

LAST OF ALLEN CLAN CAUGHT BY OFFICERS WHO FOLLOW FIANCEE

Leader of Hillsville Outlaws and Nephew Manacled in Des Moines Jail.

GIRL COMES TO WED EDWARDS

Sidna Allen First Taken at Address Given Young Woman.

TWO FUGITIVES WORK IN CITY

Become Laborers in Iowa Capital Under Assumed Names.

OLDER MAN TELLS OF TRAVELS

After Leaving Mountainous Country of Virginia and North Carolina Pair Goes to Louisville and St. Louis.

DES MOINES, Sept. 14.—Sidna Allen, leader of the Allen clan which shot up the Carroll county court house at Hillsville, Va., March 14, and his nephew, Wesley Edwards, tonight are manacled in cells at the city jail. Both have announced their willingness to return to Virginia without qualification.

Edwards, for the love of whom Miss Maude Iroter of Mount Airy, Va., innocently led detectives to Des Moines, was captured shortly after 6 o'clock as he was returning to his boarding house, after having worked all day with a paving gang. Just as he boarded a street car detectives and officers surrounded it. Edwards was trying to escape by crawling through the front end of the car when officers caught him. The arrest of Sidna Allen was effected earlier in the day.

A visit by Edwards to Miss Iroter in her Virginia home about a month ago, and the accidental loss of a letter put the detectives on the trail. The fugitives had been in Des Moines since April 28, Allen under the name of Tom Sawyer, working as a carpenter, and Edwards, under the name of Joe Jackson, employed by a city paving gang.

Detectives Follow Girl. Allen was arrested at the home of John Cameron at Eleventh and Locust streets, where he and his nephew had been rooming, by Detectives Baldwin, Lucas and Mundy of a Roanoke agency. The arrest followed a few minutes after Miss Iroter stepped into the Cameron home to meet Edwards, whom she was to wed tonight, according to an arrangement made when he visited her in Virginia. Detective Lucas was at her heels. Allen was in an upper room and when informed that visitors wanted to see him, came down stairs. As he did so Lucas covered him with a revolver and asked him to surrender.

Allen hesitated, then threw up his hands, remarking as he did so, "I guess I'm your man." He was promptly handcuffed and placed under a guard of city detectives. While Colonel Baldwin and Chief Jenney of the local department was in search of Edwards, who was said to have been at work in the western part of the city. Apparently he heard his uncle had been captured, because he was not to be found until tonight.

Miss Iroter arrived in Des Moines this morning, unaware that on the same train were detectives who wanted her sweetheart. She went straight to the Cameron home, having previously been provided with the address, and the officers followed.

Although surprised, she took the arrest of Allen and the probable capture of Edwards with little show of concern. "Wesley was down home a month ago," she said. "We were to be married. He gave me the money to come to this city, and this address. I had no idea that anyone was following me."

Allen Tells of Flight. Sidna Allen in his cell tonight, talked freely of the events of the last few months, but declined to say much concerning his movements following the court house tragedy. He said he and Edwards remained in the country of

(Continued on Second Page.)

The Weather

Forecast till 7 p. m. Sunday:
For Omaha, Council Bluffs and vicinity—Fair tonight and Sunday; cooler to night.
For Nebraska—Generally fair tonight and Sunday; cooler tonight; probably frost in north and west portions.
For Iowa—Generally fair tonight and Sunday; cooler tonight; probably frost in low places in north portion.

Temperature at Omaha

Hour	Deg.
5 a. m.	53
6 a. m.	53

Local Weather Record.

Lowest last night, 1912, 1911, 1910, 1909.
Precipitation, 1912, 1911, 1910, 1909.
Normal temperature for today, 56 degrees.
Deficiency in precipitation since March 1, 1.26 inches.
Deficiency corresponding period in 1911, 13.39 inches.
Deficiency corresponding period in 1910, 13.22 inches.

Weather in the Grain Belt.

Another very decided drop in temperature occurred last night in the northwest and mountain region and east over the upper Missouri and Mississippi valleys to the lakes. Freezing weather prevails in Wyoming this morning and snow is reported falling at Denver and Cheyenne, and rainy and unsettled weather extends from the mountains east to the Mississippi river. The cool weather will continue eastward and the outlook is for cooler in this vicinity tonight, with continued cool Sunday, and frosts are probable in the north and west portions of the state tonight. The weather will continue generally cloudy in this vicinity this afternoon, followed by fair tonight and Sunday.

WINTER WEATHER OUT WEST

Snow Storms General Over Eastern Colorado and Part of Wyoming.

FLURRIES IN WEST NEBRASKA

Temperature Gets Below Freezing Up in Black Hills, While Cold Rain Falls in North Part of the State.

The eastern portions of Colorado and Wyoming are getting a touch of early winter and it is beginning to be felt in the western part of Nebraska, according to the reports to the railroad offices. The Burlington railroad's weather report shows that this morning snow was falling over the entire McCook division. From a point fifty miles west of the Nebraska state line, it was snowing hard all the way to Denver. On the Sterling division there was snow over nearly everywhere, with scattering flurries in the western counties of this state. Temperatures ranged from 30 to 50 degrees above zero.

On the Northwestern Wyoming division there was from one to two inches of snow all the way from Glen Rock west to Casper, Wyo. Glen Rock is about midway between Orrin Junction and Casper. East of Glen Rock there are snow flurries almost up to the Nebraska line. Temperatures run as low as 30 above and heavy frosts were reported from numerous Wyoming points. There was snow and freezing weather all through the Black Hills country.

From Long Pine east and all over the Bonesteel country there was a cold rain last night, but it was clearing this morning and the weather growing colder.

Crops in Good Condition. After receiving reports from every agent in Nebraska Superintendent Reynolds of the Northwestern has gotten out a summary showing the condition of the corn crop of the state as he figures it on September 10. On the whole, Superintendent Reynolds estimates the crop to be above the average, but at the date of the reports there was very little corn entirely out of the way of frost. Everywhere he concluded that the ground was in splendid condition and the crop making good progress.

In the South Platte country Superintendent Reynolds estimated that at the date of the reports fully 25 per cent of the corn was beyond danger of frost. The remaining 75 per cent would require two weeks of warm weather to bring it to maturity. In the Elkhorn valley section, along the Albion line and from Long Pine to Norfolk 50 per cent was out of the way of frost, but otherwise conditions were similar as in South Platte country.

From Winnebago east through the Bonesteel country it was estimated that 10 per cent was beyond danger of frost; 25 per cent would require one week and 25 per cent would require two weeks to mature. The remaining 15 per cent would be soft corn under almost any condition. The report shows plowing to be progressing in all sections and a large acreage of winter wheat sown since the setting in of the rains.

Eighty per cent of the hay crop has been secured and is in the stack, only 1 per cent of which has been injured by the rain. Potatoes everywhere are reported a full to bumper crop and farmers are digging them for shipment to Omaha and elsewhere.

DENVER, Colo., Sept. 14.—Snow fell in central Colorado and parts of Wyoming today. More than three inches fell in Denver. The thermometer stood at 24 degrees. A cold rain fell over both states during the night, changing to snow about daybreak.

Many Girls Disappear from Cleveland in Last Two Months

CLEVELAND, O., Sept. 14.—Twenty-three Cleveland girls have disappeared within the last two months and are believed by the police to have been victims of "white slavers" and have been "shipped" to other cities. Conclusive evidence that Cleveland is being used as a recruiting station for white slavers was found today by Probation Officer Christian after an investigation, and Chief of Police Kohler immediately ordered the entire police force to double their efforts to stamp out the evil.

Christian reported that there is organized effort being made to inveigle young women, well dressed young men, waiters in restaurants and girls and dance hall and moving picture show attaches to procure young girls frequenting these places. He has advised the police to watch a house in the fashionable residence district which, he declares, is used as a rendezvous.

Women to Use Whips and Clubs to Drive Gamblers from Town

LARNED, Kan., Sept. 14.—Horsewhips and clubs are the weapons the Women's Anti-Gambling association of Larned threatened today to use upon the city's gamblers if they do not leave the home-leaving husbands of this town alone.

The members of the association are wives of men who say they have been "hunted" recently by gamblers. Following efforts by the police to rid the town of the gamblers, the women met today and issued an ultimatum that they intended to take the law into their own hands and raid the next poker game here.

STRIKE IN ARMS PLANT AT HARTFORD CONNECTICUT

HARTFORD, Conn., Sept. 14.—A strike involving 130 skilled mechanics at the plant of the Colt Patent Fire Arms Manufacturing company began today. It was confined entirely to the department in which the forty-five-caliber automatic revolvers for the United States government are being made. The men claim the piecework prices paid have been so changed that they are equivalent to a reduction in wages, and declare that if the matter is not adjusted the entire factory force numbering nearly 1,000 hands will be called out. The Colt company is running night and day on government work.

DEMOCRATS ATTACK MOOSERS IN COURT

Candidate for State Representative Will Appear in Court This Week.

TO INTERPRET PRIMARY LAW

Follows Meeting of Democratic State Committee.

MOOSE CANDIDATE IN SIXTH

Progressives in Convention at Kearney Name Armstrong.

VALENTINE MAN MAKES PROTEST

C. H. Cornell Seeks to Address Convention, but He is Forbidden This Privilege, but Gets in Remarks Edwards.

GRAND ISLAND, Neb., Sept. 14.—(Special Telegram.)—An attack on the bull moose from the democrats is announced after the meeting of the democratic state committee here today.

While the regular republicans are demanding that bull moose electors do not disfranchise them, Mr. Morrissey, candidate for attorney general on the democratic ticket, will on Monday in the courts of Lancaster county file a protest against the progressive party going on the ballot, as such, in violation of the primary laws of the state.

"We might just as well find out now as later whether this law really means what it says and whether it is going to be enforced," said Mr. Morrissey.

The action is not taken by the state committee, however, but by Mr. Morrissey personally. The committee discussed the proposition, but took no formal action. Secretary Matthews declares that the meeting was the largest in point of attendance for several years. Among the candidates present were A. C. Shallerberger, candidate for the United States senate, H. C. Richmond for auditor, "Platform" Kelly for secretary of state, Morrissey for attorney general, Eastman for land commissioner, and Clarke for superintendent.

A bureau on speakers consisting of C. W. McCune of Omaha and Horace Davis of Ord, and a press bureau consisting of Mark Murray of Bender, Edgar Howard of Omaha and W. M. Maupin of Lincoln were created.

KEARNEY, Neb., Sept. 14.—(Special Telegram.)—Frank L. Armstrong of Elm Creek and ex-member of the state legislature from the Fifty-ninth district, was today nominated as the bull moose candidate for congress from the Six Sixty district at the Kearney convention despite strong opposition from the delegates from Ouster county.

C. H. Cornell of Valentine, for several years closely associated with Judge Moses P. Kinkaid, was present and sought the privilege of addressing the meeting. W. L. Gaston of Anselmo moved that the request be granted, but the Buffalo county delegation, headed by O. G. Smith and J. P. Gibbons, downed the motion, which was not seconded.

Mr. Cornell edged in several remarks while others were demanding procedure with the business in hand, that of nominating the congressional candidate. He contended that the move would cost the republican party at least 2,000 votes in the Fifth district and Aldrich votes would be lost throughout the state by the move. The regular party affiliation petition was in the convention hall and the speaker was invited to sign the same, which would have placed him in regular standing in the progressive movement, a thing which he stated was impossible for him to do in good faith with his constituents in the northwestern part of the state. Cannon, recognized progressive party man, used all the influence within his power to secure the endorsement, but apart from the efforts of the two mentioned the sentiment seemed to be in favor of the ultimate action of the convention.

Resolutions endorsing Roosevelt and the third party were drawn up, closing the meeting.

Hunt for Cash of Mrs. Szabo's Estate

NEW YORK, Sept. 14.—Representatives of the Austro-Hungary consulate continued their investigations today to learn what disposition was made of \$10,000 of funds of Mrs. Rosa Mensech Szabo, for whose alleged murder at Greenwood lake, Burton W. Gibson, now is incarcerated in Goshen, N. Y.

Gibson, as executor of Mrs. Szabo's estate, opened an account in a local bank in August under the name of "Estate of Ruzsa Mensech Szabo," and deposited \$1,397. Subsequently Gibson, as executor, withdrew all but \$27. The investigators are trying to find out what he did with the money.

There are reports that Mrs. Szabo had an attorney other than Gibson, and detectives are hunting for him.

REFUSES TO RUN AGAINST A WOMAN CANDIDATE

WINFIELD, Kan., Sept. 14.—P. H. Guy, nominated by the democratic party at the August primary for clerk of the district court, today withdrew in favor of his republican opponent, Mrs. Anna L. Tonkinson. In his published letter of withdrawal, Mr. Guy said:

"I am convinced that a majority of the democratic voters of Cowley county believe as I do that there is a higher service for the party than that of attempting to defeat this woman for office."

JUDGE NAMES APPRAISER FOR THE BRANDEIS ESTATES

County Judge Crawford has appointed Victor Rosewater appraiser for the Brandeis estates now in probate in his court. The inventories filed scheduled property in each case of estimated value approximating \$1,000,000.

REPUBLICANS WILL FIRE ALL MOOSERS

Roosevelt Members of the National Committee Will Be Expelled.

MUST DECLARE THEMSELVES

Chairman Barnes of Advisory Committee Says Action Will Be Taken at Meeting Next Wednesday.

NEW YORK, Sept. 14.—That drastic action will be taken by the republican national committee at its meeting here next Wednesday to oust from its membership men with leanings toward O'Connell Roosevelt was announced today by William Barnes, Jr., chairman of the national advisory committee.

"Every member of the committee," said Mr. Barnes, "will be required to declare himself for the republican national ticket and every one who fails to do so will be expelled from the committee."

Campbell Will Answer Johnson. CHICAGO, Sept. 14.—David W. Mulvane of Kansas, director of the republican campaign in the west, today announced that congressman Philip P. Campbell of Kansas will follow Governor Hiram W. Johnson on California in several of the "middle western" states and attack the progressive vice presidential candidate's arguments regarding the republican national convention.

Governor Charles S. Deneen of Illinois came to Chicago from Springfield today and completed arrangements for his trip across the state from Chicago to East St. Louis next week. Governor Deneen will deliver nineteen speeches on this trip.

Governor Eberhart Confers With Duluth Officials on Strike

DULUTH, Minn., Sept. 14.—Because of danger of continued rioting on account of the street car strike here few cars were being operated today. The first of a series of suits against the street car company will be heard today, the idea being to force resumption of service through injunction. The few cars that are running have each a crew of three men and the windows are heavily grated.

Governor Eberhart arrived today and conferred with Mayor McCuen and other city officials, street car officials and others. He said that if he decided the sheriff could not handle the mobs he would order the state troops.

George A. Reddon of Chicago, a strike-breaker, this forenoon was reported dying at a local hospital. Yesterday he fired on a crowd of sympathizers and was roughly handled. His skull is said to be fractured.

One result of the strike is that many dock and mill hands are quitting work "to go help the strikers."

New York Gunmen Caught in Brooklyn

NEW YORK, Sept. 14.—"Gyp the Blood" and "Lety Louie," indicted for the murder of Herman Rosenthal, the gambler, were arrested in Brooklyn tonight by Deputy Police Commissioner Dougherty, who took them in an automobile to police headquarters in Manhattan.

Aviator Gill Killed; Mestache May Die

CHICAGO, Sept. 14.—Aviator Howard Gill of Baltimore was killed and George Mestache of Franco was probably fatally injured in two aviation accidents at Cicero field at 6 o'clock tonight.

A Safety Touch

Farmers in Some Parts of Nebraska Badly Affected by Disease.

HORSES DIE BY THE DOZEN

W. W. Johnson of Burlington Railway Says Whole Herds of Horses Are Found Dead in Some of the Counties.

After having spent a week in the counties of the southern portion of Nebraska, investigating to what extent meningitis is and has been prevalent among horses, W. W. Johnson, assistant general freight agent of the Burlington, is home, fully convinced that unless the ravages of the disease can be stopped the farmers will be helpless and unable to plow their ground, or put in their fall wheat.

Mr. Johnson went from Gage on the east to Red Willow county on the west, visiting Jefferson, Nuckolls, Webster, Franklin, Harlan and Furnas counties. Every place that he stopped he found that the losses had been heavy. In many instances farmers had lost all of their horses and in others he found that out of droves of ten to a dozen the majority of them had died. There were few localities where the horses had been immune. The disease seems to have attacked animals in the pastures, as well as those kept in the stables.

Farmers Are Discouraged. Farmers in most of the counties are feeling discouraged and hardly know what to do. Owing to the fact that horses are dying daily all through the southern counties the farmers do not feel justified in buying more animals and as a result all operations on the farms are at a standstill.

Over the line in Kansas Mr. Johnson learned that the conditions were even worse than in Nebraska. There he heard of large areas where all of the horses on the farms had died. In many of the towns where the merchants depend upon the farmers for a large portion of their trade business, in proportion.

Medical Treatment Unknown

Expert Says Horses Must Be Put on Special Feed. (From a Staff Correspondent.) LINCOLN, Sept. 14.—(Special.)—Nothing new has developed since yesterday regarding the horse epidemic which is raging in the state. Work is being carried on as fast and as thoroughly as it is possible to do so in hope that something will be discovered. Governor Aldrich received from Dr. A. D. Melvin, chief of the department of animal industry at Washington yesterday the following letter in answer to one written notifying the authorities that assistance was needed:

WASHINGTON, D. C., Sept. 10, 1912. Hon. C. H. Aldrich, Lincoln, Neb. Dear Sir: I am in receipt of your letter of the 7th instant regarding the disease among horses in your state, which is causing such a terrible loss. As you probably know, this disease also exists to a great extent in Kansas. The veterinarians whom we have sent to investigate the disease report that it is undoubtedly a form of strangles due to a fungus which exists either in the pastures or on the hay or grain fed to horses. Cattle, however, are not as highly susceptible to the poisoning as are horses. I have arranged to send five veterinarians into your state to meet at Lincoln on the 12th instant; they will be under the direction of Dr. E. T. Davidson. It is to be regretted that not much can be done in the way of medical treatment. About the only thing is to immediately put the horses on a feed which is not contaminated, even if it is necessary to import the feed from unaffected sections. This latter fact should be given the most widespread publicity in order that owners can take immediate steps to protect their animals. Very respectfully, A. D. MELVIN.

A meeting was held in the office of the governor yesterday. Those present were the governor, Dr. Bostrom, state veterinarian; Dr. E. T. Davidson of New York City, the federal expert; Dr. G. I. Gibson, state veterinarian of Iowa; and Drs. C. H. Stange and J. H. Galt of the Iowa and Nebraska experimental stations.

The disease was discussed in all its phases and at the close of the session Governor Aldrich issued the following (Continued on Third Page.)

TO FIGHT AGAINST RECKLESS DRIVING

Chief Dunn Starts Nation-Wide Move Against Automobile Accidents.

WILL GATHER ALL STATISTICS

Omaha Police Head Gets Figures from Large Cities of United States and Intends to Fight the Evil.

A nation-wide fight against reckless automobile driving and automobile accidents is to be inaugurated by the Omaha police department, and in the interest of the movement Chief of Police Dunn is now gathering statistics from the different metropolitan cities of the country. "The information disclosed is simply frightful," says Chief Dunn. "People in general cannot be aware of the tremendous damage being done by automobiles. It is worse than a war. And yet, with a wave of the hand, the whole thing is dismissed."

"An army of more than 6,000 people were injured by automobiles last year in just twelve of our big cities. My reports do not cover the entire country, but the results in those twelve cities are enough to cause a crusade against the reckless and incompetent driver. Understand, those figures are given us by the police departments of the different cities and are taken from the official records. There have been as many more accidents in those cities which were not reported, as only those of a more serious nature are ever reported to the police."

"And, furthermore, these reports do not cover accidents which happened outside the city limits. Every country newspaper is full of accounts of automobile accidents, and I am of the belief that more accidents take place in the country than do in the cities."

In detail, my reports, which cover the period of June, 1911, to June, 1912, show the following:

City	Killed	Injured
St. Paul	31	39
Boston	14	51
Des Moines	2	52
Chicago	2	1,061
Minneapolis	1	34
Denver	7	139
Baltimore	2	126
Kansas City	4	174
St. Louis	23	1,274
Cincinnati	4	47
New York	6	2,481
Omaha	1	64
Totals	119	6,142

REBEL PLOT TO SACK MEXICO CITY SUNDAY WILL BE FRUSTRATED

of Part Played by Americans in Mexico.

Conspirators Who Planned to Start General Revolution on Independence Day Arrested.

SALAZAR REPULSED AT EL TIGRE

After Fight Lasting All Day Rebel Commandant Withdraws Troops.

MADERO IS HISSED IN CAPITAL

Name of Deposed President Diaz Cheered by Crowds.

OROZCO READY TO MAKE PEACE

Senator Smith Makes Statement in Connection with Investigation of Part Played by Americans in Mexico.

BULLETIN.

DOUGLAS, Ariz., Sept. 14.—Fighting between rebels under Campa and a force of federals sent out from Agua Prieta early today, is reported at Cienegas Springs, twelve miles southeast of Douglas.

Declaring that he would rid northern Sonora of rebel bands that have infested that region, General Sanjines left Agua Prieta early today at the head of a large force of federals. Later a rancher brought word that fighting was in progress.

MEXICO CITY, Sept. 14.—That the plot to occupy and sack the capital on September 15, the anniversary of Mexico's independence, has been more widespread than at first imagined, is believed to be indicated by reports received here by the government that similar plans were on foot against Puebla, Monterey and Saltillo. In all of these places arrests of alleged conspirators have been made. The authorities now believe that they have the situation well in hand in all the larger cities and that the celebration of the night of the 15th and the day of the 16th will not be marred by rebel attacks. The plot to occupy Saltillo and Monterey is believed here to be a part of the general rebel movement in the northern part of the state of Coahuila. The revolutionists are said to be organized there under Andres Garza Galan and to be operating along the international road toward Ciudad Portorio Diaz.

Revenue Cutter Wrecked and Ships Are Blown Ashore

PENSACOLA, Fla., Sept. 14.—A terrific storm that swept the Pensacola water front last night did thousands of dollars damage to shipping. The United States revenue cutter Pensacola was wrecked and other vessels badly damaged. The wind attained a velocity of seventy-four miles an hour before the anemometer at the weather bureau was blown away.

No loss of life was reported. Several ocean steamships, including the 4,000-ton Leyland line steamer Nestorian, were blown aground. Scores of lighters and small craft were beached and parts of several docks were taken away when vessels were wrenched from their moorings. The Pensacola was rammed and battered almost to pieces by a drifting lighter, lumber laden.

The storm passed inland and interrupted wire communication. MOBILE, Ala., Sept. 14.—The equinoctial storm which struck the gulf coast last night and threatened to do serious damage to this city, had abated this morning. While conditions are unsettled, it is thought the disturbance has spent itself so far as Mobile is concerned. The small river steamer National was sunk early today and the government dredge Barnard, which assisted in raising the Maine in Havana, dragged its anchor for a quarter of a mile, but was not damaged.

The Cedar Street Methodist church was razed by the wind and considerable minor damage done. The damage in this city will not exceed \$10,000.

Panama Canal Will Be Opened in Year

WASHINGTON, Sept. 14.—The Panama canal is to be opened to traffic in the fall of 1913. This statement was made officially at the Navy department today with an announcement that the Atlantic fleet would be rendezvoused at Colon this winter before the water is turned in. The Navy's estimate is based upon the latest report from the army engineers.

Younger Boyce Shot By John Beal Snead

AMARILLO, Tex., Sept. 14.—Al Boyce was shot and killed here today. John Beal Snead was arrested, charged with the killing. Boyce's father was killed in Fort Worth several months ago by Snead.
