WEATHER TO SET CORN PRICE

Oats Market Still Holds Firm Despite Heavy Receipts and is a Surprise to the Entire

Trade. OMAHA, Sept. 4, 1912,

Considering the overwhelming receipts of wheat at Minneapolis, Duluth, Kansas City, St. Louis and Chicago yesterday, coupled with the weak and lower cables, the net loss of ic in wheat prices for the active months was moderate and natural. The trade showed some disposition to

decline of the last few days. Cash wheat unchanged.

No one can deny that prices for the new crops months will depend on the weather conditions over the corn belt through September. Only those who are inclined to ignere the wide difference between the old and new corn prices and believers in the 3,000,000 bushel crop are pressing the selling side of the distant menths. The large conservative element in the trade feels friendly to the December option on the theory that the country will not rush to contract its corn at such a discount under prices for the old crop. The large sleeping short interest in the new crop months undertakes to cover each time the market shows a firming tendency. Accidents to the crop will be on the side of the buyers. Cash corn, unchanged to ½c higher.

The firmness in oats futures yesterday was a surprise to the entire trade. Ine futures closed the same as Saturday and the cash was but 40% lower in the

forenoon, practically everything in the feeding line was taken out of first hands early in the afternoon. The wet conditions of the offerings was a damper on early business, but once trade was under way most of the holdings were disposed of freely at prices fully steady with Monday's market. When considering the wet fleeces, the sales might possibly look a little stronger.

A marked failing off in the receipts of sheep and lambs was noted this morning as only about thirty-eight cars or 9,600 head were reported in as against 26,000 yesterday, 13,550 last Wednesday, and 15,276 head on the corresponding day a year ago. The big end of the supply was made up of lambs, fat sheep being very scarce. While there were not a great many offerings on sale, some pretty good killers were in evidence.

Growing Importance of Money Most Important Feature of Session.

QUOTATIONS RISE AND FALL

Most Cheerful Note Sounded During Day Contained in Statement Dealing with Leading Equipment Companies' Business.

NEW YORK, Sept. 4.—The most note-vorthy feature of today's dull and ir-egular stock market was the growing mportance of money as a factor. For a lime the list gave signs of an inclination o shake off the heaviness of the previous day, although opening prices were generally lower, but this was followed by a buying movement and short covering which soon established gains of a point or more in some of the more representa-tive issues.

In the early afternoon when call loans In the early afternoon when call loans were quoted at 4 per cent and time rates went higher, the market sagged until little was left of the rise, except in certain of the higher priced specialties, notably the tobaccos, which repeated some of their spectacular performances.

The most cheerful note sounded during the day was contained in a statement dealing with the operations of the leading equipment companies, showing steady increase of business. Earnings of these companies for the first half of the current year are well ahead of the entire previous year. the previous year.

Private advices from Berlin, where private discounts were again higher, indicate an early advance in the bank

rate. The bond market was again heavy. with pressure against some of the trac-tion issues. Total sales par value. I.-\$50,000. United States government bonds were unchanged on call. Number of sales and teading quotations on stocks were as follows:

wheat market today seemed to be based largely on a feeling that as the market had declined three days in succession a rally was due. Closing prices were firm, to to to higher than last night.

Wheat finished at virtually the high point of the day. There was evident supports to the control of the day. point of the day. There was evident sup-port on soft spots. Plenty pressed for sale, however, on the buiges. Owing to car shortage in Kansas, farmers there, it was said, were being advised to hold their wheat and stop threshing. This had considerable to do with preventing the market from declin-

ing at any time more than %c under last night. Outs'de limits for December were 91%c and 92%c, with the close %c net higher at 82%c. Material strength developed in corn largely as a result of the possibility that frost which appeared in the far northwest might reach the corn belt tonight. Cash grades were in good demand. No. 2 yellow. 7397734c. December closed firm,

%c up at 55%c. Good domestic demand for oats prevailed. Receivers said consignment notices were lighter. December closed 324G334c. a rise of 16%c, compared with last night.
