Producers of Iron and Steel Busier Than at Any Period for Two

> Years-Dry Goods Market Improves.

NEW YORK, Sept. 14.-R. G. Dun & Co.'s Weekly Review of Trade today says: Record-breaking crops and recordbreaking production of iron, steel, copper HOGS—Receipts, 1,000 head. New orders in iron and steel are slightly in excess of output and produc-ers are busier than at any period for two years. The latest statement of the leading interests showed a gain of over 200,oos tons in unfilled contracts, which indi-cates that heavy bookings are being cates that heavy bookings are being made for next year. Further price advances have been announced on several products, including galvanized sheets, black sheets and steel pipe, while Bessemer pig iron is now at the highest point of the year. There is a growing scarcity of the year, steel materials and odd letters. of raw steel materials and odd lots are commanding a premium. In finished lines foreign business is a feature. Steel bars, plates and shapes are being required large quantities and prompt deliveries are more difficult to obtain.

The general situation in the dry goods market shows further improvement, cot-

ton goods holding steady, an adjustment of labor troubles being effected and current demand for woolens and worsteds being well maintained.

In cottons there is a notable lack of surplus goods in first hands and jobbers who are doing an increasing business are asking for prompt delivery of orders. Buyers are operating steadily and daily needs maintain a heavy activity. Ex-port trade is seasonably quiet, but to date is well above that of a year ago.

Almost all kinds of goods are in request and in spite of the higher prices the manufacturing outlook has seldom
