Table with columns for Gross earnings, Operating expenses, Net earnings, and Annual interest charges on bonds outstanding.

For complete information regarding these bonds we refer to a letter of William G. Dows, President of the Company, copies of which may be had on request, and which states that:

Net earnings are now more than twice the annual interest charges on all outstanding bonds.

The field in which the Company operates is in the heart of the Iowa "Corn Belt"—one of the richest agricultural sections in the United States.

The mortgage securing the bonds provides for the accumulation of a liberal sinking fund, or betterment fund.

The Company estimates that this consolidation of successful public utility corporations, some of which have been in operation for nearly thirty years, will result in largely increased earnings, greater efficiency in operation and still more satisfactory service to its customers.

WE RECOMMEND THESE BONDS FOR INVESTMENT Price 97 and Interest
