

REPUBLICAN OUTLOOK GOOD

Developments in Iowa Show Democrats Cannot Carry State.

FARMERS TO PICK SEED CORN

Subcommittee of Iowa Chautauque Alliance to National Gathering.

(From a Staff Correspondent.)

DES MOINES, Sept. 22.—(Special.)—Republicans of Iowa are beginning to feel that so far as the state is concerned there is very little danger of a democratic victory in November.

The normal majority of the republicans is not far from 60,000. It is disclosed that while a party may have deserted the republican party to join the new progressive party and will vote for Stevens for governor it is unquestionably true that there are also a great many democrats who will do the same thing.

The leaders among republicans are beginning to realize that a first class game of politics is being played by the republican committee this year.

The banquet and political meeting which has always been held by the Iowa Tippecanoe club at the beginning of a republican campaign has been postponed this year, according to an announcement made tonight by Secretary J. H. Crawford.

Developments Having Trouble. It develops that while republicans are not entirely harmonious as to how their campaign should be conducted, the democrats are having a great deal of trouble among themselves in Iowa.

HOW ONE WOD RIVER FARMER CURED HIS HORSES

WOOD RIVER, Neb., Sept. 22.—To the Editor of The Bee: I thought it would do no harm to tell you of my experience with the dreaded horse disease, I have had five cases of it among my pasture horses in the last ten days, and have found in all cases that they were constipated and that they all had worms. I think it is worms that cause the disease.

nial period ending this year amounted to \$3,770,224.89 as compared with \$3,388,260.30 for the preceding two years. The exact increase was \$382,064.59.

Engineer Sues for Eye Loss. Silas Wiley has filed suit for \$50,000 damages against the St. Paul & Kansas City Short Line Railway company for the destruction of his right eye and the impairment of the sight in his left. Wiley claims the injuries were received while he was pulling an engine for the defendant company on the road between Mason City and Des Moines.

WEST DEAR TO MOOSE'S CALL

Roosevelt Tour Has Aroused Curiosity, but No Enthusiasm.

HIS POWER TO CHARM IS GONE

Vituperation and Abuse of Opponents Make Up His Appeal and Are Listened to with Indifference.

John Maynard Harlan of Chicago and J. Adam Bede of Duluth, who have been following Roosevelt through the west, came to Omaha last night for a short stay. In speaking of the tour, Mr. Bede said:

"I never hunted 'possum and 'coon in the south and bear in the north, but never had so much fun and got so much game as on this trail of the big bull moose. But it is not all fun; we are viewing the political slaughter of the most gorgeous demagogue in American history; a man who has talked more and done less for the good of his country than any one ever elevated to the presidency. And Roosevelt realizes his doom. That is why he raves and tears as he does like some wild beast."

"The people are sick of his sham and pretense, his disregard of the truth and his predisposition to call everybody else a liar. They are beginning to realize that God Almighty was not unjust enough to make only one honest and wise man. They see his naked theft in politics and his cheap mendacity; his inordinate lust for power, his insatiable thirst for revenge. They have seen him throw away friendship and honor for personal ambition."

Reveals His Real Self. "The best that the republican party can hope for is that the mad mob that will stay on the stump until election day, His crowds are large; people will go to a circus. You know what Barnum said; they are not for Roosevelt. They are not enthusiastic. I have never witnessed such degradation as this man is bringing himself into. Yet, he did his nation a service in revealing his real self, for had he not done so history might have cheated posterity, but, of course, his real self made that impossible."

"I want to tell you Nebraskans that these bull moose, while they pretend to be a third party, are trying to palm themselves off as republicans where they think it will do them any good. They are trying to put their bull moose brand on our elephant. Under Roosevelt's leadership they have stolen titles, organizations and everything else they could, but it will not help him."

Why He is for Taft. "As for President Taft, I am supporting him, first, because he is a gentleman; second, because he is a statesman and has given the country a sober, prosperous, progressive administration; because he is honest and honorable, truthful and clean-mouthed; because he is not treacherous, would not sacrifice friendship for personal gain; because he is not a liar, or a mountebank, or a bully, braggart or buccaneer. And I believe that the American people's sense of justice and decency will hold them to him."

"As I said in San Francisco, lying with Roosevelt is not a habit—it is a gift. On that ground only is he entitled to sympathy."

DARK BROWN TASTE AT LINCOLN. Passage of the Bull Moose Leaves Morning-After Feeling. LINCOLN, Sept. 22.—(Special.)—The capital city of Nebraska awoke early today with the dark brown taste of the morning after. The great General I. Am of the bull moose party had come, saw, but not conquered. He came, not with the enthusiasm and loud acclaim accorded him in former visits; he saw, not the streets lined with shouting hundreds as before, and his departure was not that of a conquering hero as of yore.

"With a desperation born only of a knowledge of certain defeat, he turned his battery, loaded with vituperation, upon the republicans to whom he owed all his past honors. But when the smoke had cleared away the flags of Taft, Root and Roosevelt were still flying high in the breeze, unharmed by the onslaught of the man who because he could not command would destroy."

No Enthusiasm Noted. At the close of his speech at the Auditorium the colonel was taken in an automobile and carried up and down the streets of Lincoln in a vain attempt to stir an enthusiasm in the populace. Gallons of good gasoline were poured into the busy automobiles in an endeavor to find some portion of the city where he might be greeted with cheers as in former days. But the frantic efforts of the faithful were of no avail and as a last resort he was rushed to the station for a farewell hurrah. But there were no crowds at the station, and the great leader at once buried himself in the quietude of his private car.

Headquarters of the bull moose army of the Nebraska division is in gloom. General Corrick sits with bowed head and refuses to be comforted. The usual bustle of the aids on his staff as they hurry to and fro in the luxurious headquarters equipped by trust money is absent and they stand about as if some great calamity had befallen them. At Epworthian headquarters, where they still cling to the beloved name republican, but battle against the republican standard-bearer, an icy chilliness pervades the atmosphere. Were it not that Chairman Epworth is receiving daily reports giving occasional crumbs of comfort for the state candidates the meeting yesterday would cause more than extreme disappointment.

Some of the appointees of the governor are not feeling very friendly toward Mr. Roosevelt on account of his utter failure to say a friendly word for the state executive. "I think that shows mighty little appreciation for what Governor Aldrich has done for Colonel Roosevelt," said one man this morning. "Should Governor Aldrich be defeated it can be laid to his advocacy of Roosevelt, which is costing him many votes among tried and true republicans."

Another man at the state house said, "If Mr. Roosevelt had said nothing in his speech about other governors, it would not have looked so bad, but he spoke of the governors who had done things and said 'Even I have been a governor.' Right there it would have been a grand opportunity for him to have boosted for the Nebraska governor, but he was so taken up with his own importance that he forgot all about the man who has sacrificed so much for him."

Business Women Organize. CHICAGO, Sept. 21.—Several hundred Chicago business women met today and organized the Woman's Association for Commerce. The organization is capitalized for \$10,000 and its incorporators are: Miss Florence King, lawyer; Miss Florence Tuttle, milliner, and Miss Nell A. Gerrish, manager of a lunch club.

New Men Appear in Creighton Suits

Foot ball prospects at Creighton university have received a big boost by the appearance of several additions to the squad.

QUACKS FLEECE FARMERS

Would-Be Veterinarians Collect Big Sums for Fake Cures.

TAKE ADVANTAGE OF SCOURGE

Opportunity One that Has Caused Governor of Kansas Already to Issue Proclamation of Warning to Owners of Horses.

LINCOLN, Sept. 22.—(Special.)—According to Dr. Bostrom, state veterinarian, the horse disease is dying out in places where it first put in an appearance. "This is probably due," he said, "to the rains which have laid the dust and kept it from blowing about and carrying the germs."

It is frequently reported at the office of the state veterinarian that the epidemic has been the means of sending out a lot of traveling quacks among the farmers of the state representing that they have a cure for the disease. In some instances farmers have paid \$50 for medicine represented to cure the disease, when it was absolutely worthless as far as curing what it was represented to cure. Certain druggists have not been backward in putting out a cure, and Dr. Bostrom is of the opinion that the farmers, besides losing large sums of money on account of the deaths of their animals have been fleeced out of hundreds more by the fakirs.

The governor of Kansas has issued a proclamation calling the attention of the farmers to the manner in which fakirs are robbing the farmers and in all probability a like communication will be issued by Governor Aldrich.

Chief Engineer Price of the irrigation board was in Fremont today in consultation with the county board regarding the construction of a county bridge.

Notice of Organization. The bull moose party of the Seventy-sixth representative district, comprising the counties of Banner, Kimball, Cheyenne, Deuel and Garden, have filed with the secretary of state a document showing that the party has organized. The meeting was held at Jewell, and Bert W. Larson was nominated for representative. At the same time and place a senatorial convention was held, comprising the counties of the Twenty-seventh senatorial district, which includes Scotts Bluff, Banner, Kimball, Morrill, Cheyenne, Garden, Deuel, Grant, Hooker, Thomas, McPherson and Logan counties, and B. K. Bushee was nominated for the office of senator. Mr. Bushee served in the legislature last session.

Inquiry About Estate. Governor Aldrich received a letter from B. E. DePutron at La Fontaine, Clifton, Guernsey, this morning asking for information about an estate which had been left to the DePutrons living on that island by Jacob DePutron and Judith LeRoy, who live somewhere in the United States, and whose address has been lost.

Secretary W. R. Mellor of the board of agriculture returned from his fishing trip to Cass Lake in Minnesota, and reports lots of fish and no hay fever.

University Registration. At the close of the registration of students at the state university yesterday the books showed 1,945 names for the three days' work against 1,575 for four days last year. Yesterday's registration was 586, while for the corresponding day last year the registration was about 590.

The old military fee of \$1 which has been formerly assessed to students taking the dormitory has been abolished and instead the dollar is charged as a library fee.

Miss Ida Gettings, head of the athletic department for women, is working on a proposition to give more playground space.

"Let the women do the work." Figures at the Wisconsin university show that 37 per cent of the male students failed or were conditioned, while 21 per cent of the female students did likewise. It is said that the same percentage will apply to the Nebraska university.

The university band will go to the Ak-Sar-Ben festivities in Omaha, October 2 and 3. They will start practice next week.

Application Dismissed. The State Railway commission has dismissed the application of R. W. Rawlinson of Lexington, who asked for an order compelling the South Omaha Stock Yards company to furnish better hay and stock yards.

The opinion was written by Thomas Hall of the commission and declares that the fault is not with the stock yards company, but with the commission firms.

Governor Aldrich will speak in Ansley Monday afternoon, Sargent in the evening, Burwell, Tuesday afternoon; Ord in the evening; Seward, Wednesday afternoon and Thursday afternoon at Syracuse and Beatrice.

NOTES FROM NEBRASKA CITY AND OTTOE COUNTY. NEBRASKA CITY, Sept. 22.—(Special.)—Ralph A. Duff, who was married to a young woman on the Pacific coast, and who returned home last week, gave a "smoker" to the members of the Elks and their friends. There were something like 500 present and the function was held in Mr. Duff's new carburetor factory. During the evening a vaudeville company entertained the guests and this was followed by refreshments. It was a most elaborate affair. Last evening Mr. Duff gave a dance for the working girls of this city, furnishing the building, music and refreshments. It was in the nature of a farewell party, as the young women were required to bring their escorts. There were 150 couples present and it was one of the most enjoyable affairs ever given in this city.

Mrs. John Lewis, who was shot by her husband last Sunday evening, after which he shot and killed himself, is still very low. She was shot through the body from the right to the left side, just above the heart, and no hopes were entertained by the physicians who attended her, but she is still alive and shows signs of rallying and may recover.

Low Price, a colored man, who runs a lunch counter on Central avenue, becoming intoxicated, flourished a revolver and shot through the side of the building. Mr. and Mrs. Al McCord were passing at the time, and the bullet struck Mrs. McCord in the back, but was deflected by a steel corset stay and she escaped with a severe flesh wound. Price was arrested and let off with a fine of \$10 and costs.

A hail storm in the latter part of July striped an apple orchard of fruit and leaves. The trees remained bare for some time and now they are full leaved and in full bloom. This is to be seen

WOMAN VINDICATED AFTER SERVING LONG PRISON TERM. HUNTINGTON, Ind., Sept. 22.—Mrs. John Epps, who served twenty-three years in the Indiana woman's prison for the murder of her husband and who was paroled six years ago, has been vindicated. It was learned tonight, by the deathbed confession of Henry Epps, a brother, who died a few weeks ago. Epps, before dying, said that he had poisoned his brother. Mrs. Epps has been living in Toledo, O.

HYMENEAL. Lowery-Schreiner. NEBRASKA CITY, Neb., Sept. 21.—(Special.)—A pretty home wedding was held at the home of Mr. and Mrs. Charles Schreiner last evening, at which time their daughter was married to Walter E. Lowery, a wealthy farmer residing near Dunbar. The wedding was a very elaborate affair and a large number of relatives of both of the contracting parties being present. The two grandmothers of the bride were present and gave the bride away. The young people will settle down on a farm owned by the groom near Dunbar.

Tucker-Tompkins. NEBRASKA CITY, Neb., Sept. 21.—(Special.)—Lester B. Tucker of Julian and Miss Virginia Tompkins of Ennis, N. C., were married in this city yesterday. The bride came from her southern home to meet the groom here and was married. The couple have been sweethearts from childhood.

Lifelong Bondage. To dyspepsia, liver complaints and kidney troubles is needless. Electric Bitters is the guaranteed remedy. Only 50c. For sale by Beaton Drug Co.

Many Miners Killed. HARRISBURG, Pa., Sept. 21.—There were 615 mine workers killed in the hard coal mines of Pennsylvania in 1911, according to the annual report issued today by James E. Broderick, chief of the state bureau of mines. The anthracite production ran up to 9,957,176 tons, the highest ever known in the fields.
