METHODISTS AGAINST UNION

Nebraska Conference Rejects First Consolidation Proposal.

SECOND GOES OVER FOR YEAR

Matter of Union with North Nebraska Conference, Which Meets in Madison Next Week, is Postponed.

BEATRICE, Neb., Sept. 14.—(Special Telegram.)—The Nebraska conference this morning rescinded its action of the morning session and voted to consolidate with the West and North Nebraska conferences.

Commissioners were appointed to carry out the following resolution: "Resolved, that the commissioners appointed by this body be instructed to investigate and prepare any changes necessary in the charter of this annual conference, the charter of the Nebraska Wesleyan university and any other institution or society which this conference sustains an organic relation and that said changes be reported to the next session of the conference for action thereon."

BEATRICE, Neb., Sept. 14.—(Special Telegram.)—The Nebraska Methodist conference today voted against consolidation of the west Nebraska and Nebraska conferences. The vote was 74 to 46.

At the opening session Friday morning Bishop Bristol read a telegram from the West Nebraska conference stating that it had voted to consolidate with the Nebraska and North Nebraska conferences, the consolidated conference to be known as the Nebraska conference.

The report of Rev. Karl Sladek, the Bohemian missionary, was presented. The report showed that there are nearly 100,000 Bohemians in the state, and only three or four Protestant missionaries among them.

The following young men who have passed their examination in the course of study for two years were admitted into full membership: A. M. Steele, John W. Blair, George E. McClure, John A. Murray, W. L. Hadsell, Joseph Tuma and E. S. Brightman.

Three Anniversary Meetings.

The anniversary of the Woman's Foreign Missionary society was held at 2:30 p. m., with Miss Ella Watson presiding. Mrs. G. M. Gates, secretary, presented her report. There are 2,000 members, seventeen auxiliaries with receipts amounting to \$8,800, and two missionaries, Miss Whiting and Miss Robins.

In the evening the anniversary of the board of home missions and church extension was celebrated at the conference. Dr. H. J. Coker was the speaker and he said, in part: "This board spends \$1,000,000 a year to save America. When the pilgrim fathers landed on Plymouth Rock, they stood for three things: First, the Christian home; second, the Christian church; third, the Christian school. These were firmly united and enjoyed for 100 years."

Gains 30 Pounds in 30 Days

Protone, the Remarkable New Flesh-Building, Builds Up Flesh Fast and Makes You Plump and Strong.

50-Cent Package Free

Protone Will Make You Round, Plump and Pretty as a Picture.

Thin people suffer a good deal of embarrassment and ridicule. As people poke fun at a bony horse, so are bony people the target for many humiliating "flings."

The plump, well-formed man or woman is a magnet. Protone makes you plump, strong, well-formed, normal, puts color in your cheeks, a happy twinkle in your eyes and a fine poise to your whole body. It keeps you that way. It is the most scientific and effective flesh and strength builder so far known, barring none.

The regular \$1.00 size of Protone is for sale by all druggists, or will be mailed direct, upon receipt of price, by The Protone Co., 4954 Protone Bldg., Detroit, Mich.

Free Protone Coupon

It will cost you nothing to prove the remarkable effects of this treatment. The Protone Company will send to any one a free 50c package of Protone, if they will fill out this coupon and enclose the in stamps or silver to help cover postage. They will also send with it full instructions and their book on "Why You Are Thin."

The regular \$1.00 size of Protone is for sale in Omaha by Sherman & McConnell Drug Co., 102 So. 16th St., 14th and Farnam Sts.; Owl Drug Co., 224 So. 14th St.; Beaton Drug Co., 1691 Farnam St.; Loyal Pharmacy, 287 No. 14th St.; Bell Drug Co., 1216 Farnam St.
No free packages from druggists.

Nebraska

Burlington Will Build Into North Platte in Spring

NORTH PLATTE, Neb., Sept. 14.—(Special.)—E. M. Westervelt, right-of-way agent of the Burlington railroad, and another officer of that railroad were here last week examining the houses owned by the railroad on the right-of-way of the road to be built from Newark through the Platte river valley into Wyoming, and yesterday O. E. Elder, railroad agent for this property, was authorized to sell the houses along this right-of-way. A price was fixed upon all of the buildings along the right-of-way through this city. Twelve of the fifteen houses were sold before the advertisement was put in the paper. The buildings are to be removed not later than April 1, 1913. This is taken as an indication that the Burlington will need the right-of-way soon after this date for construction purposes.

Representatives of the engineering department of the Union Pacific have been surveying the site for the new thirty-two stall roundhouse which is to be built in the west part of this city. The roundhouse is to be situated fifteen blocks west of the main business street of this city and on the north side of the tracks. Material is expected to arrive next week and construction will be begun at once. Work will also be begun upon the new chutes, and altogether the Union Pacific will expend \$300,000 on terminal facilities in this city.

WEST NEBRASKA CONFERENCE MEETS IN ORD NEXT YEAR

SCOTTS BLUFF, Neb., Sept. 14.—At the meeting of the Methodist conference here today Ord was selected as the next meeting place. Bishop McConnell, who heads the distinguished ministerial staff here now, was at the time of his election last May the youngest bishop of the list. He is only 41 years of age and at the time of his selection was president of De Pauw university, and is the author of many publications on church work. Something over 100 ministers are here in attendance. There are three districts in the west Nebraska conference. Allen Chamberlain, who is the superintendent of the district embracing the Scotts Bluff country retires this year, having served his six years. He may be given the Scotts Bluff charge. The growth of the church and the acquisition of church property in his territory shows a gain of nearly 100 percent. The bishop announces the following transfers: S. W. Longacre from the Troy conference; A. C. Spencer, from the Missouri conference; G. E. McCarter, from the southern Kansas conference and P. A. Shawkey, from the northern Nebraska conference. Andrew J. May led the class, completing their conference studies, and William J. Miller and John W. Henderson also passed most satisfactory examinations.

AGRICULTURE SPECIALTY IN SCHOOLS OF FAIRFIELD

FAIRFIELD, Neb., Sept. 14.—(Special.)—The Fairfield schools opened the past week with seven of the eleven teachers new. The high school enrollment, which shows a good increase, is unusual, forty-nine girls and fifty-one boys.

In the place of the former half-year course in agriculture, a full two-year course has been introduced with full laboratory equipment, including a two-acre demonstration farm. This year, as formerly, the pupils studying agriculture, will be taken in automobiles by the board of education for a number of visits to grain and stock farms where practical talks will be given by farmers and breeders. Next year four full year's work in agriculture will be offered. At present half of the high school is studying this subject. A special teacher has also been added to teach music throughout the school.

ALDRICH AND MOREHEAD ATTEND DUNDY FAIR

BENKELMAN, Neb., Sept. 14.—(Special.)—Friday was the third day of the Dundy county fair at Benkelman, which is made notable by the presence in the city of many of the leading politicians of the state. Governor C. H. Aldrich, State Auditor Silas H. Barton, State Senator John F. Cordell of McCook and Will C. Israel, nominee for representative, are the prominent republicans here while the democratic candidates present include: John H. Morehead, candidate for governor; Roderick D. Sutherland, candidate for congress in opposition to Mr. Barton; W. Z. Taylor, nominee for representative, and Clarence Harmon, nominee for state railway commissioner. Governor Aldrich delivered a short address this afternoon at the fair grounds, and today Mr. Morehead and Mr. Sutherland spoke. The attendance at the fair is good and the exhibits and racing of a high order, though a heavy rain Thursday night has made the track heavy. The fair closes today.

CUMING COUNTY FARMERS TRY DESERT WHEAT-CORN

WEST POINT, Neb., Sept. 14.—(Special.)—"Desert Wheat-Corn" is the name of the new food and forage plant introduced into this country by Roland G. Langer, who brought the seed with him from Oklahoma. A number of experimental fields of this grain have been planted in Cuming county with the view of testing its fitness for the soil of Nebraska and demonstrating its value. The habitat of the plant is Mexico. The fruitage is very much like wheat, the heads being similar, but much larger and with larger grains. The plant withstands drought and hot winds perfectly and will grow freely under arid and semi-arid conditions. It makes most excellent fodder, is a fine chicken feed, can be used as pop-corn, when cracked makes a good breakfast food, when ground can be used for pancake flour and can be used for hominy and if necessary the parched product makes good coffee.

Nebraska.

UNI IS READY FOR WORK

Indications that Attendance Will Be Greatly Increased.

MANY IMPROVEMENTS ARE MADE

Museum Has Been Rehabilitated and Four New Buildings Are Nearly Completed—Several Changes Made in the Faculty.

LINCOLN, Neb., Sept. 14.—(Special.)—Prospects for a successful year at the University of Nebraska were never better than at the present time. This holds good especially from the attendance standpoint. Of course, it is a little too early to make an estimate, but conditions point to the largest in the history of the institution. It is well known that a large number of students attended other schools last year on account of the typhoid conditions caused by the poor water of the city, but this year all those conditions have been remedied and the city of Lincoln never had a better or larger supply of pure water than it has at the present.

Another condition which exists that should add greatly to the attendance this year is the abundance of crops of all kinds throughout nearly every section of the state. With good crops in Nebraska there will be more students coming to the university from the farms and the smaller towns and cities, which depend so much upon the prosperity of the farmers. The Republican valley is especially blessed with good crops this year and always when there is a condition of that kind the university has received great numbers from that locality. The last few years have not been as prosperous for that section as it might have been on account of the dry season, but with the prospects at this time there will be a large registration from that section.

Changes in Faculty.

The board of regents regret exceedingly the loss of professors, who have resigned to engage in private enterprises. Their places may be hard to fill, but the board feels that they have secured very strong new members for their places. In almost every case the new member of the faculty has reached the same rank and has had the same experience as his predecessor. The bringing of new blood and new life into the institution, will, the regents think, help its progress and increase its usefulness.

Improvements have been going on during the summer months. The museum has been rehabilitated and will soon be in better condition than before the fire. The total loss of material that could be replaced amounted to about \$5,000 as against \$15,000 as was first estimated. Some rare specimens, of course, were irreparably damaged, but aside from this regrettable loss the museum is in better condition than before the fire.

Work on the new buildings has progressed satisfactorily, although there has been some delay in securing structural steel, both for the law building on the campus and also the medical building in Omaha. It is now thought that the former building and also the plant industry building at the farm campus will be completed by the first of the year. It is also hoped to have the new building at Omaha in readiness at the same time.

Will Publish Bulletin.

The university has recently decided to publish a bulletin showing how courses in the arts college may be grouped so as to form an orderly preparation for certain occupations and professions. The bulletin will be under the editorship of Prof. Irwin and will be distributed among students at the time of registration September 15. Every department of the university has been invited to submit a proposed vocational course. Among the groups offered are: Business, with reference to consular service; with reference to real estate value; with reference to banking and commerce; analytical chemist, professional botanist, United States geological survey, country newspaper work, etc. All of these courses correspond exactly with the requirements of the arts college and in no way causes any variation in the courses as now laid down in the catalogue. They simply amount to official suggestions as to what students may most profitably choose among their free electives if they have any definite plans as to their future career.

Prof. Grumman, the newly appointed director of the school of arts, has been spending the summer collecting material that the university already possesses. One and putting it in condition to be used most effectively. One or two new rooms have been assigned to the use of the art school, and those who have visited the rooms have expressed surprise that so much could have been done in the absence of any special funds available for the extension of the work.

Letters received from Nebraska people in Europe testify to the high regard in which Prof. Wallace is held there on account of his Shakespearean discoveries. He is very frequently alluded to as the "Great American Shakespearean Student," though to the great disgust of the Nebraskans the credit for his work is occasionally given to the University of Kansas.

Library Grows Rapidly.

The university library has now reached the 100,000 mark owing to the purchase of new books. This library is pronounced by experts to be a very useful collection, remarkably free from out-of-date and worthless volumes. This library, with the historical, city and state libraries, offers to the students a collection of nearly 200,000 volumes for the use of students and all located within a radius

of half a mile. This collection compares favorably with most of the other collections of the country.

The cafeteria, which has proven very popular with the students, will be open Monday, September 16. This has been a great source of assistance to students who have had to work their way through school, for by practicing economy they have found that they could get their meals there for about \$2.30 a week.

Take it all around the prospects for a big year in the big school this season are exceedingly bright.

Young Motorcyclist Dies of His Injuries

BROKEN BOW, Neb., Sept. 14.—(Special Telegram.)—Joe Parker, the young motorcyclist, who was fatally injured in yesterday's races at the fair grounds, died from his injuries at the Ryerson hospital at 3:30 this afternoon. He never regained consciousness. Parker was the sole support of a widowed mother and several young sisters and brothers.

During the last motorcycle race on the fair grounds track at 6 o'clock last night, Parker crashed into a post while his machine was making sixty miles an hour.

It was the hardest fought race of the week and Parker, who rode a seven-horsepower machine, tried to take the curve with his motorcycle wide open. He was thrown against the heavy boarding of the fence and rebounded to the track where his body spun about like a top. Dr. Pennington, who made the examination, says Parker's neck was broken. Parker is a young farmer about 21 years old and took chances no other riders would.

No Special Train For Moose in State

LINCOLN, Neb., Sept. 14.—(Special Telegram.)—There will be no special train for Colonel Roosevelt. A telegram received by F. P. Corrick, manager of the presidential campaign in Nebraska from O. K. Davis, secretary of the national progressive committee, this afternoon states that Roosevelt demands that speeches be cut to one in each state in order that he may last till election day, and that all speeches must be under and no local committees can ride on the train and dinners and lunches must be cut out. "Every consideration must be shown him, and the chief consideration is to let him alone," said Mr. Davis.

Man Burned in Rushville.

RUSHVILLE, Neb., Sept. 14.—(Special Telegram.)—The large barn of E. V. Hipbush at the rear of his town residence here was destroyed by fire today. The fire is a mystery.

HORSE DISEASE STOPS WORK

(Continued from First Page.)

Instructions under seal of the state: All horses and mules should be removed from pastures and placed in barns or dry lots which are entirely free from vegetation.

Last year's or an early cutting of this year's hay should be fed. Old grain should be used in preference to new or recently threshed grain. Add a small quantity of flaxseed meal to the feed morning and night and continue until a laxative effect is produced.

Water with a bucket direct from the well. Where tanks must be used, scrub and rinse the water tanks thoroughly. When dry give a coat of lime whitewash. Wash the tanks every week as long as the disease exists in the neighborhood.

When once the disease attacks an animal the power to swallow is more or less impaired and owners should exercise due caution in administering any medicine in the form of a drench. So far medicinal treatment is unsatisfactory in the light of present information more good can be accomplished along the line of prevention.

We recommend that all horses and mules dying from the disease should be buried or buried six feet under ground and one barrel of lime used on each and every carcass.

We also recommend that animals dying from this disease should not be skinned, since transportation of such may spread the disease.

VICTIM OF CLUB POLITICS. SAYS MACK OF DAVIS

CLEVELAND, Sept. 14.—"Davis was a victim of plotters within the Cleveland team," said Manager Mack of the Philadelphia American league team here today in discussing the recent retirement of Harry Davis from the management of the Cleveland club of the league.

HYMENEAL

Kriemcke-Bleimeister. WEST POINT, Neb., Sept. 14.—(Special.)—The marriage of Otto Kriemcke and Miss Marie Bleimeister took place at St. Paul's German Lutheran church at West Point on Wednesday. The ceremony was performed by Rev. A. R. E. Oelschlaeger, pastor, in the presence of a chosen company of relatives and friends.

TWENTY YEARS.

Makes a great difference in most women. They are troubled with "nerves"—they suffer from backache, headache, sleeplessness, a sensation of irritability or twitching, hot flashes, dizzy spells, or many other symptoms of female weakness. The local disorder and inflammation should be treated with Dr. Pierce's Lotion Tablets and the irregularity and weakness of the female system corrected and restored with Dr. Pierce's Favorite Prescription. The serum upon the young woman or the woman of middle age—upon the nerve and blood forming structures—may be too great for her strength. This is the time to take this restorative tonic and strength-giving nerve and regulator. For over forty years sold by druggists for women's peculiar weaknesses and distressing ailments. The serum is so perfect in composition and so good in its effects as to warrant its makers in printing its every ingredient on its outside wrapper. The one remedy which absolutely contains neither alcohol nor injurious or habit-forming drugs.

Following letter selected at random from a large number of similar ones and cited merely to illustrate these remarks: "In the winter of 1908, I became greatly run down and irregular," writes Mrs. Henry Scovry, of Swan Creek, Mich., Route 1, Box 48. "I slowly but surely grew worse, and, at last, resolved to apply to the doctor for help. The doctor said I had inflammation, enlargement and laceration. I was in bed eleven weeks and got no better. The doctor said I would have to have an operation, but to that I would not listen. My husband purchased two bottles of Dr. Pierce's Favorite Prescription. When I started to take this remedy I started to move from the floor, but after I had taken three bottles I could feel myself gaining, so I dropped the doctor and took Dr. Pierce's Favorite Prescription. Only for it I think I would have been dead. I really believe it saved my life. I feel better now than in twenty years."

Dr. J. C. Root, 1111 Broadway, New York City.

PHELPS DEFENDS MILITIA

Adjutant General Takes Exceptions to Letter by Weatherly.

STATEMENTS ARE MISLEADING

Elmwood Files Protest with State Railway Commission, Asking Better Depot from Missouri Pacific.

(From a Staff Correspondent.)

LINCOLN, Sept. 14.—(Special.)—The publication of an article in one of the daily papers of Lincoln, signed Arthur L. Weatherly, who signs a secretary of the Nebraska Peace society, is excepted to by Adjutant General Phelps this morning.

Said general Phelps: "The article is misleading and untrue. He says that Lincoln alone pays \$300,000 war tax to keep up this department of the government as its share, and that the total amount paid to the government on this item by Nebraska is \$2,000,000 annually. The claim is preposterous. The facts in the matter are that the people of Nebraska pay about ten dollars per capita toward the support of all departments of the government. About one-fifth of this can properly be charged to what Mr. Weatherly calls the war tax. The War department covers the \$150,000,000 which is paid out for pensions. By taking the population of Nebraska and one-fifth of the general per capita tax of \$10 paid for the support of the general government, one can readily see for himself how far from the facts the statement of Mr. Weatherly is."

Elmwood Enters Complaint.

Elmwood wants better depot facilities and has entered a complaint before the railway commission that the Missouri Pacific depot there is not up to date and is inadequate to meet the demands of the town. It is set forth that the depot platform is narrow and not built of substantial material and that much of the time it is used for the storage of freight and other material so that it is dangerous to patrons of the road to have to use it. They ask the commission to look into the matter and give them some relief.

State Wants Cash.

The state has appealed to the supreme court for the collection of \$1,000 from George E. Dovey of Plattsmouth who was surety on the bond of William Noxen who was held on a paternity charge made by Amelia Herdman. The state lost the case in the district court. Dovey setting up the claim that he had not signed the surety bond, and further that since the bringing of the charge Amelia had married another man and left the state.

Constipation and Catarrh

S. B. HARTMAN, M. D.

You are constipated. You have taken laxatives a great many years. You have tried to select a diet that would keep your bowels regular. In this you have failed and were obliged to go back to your laxatives again. This, I say, has been going on many years.

You also have a slight catarrh in the head and throat. You never imagined that the catarrh had anything to do with the constipation. Suppose I were to tell you that as long as you have that catarrh you will never get better of your constipation. Would you believe me? Well, whether you would believe me or not it is the truth.

For many years I have been wrestling with the problem of furnishing the public an internal catarrh remedy. Peruna has been the remedy that I have devised and it has certainly relieved many thousands of people, yes hundreds of thousands of people, of chronic catarrh. Constipation was my chief difficulty in treating these cases. I often felt that it would be better if a laxative element were added to Peruna. I feared to do so, however, first because of the number of catarrhal patients who needed no laxative, and second I was afraid of making such a radical change in a remedy that was already doing so well. Thus it was that I continued to prescribe with the Peruna a bottle of Manalin to those who needed a laxative. At last, under circumstances explained in my booklet, I was constrained to add the laxative element to Peruna. This constitutes what is now known as the revised Peruna.

Now those who take Peruna will, first find themselves promptly relieved of their constipation. Second, the catarrh will gradually disappear. And once the catarrh is cured the constipation leaves permanently. Then if you follow the advice given in my book, you will never have to take pills any more. Cathartics, and laxatives you can ignore. You will be permanently relieved of both your catarrh and the constipation.

Peruna is for sale at all drug stores.

SPECIAL NOTICE—Many persons are making inquiries for the old-time Peruna. To such would say, this formula is now put out under the name of KA-TAR-NO, manufactured by KA-TAR-NO Company, Columbus, Ohio. Write them and they will be pleased to send you a free booklet.
