Volume of Hedging in Wheat Trade Saids to Be Limited.

CORN TRADERS ARE ANXIOUS

Traders in Oats Say They See Noth ing in the Situation to Advise Buying, as Strain is Off the Cash.

OMAHA, September 39, 1912. One bullish feature in wheat which the big movement to market has not elim-inated is the very limited volume of hedg-ing sales in this and other markets. It is ing sales in this and other markets. It is this absence of pressure against actual wheat which has made it ticklish for the bears to go short and stand on their lines. The last couple of days showed less disposition to raily the market than before. This encouraged the general bearishness and forced the lower prices. There may be enough in the cables from abroad this morning to raily the market this week, as there is Balkan political uneasiness, and a heavy covering by Longon shorts in the Liverpool market which gave it a good upturn. Such influences are not usually lasting on the buying side and the trade will be inclined to renew selling pressure on any temporary swell. Cash

pressure on any temporary swell. Cash wheat was unchanged to to lower.

The trade is namous over the outcome of the September contracts today, with or the September contracts today, with practically no deliveries this month and it will be a scratch if deliveries reach 100,000 bushels today. Well posted observers claim there is a big outstanding short interest and there may be some snarp action. Cash corn has come down greatly to the last counte of days, it appears to in the last couple of days. It appears to be the opinion of experts that the big corn crop is out of danger from frost. The low temperatures last week helped to make corn merchantable and the result was selling pressure and a moderate break. The action of the market from this time on will depend considerably on country marketing. Cash corn was %@2c

CHICAGO GRAIN AND PROVISIONS Fentures of the Trading and Closing

Prices on Board of Trade.

CHICAGO, Sept. 30.—Balkan war signs failed today to stimulate wheat buying here. The closing tone of the market was unsettled, with prices varying from 350 net decline to 360 advance.

Despite a sharp upturn at Laverpool on account of military preparations in southeastern Europe, wheat traders here flocked to the seiling side as soon as prices showed a tendency to follow the British lead.

Envoyable weather for threshing ports.

British lead.

Favorable weather for threshing northwest had much to do with making the wheat market weak. An increase in the visible supply total counted also against the buils and so did heavy world shipments. September suffered the most, going 1/20 net lower at 1850. December closed the same as Saturday, 59/4/1900.

Excited shorts in September corn bid that option up rapidly at the outset and took fright again near the close. The net for September was 2621/20 to 21/4031/20. December closed norvous, 1/401/20 off at 251/20. Cash grades were weak. No. 2 yellow was quoted at 59/4/200.

Heavy selling by local speculators pulled down oats. December closed at 814.0.

Strength at the yards made pravisions or the most part firm. September lard and ribs rose 13%c.

and Advance in Call Loans.

TRADING ACTIVE. IRREGULAR in Final Hour Makes Issues Weaker to Below Last Week's Level and Entire List Grows More Heavy Towards the Close,

NEW YORK, Sept. 30 .- Further heavy gold engagements abroad and another sudden advance in call loans to 7½ per cent, the highest rate of the year, were the conflicting fearures around which to-day's active and at times strong stock market revolved. The gold was obtained in London in competition with German and other continents banking interests, and the success of our bids rollowed another decline here in exchange. The higher rate for call money was a natural outcome of the preparations now being made by banks at all important home centers to finance the heavy October interest and dividend disbursements, which probably will be much larger than last year's payments. Then, too, the relatively small excess reserves too, the relatively small excess reserves furnished another reason for caution. Stocks were distinctly irregular at the opening, a condition resulting largely from the lower range of prices for Amer-icans in London. The market followed its home operations with heavy sales here in the first hour, unloading large amounts of United States Sieel, Amalgamated Copper and Reading.

The market wavered under this on-

slaught, but went to a new level, the highest of the year, at midday, under leadership of steel. That stock came out in enormous blocks, which seemed to be freely absorbed with other representative issues, at advances. issues, at advances.

In the final hour, however, when money made its record quotation, heavy selling set in and prices crumbled until little was left of the rise. In fact, many stocks weakened to much below last week's closing level and the entire list reassumed its irregulaer trend, growing more heavy towards the close.

reassumed its irregulaer trend, growing more heavy towards the close.

All the foreign exchanges were adversely affected by the Balkan situation. The local bond market was firm, with renewed demand for special issues. Total sales, par value, amounted to \$2,450,000. United States government bonds were unchanged on call.

Advance Spring Business Shows Signs of Picking Up.

NEW YORK, Sept. 29 .- The cotton markets have been more active in the pri-mary division and distribution continues very good. The advance spring business has also picked up during the last week and retailers and jobbers are looking ahead with more confidence on future

some mills are fully under order on popular brands into January. Drills and sat-ins have been in better demand for the manufacturing trades. Duck is in steady call and some large contracts are be-ing considered. Colored yarn goods are well under order through November. Percase continue to sell steadily. Fall River sold 190,000 pieces of print cloths last week of which half were for future de-

livery.

The export trade is quiet, as the cotton markets are not yet fully settled. In all quarters of the textile field there is complaint of a shortage of operatives and a restriction in the output. Prices rule a restriction in the output. Prices rule about as follows:

Beel steers were in very fair demand, 15c; cocks, 19c; ducks, 18c; geese, 15c; but as the quality on an average was turkeys, 23c; pigeons, per doz., 11.20 poor the movement was somewhat slow Alive: Hens, 11@12c; old roosters, 6c; on that kind. Still buyers evidently stags, 6c; old ducks, full feathered, 11c; wanted the cattle and were willing to pay good strong prices for desiral killers.

Cows were generally steady and in spots strong with the demand good and the trade fairly active. The break in feeder values of 25@50c last week brought in a flood of buying orders and country buyers that made the market on that kind of cattle were active. The prices paid were strong as compared with last week and the big bulk of the desirable sattle of all weights changed hands at an early hour norning; in fact, about as fast as sellers

morning; in fact, about as fast as sellers could get around to show them.

Very few nogs were secured on snipping account and sold for that purpose showed about the same advance as mentioned above. One of the packers also filled a few orders on that basis during the early trade. First business was fairly active. A little later on packers started out getting their hogs generally live lower and as the morning advanced they became even more bearish and got the rest of the offerings most outlie lower and as much as a dime lower at the close of the market. Late tade was slow with a downward tenuency. One load of prime hogs sold at \$8.50 top for the day and a nexet above the highest price on actuality. The property saturday. the receipts of sheep and lambs. Today's
supply was about the same as last Monday, but around 11,550 head short of the
corresponding day a year ago. Montans,
Idaho, Oregon. Wyoming, Nevada. Utah
and Nebraska all contributed offerings
this morning, Wyoming being the largest
contributor. A large part of the supply
was a little late in arriving at the barn,
consequently business was somewhat
slow in getting under way. A bearish
feeling on the part of buyers was apparent early in the morning. The fact
that early messages from other points

indicated lower prices did not help matters any. What few sales were closed during the first rounds were made chiefly with a view to getting the killing chiefly with a view to getting the kining ganga started on their day's work. Among the early purchases was a sale of about a haif a load of prime fat yearlings at \$5.25. A bunch of killing ewes brought \$3.50 and a string of lambs sold

at \$6.46. While considerable stuff was unsold at mid-day, the best part of the killing and of the receipts was pretty well picked over. The general feeling of the sellers and buyers was that prices were lowlice lower on both sheep and lambs.

Trade was somewhat slow most of the forenoon. Very little business was carried on in the feeder division until in the

ried on in the feeder division and afternoon.

Mrs. Wilhelmena Bauman died yesterday afternoon at 1:30 o'clock, at her home, 1109 South Thirty-second street, after a brief illness due to her advanced age. Born in Cologne, Prussia, September 27, 834. Mrs. Bauman came to Omaha on June 22, 1860, and was one of the city's oldest and most respected citizens. She was the widow of the late Joseph F. Bauman and an active member of the Kountze Memorial Lutheran church for many years, having associated herself with this church when it was but a

Mrs. Bauman is survived by a daughter, Miss Minnie Bauman, a son, Otto J. Baumann, and four sisters. Funeral services will be held at the family residence at 2 o'clock on Wednesday, October 2. Interment will be private at Prospect Hill cemetery,

AFFAIRS AT SOUTH OMAHA

Friends of Hoctor and Wheeler Pleased at Decision.

OUSTER SUIT SPECULATION

Much Talk Over Who Will Go on Fire and Police Board in Case Supreme Court Declares Present Members Shall Be Ousted.

Friends of Mayor Tom Hoctor, City Clerk Perry Wheeler and the councilmen whose seats were contested by the former officials in an appeal from a decision of Judge Howard ennedy, rendered almost a year ago, are expressing much pleasure at the decision of the supreme court in their favor. The court of last resort holds that the preceding officials lost their rights by abandoning their offices last April to the present incumbents.

Judge Kennedy last spring ordered the then city officials to hold an election which resulted in the defeat of most of them. The former officials ran in primary elections and then yielded their places to their successful opponents. Hoctor and Perry Wheeler, both of

opposite party lines, in the opinion of the taxpayers have been trying hard to keep their ante-election promises. It was supposed at first that Hoctor would at once throw down the bars and invite a high time in South Omaha, but the big mayor soon dispelled this idea. As for City Clerk Wheeler, his administration of the clerk's office has been regarded as an eye opener. From the start he cut down the running expenses more than \$1,200 on help hire alone. He has put the bi-monthly pay days in favor of the city employes into effect. He has scrutinized the bills presented for payment with such a careful eye that the old easy methods have died out of the office.

"It is just what I expected." commented Mayor Hoctor upon the decision. 'I am glad it is over for the city's

sake." "It was a just decision," said Clerk Wheeluer, "and I think our citizens will endorse it. Now if we can only get a decision so that the public improvements may go forward I think things will run smoothly.'

Talk of New Commissioners. With the close of the ouster suit in

sight there is a general speculation as to the probable successors of Commisstoners Ryan and Pivonka should they be ousted by order of the supreme court, The names of William Queenan and J. H. Kopietz are mentioned prominently, although it is understood that Kopietz will not be likely to accept the appointment even should it be tendered him. The appointments to a vacated office on the Fire and Police board is always made by the mayor and must be confirmed by the city council. If the council refuses to confirm the nominees of the mayor his honor will conduct the affairs of the board alone.

In case the commissioners are ousted two things seem pretty certain at present. One is that the mayor will not appoint anyone that is liable to make a tleup against him and the other is that pleased by the fact that he has not a man in either fire or police departments

at present. Gillin Prints Own Report.

City Treasurer John Gillin will publish his own version of what he calls his annual report, although the city council defined and set out in the financial statement of the city all that concerns the treasurer as custodian of the city funds. In a recent utterance Gillin is made to take such a stand as impugns the right of the council to say what of Omaha is Dead the law demands upon the question.

A member of the city council, speaking of the matter, said yesterday: "All the law calls for from the treasurer is an annual statement of the funds of the city and their condition. He is a bank cashier. The directors of the bank never permit in the financial statement of their bank any talk about attacks made on the cashler nor would they tolerate long pages of stuff devoted to self laudation on the part of the cashler himself. We have asked the same of Treasurer Gillin -just a simple statement of the city's finances-and we are not interested in any of the treasurer's fights nor in any comparison of his ability as a treasurer with anyone else. Such talk seems puertle in an official and people will certainly not condemn the council because it refused to allow the treasurer to print a defense of his administration at the expense of the city. His privately printed report is not the official one of the city, of course, and bonding com-

panies take no stock in anything else." Stock Yards Theatened. Only the promptness of the local fire department prevented a conflagration at the Union Stock Yards yesterday at 1:30 p. m. when the hay sheds at scale No. 5 caught fire. A watchman discovered the the freshening breeze the fire for a few minutes seemed threatening, but the efficient work of the firemen kept the loss down to \$50. It is thought that the fire originated when a passerby threw a

cigarette into the hay. Governor is Coming. According to a rumor, Governor Chester H. Aldrich will visit South Omaha next Wednesday night. It is not known for certain who will be the host of the governor, but as the South Omaha Republican club is the big republican organization of the city it is probable that the governor will honor that body with his

presence. Magie City Gossip. The school children will be allowed a holiday on the day of the flower parade in Omaha.
