My! How My Feet Hurt

How often a woman makes this exclamation—

HERE'S RELIEF

For the woman with foot troubles we say: "Come let us show you what our makes have done to ease the pain of your feet."

We have specially constructed women's shoes made one size smaller at the instep and two sizes wide at the sole. The snug fit over the instep and through the heel at the same time allows the foot to rest wholly on the sole as it should, and not on the upper. The stock used is the very finest soft kid. The soles are very flexible, and not chemically tanned and will not burn the sole of the foot.

Don't suffer with your feet when you can get shoes like these. Two styles; dress and common sense toe, button or lace—
