was called upon for a few remarks.

LONG-BOUGHT VACATION FOR OFFICER VANDERFORD

Officer Joe Vanderford left Wednesday evening for a two-months' vacation in Colorado and California. His sister, Mrs. Margaret Whipple of Curtis, will accompany him on the trip.

This is the first vacation Mr. Vanderford has taken during his thirty-six years in the service of the city. He has been employed as a police officer for sixteen years and prior to that time he was associated with the fire department and the Board of Health.

During his residence here he has been out of the city but two weeks. He is making the trip in an endeavor to benefit his health upon advice of doctors.

London Stock Market. LONDON, Sept. 4.—American securities were quiet and steady during the early trading today. Prices advanced on light covering and at noon the list ranged from unchanged to 1/2 higher than yesterday's New York closing.

Valuable Discovery Complexion Beautifier

(From the Home Maker.) Because of its peculiar power of absorption, also because it serves every emollient purpose, ordinary mercurized was perhaps the most valuable complexion beautifier discovered within recent years. If one uses this she needs no toilet cream. Some use powder afterward, but this is not necessary and is inadvisable particularly when one perspires freely. This rule for applying mercurized wax has been found very satisfactory: Wash the face with warm water, drying lightly. Before thoroughly dry, anoint face and neck with the wax, but don't rub it in. The favorite way is to use before retiring allow it to remain on all night and washing it off in the morning with warm water. All druggists have this wax in original one-ounce packages.

For the removal of a wrinkled or flabby condition there's nothing better than to bathe the face in a solution made by dissolving 1 ounce powdered salolite in 1/2 pint witch hazel. Beneficial results are quickly noticeable.

Old Age

Because his wife refused to live with him and was contemplating a divorce, Steve O'Donnell, 312 North Thirty-ninth street, entered the house occupied by her a few doors from his own rooms and threw sulphuric acid over her bedding and clothes, resulting in damage to the amount of \$200.

His wife swore out a warrant for his arrest, charging him with malicious destruction of property and he was sentenced to ninety days in jail. The sentence was suspended on the promise of Steve to make good the loss.

Little Girls to Talk Temperance

A silver medal declamatory contest will be held this evening at the South West Methodist Episcopal church at Fifth and Hickory streets, under the auspices of the Frances Willard Woman's Christian Temperance union. Seven girls between 10 and 12 years of age will give temperance recitations. The girls are Eldora Gantis, Henrietta Jackson, Lucy Weston, Anna Jensen, Clara Almborg, Emma Palm and Ruby Hansen. The medal for the best recitation will be presented by Mrs. C. J. Roberts, president of the Frances Willard union.

Husband Destroys His Wife's Clothes

Because his wife refused to live with him and was contemplating a divorce, Steve O'Donnell, 312 North Thirty-ninth street, entered the house occupied by her a few doors from his own rooms and threw sulphuric acid over her bedding and clothes, resulting in damage to the amount of \$200.

Next Monday this Sale of Rugs begins.

BRANDEIS STORES.

Send Your Winter Clothes to Be Cleaned Where the System of Handling Them Guarantees You Careful Attention.

Little you know of how your clothes are handled when you send them to the ordinary cleaners and dyers to have them renovated.

You don't know whether your suit is thrown in with a batch of other people's clothes—no matter if they be black, blue, brown, green or not.

Nor do you know whether the same dirty gasoline is used for the whole day's cleaning. Yet these are important items and risks that you should be careful about.

The Pantorium System says: Only suits of the same color shall be cleaned together—black with black, grays with grays, etc., and that fresh gasoline shall be used for each wash.

These laws for your clothes' protection made it necessary for thousands of dollars' worth of special equipment. Special rotary washers for each color of clothes—special gasoline cleaning equipment, and numerous other devices for the careful handling of clothes.

Such protection comes only with the Pantorium System of cleaning and dyeing. The Pantorium plant is the finest equipped and most modern cleaning and dyeing plant in the middle west, and every employee in our plant is an expert in his particular line. Let us suggest that you send your next week to us for comparison with your old system. You'll be pleased with the result. Call Douglas 963 and one of our machines will call.
