STATE TICKET NOT MENTIONED

Judge Stevens Makes Trip About State with Governor Johnson and Finds Less Enthusiasm Than

Expected.

(From a Staff Correspondent.) DES MOINES, Sept. 15 .- (Special.)-The state "bull moose campaign" that opened in Iowa yesterday was not as great a success as had been anticipated by some of the ardent new party men who have

enlisted to take the affairs of the state out of the hands of the republicans. Governor Johnson of California made a journey along the Northwestern to Marshalltown and for a part of the trip was accompanied by Judge John L. Stevens of Boone, who has been nominated to oppose Clarke and ald Dunn in the making the state democratic. Judge Stevens avoided any direct discussion of state sician, Institution for Feeble-Minded issues and made no complaint as to the Children, Glenwood, Ia. character of the state ticket. In fact he confined himself largely to a eulogy of Roosevelt and Johnson. He has stated paign of the state, but it is known that he is reluctant to do so. It is probable that he will deliver only a few speeches and then in connection with others on the ticket.

Demand Censorship.

A remarkable petition was received by Chairman Rawson of the republican state committee signed by a number of persons in Marion county asking that he take steps to have removed from the committee those members who would not pledge themselves to support every candidate on the republican ticket and to drop from the state ticket those nominated candidates for office, who would not agree to support every other candidate on the ticket. No attention will be paid to the matter. It is stated that some of the candidates on the state ticket do not want to commit themselves to every other candidate who may be on the ticket and this is true intention of setting itself up as a censor of all candidates in the state and will not pay any attention to this, but the rather continue to work black hand letter, threatening him with the ancient implements of war and ritearnestly for the whole republican ticket. death if he fails to remove the sign Laboratories in High Schools.

There are seventy-nine of the small high schools in Iowa that are now accredited. In these schools during the last year, \$2,279.25 hes been spent for laboratories. This makes an average of nearly \$30 per school, but as twentymine schools did not expend anything on laboratories, this raises the average much higher. Brooklyn spent more than any other school and now has a most complete laboratory , which cost \$400. The complete laboratories in these seventynine echools are now worth \$21,184.50, or an average of about \$270 for each laboratory. In the entire small accredited schools of the state, Castana probably has the best laboratory, which is valued at \$1,245. These laboratories from a severe blow over the head. consist of apparatus for physics, physitwo cases, chemistry. With this kind is little excuse for poor work in the laboratory group of subjects.

Veteran Editor's Anniversary. onel Joseph Elboeck, the veteran German editor of this city, today with his wife celebrated the golden anniversary of their wedding. They were married when Elboeck was editor of a weekly paper in Clayton county. He has been editor of the Staats-Anseiger in this city for many years and has been active as a day. It is probable that a large number and has been of great influence in the state for many years.

Trouble Over Woodyard.

assistance during the winter are causing inspector. friction in various circues here. It is asserted that some political influences are at work to prevent the establishment. An ciation has been formed that will take over most of the charity work of the city during the year.

Boy Bandit Sentenced. William R. Salts, aged 19, has been committed to prison from Washington county for five years within ten days after his crime proved a fizzle. He went into a bank and undertook single-handed to effect the robbery thereof, but was expent and indicted within a few days, sentenced to five years.

Vigilance Committees,

a number of fires have been set and great RULER'S BODY PUT IN TOMB in the county, and as the authorities seen to be powerless to put a stop to the trouble the committees have taken the matter in hand.

Quarterly Conference Program. The following is the program for the quarterly conference of chief executive of control of state institutions to be held in the office of the board, September 17 and 18:

Stomach Bad? Belching Gas and Sour Food? Want to Feel Fine?

Wonder what upset your stomach—which portion of the food did the damage do you? Well, don't bother. If your stomach is in a revolt; of sour, gassy and upset, and what you just ate has fermented into stubborn lumps; your head dizzy and aches; beich gases and acids and eructate undigested food; breath foul, tongue coated-just take a little Diapepsin and in five minutes you truly will rate low in the earlier years of the or-

wonder what became of the indigestion and distress. Millions of men and women today know that it is needless to have a bad stomach. A little Diapepsin occasionally keeps this delicate organ regulated and they eat their favorite foods without fear

Funeral Services for Mutsuhito of Japan End with Burial.

FARMERS CARRY THE CASKET

officers of state institutions with board Procession Takes Place in Which All Ancient Implements of War and Emblems of Religion Are Borne.

> KIOTO, Japan, Sept. 15.-The body of the late emperor, Mutsuhito, was placed tonight in the imperial mausoleum at Monoyama, an imperial estate about five miles from Kloto, Mutsuhito had been exceedingly fond of the surrounding scenery and had expressed the desire that this should be his last resting pi-ce.

the funeral procession. The roadway to lng and do an errand at a store. Both the imeprial tomb was hung with crepe wives had been missing since Tuesday. draped on white panels. A double line when they cleverly evaded detectives by of soldiers and sailors flanked the route, jumping into a waiting automobile after of the difficulty in swallowing, an aloes which, cutting through famous tea fields, leaving an "L" train on which they were ball or Glauber's salt is hard to give. had been built up to a height of sixty riding in the direction of Harlem. The In fact no remedy should be given in the road had been placed arc lamps and tectives, but had returned to their homes the jugular vein, or two grains of eserin braziers, the lights of which were visible in New York. The arrest followed as under the skin, if the animal is not too for many miles.

Casket Taken to Tomb. Prince Fushima, cousin of the late em

peror, and Prince Kan In, the representative of Emperor Yoshihito, and the prinmoved and the casket placed on a carrier, which bore it to the tomb, all on the plateau bowing to the ground in final

Prior to the interment a great procesfied persons to burn the restaurant owned sion was formed at the station in which by J. A. Largent, the later received a the local authorities participated. All ualistic ornaments were carried behind which appears in the restaurant in the the casket. Immediately following the palanquin chamberlains carried on a low table a pair of imperial sandals covered with white damash silk. This is an ancient custom, for in olden times a boy attendant always followed the imperial palanquin carrying a pair of sandals. Amid prayers and the chantings of dirges the procession moved to the burial hall.

Vault of Great Antiquity. The vault in which the emperor's body was placed is of great antiquity. It is circular in shape, with three steps running around the side. The interior is fifteen feet by twenty feet in dimension, while the outside diameter is thirty been laid out around it as sacred. The interior is lined with granite and at the buried to guard the imperial body.

with white silk curtains, while the great divine trees, the "sun" and "moon" banners, caskets of bows and arrows, halberds, shields, gongs and drums were placed all about.

ANCIENT FAITH CAUSED SUICIDE

Officer Formerly Stationed in Omaha

Comments on Nogi's Death. WASHINGTON, Sept. 14-Judge Advocate General Enach Crowder is one of the few American army officers who came closely in contact with General Nogi during the Russo-Japanese war. He was one of the American military attaches permitted to accompany the Japanese army to Port Arthur.

General Crowder was greatly surprised to learn of the self-destruction of the Japanese general. He regarded him as self-command. "The old indominable Samural instinct, it was plain to be seen," said General Crowder, "had strong hold on his personality, and it was doubtless the ancient early faith that brought General Nogi to self-destruction."

Although General Kuroki, Admiral Togo and others of a bright galaxy of Japanese military and naval talent of the war period have visited Washington in recent years as the guests of the nation, General was to have accompanied Admiral Togo he was obliged to decline the special invitation that had been extended, and Admiral Togo made the visit alone.

WOODMEN OFFICIALS ANSWER

(Continued from First Page.) power is lowest, and, therefore, a level

It is alleged that the old rates, though level, are inadequate and that the limitation the society imposes on ages of admission, 18 to 45 years, makes the death ganization, wherefore an inadequate level rate may for a time produce revenue enough to meet death losses and create some surplus, but as the average age of the membership increases deaths increase so that the society, unless it acts in time, cannot save itself even by a readjustment of rates.

Age Percentage. It is alleged that 94.77 per cent of the members of the society were under 51

years of age in 1890 and only 23.6 per It is alleged that under the readjustnent the insurance of the members 54 ears of age and over is carried by the ociety at less than cost, that the older nembers have no equity in the surplus now in the treasury of the society, since they have contributed none of it, but on the contrary belong to the classes which

SAGE RESTORES **GRAY HAIR TO** NATURAL COLOR

The old idea of using Sage for darkening the hair is again coming in vogue. Our grandmothers had dark, glossy hair at seventy-five, while our mothers are gray before they are fifty. Our grandmothers kept their hair soft and glossy with a "Sage Tea," which also restored the natural color.

One objection to using such a preparation was the trouble of making it. This objection has been overcome by the Wyeth Chemical Company of New York, who has placed on the market a superior preparation af Sage, combined with Sulphur and other valuable remedies for dandruff, itching scalp, and thin, weak, falling hair.

The beauty of the hair depends more on its rich, even shading than anything else. Don't have dry, harsh, faded hair, when a simple, harmless remedy will bring back the color in a few days; and don't be tormented with dandruff, itching scalp and loose, falling hairs. Wyeth's Sage and Sulphur Hair Remedy will quickly correct these troubles, and give color, strength and beauty to your
