Electric Light for Everybody

Edison's Dream Comes True

Everywhere

Electric light for all the world—in city, village and country, on land and sea—this is Edison's dream come true.

Electric light for *everybody* is made possible by the long-lasting economy of the

Edison Mazda Lamp

Ten cents today buys as much electric light as a dollar did twenty-five years ago.

Inventors, manufacturers and lighting companies have continuously improved, not only the lamps that give the light, but also the service that makes electric light universal.

Why it is Cheaper

All this progress crowned with the Edison Mazda Lamp itself, brings electric light within the reach of every business and every home.

This new lamp is twice as economical as the best electric lamps previously in common use.

Join the millions using these

lamps, that give so much light for so little money. No store or home is too small to have electric light.

And electric wiring is now so simplified that you can install electricity at surprisingly low cost and with little disturbance.

New Lamps in Old Fixtures

If you are still using old style electric lamps, put Edison Mazdas in the same sockets—and compare results.

Ask any lighting company or electrical dealer about modern house-wiring and the best styles and sizes of Edison Mazda Lamps for your special need. Do this today.
