A coincidence of the parade was the allotment of a number to the Cadillac "bull moose" car. While this car was one of the most beautiful in the pageant it brought out more laughs along the route than it did gasps of wonderment. It bore the large number "23," which caused many spectators to drop derogatory remarks concerning a certain pro-

gressive gentleman. Protruding from the front of this ma were decorated in pink and white apple Shane, were dressed in satin of white hat. The occupants of this car were the Misses Blanche Cahn, Mamie Spiesberger. Mrs. Millie Ryan's car was decorated Hortense Spiesberger and Fanny Rosen-

WITH 90,000.000 BALANCE

WASHINGTON, Oct. 1.-Uncle Sam opened his October account today with a \$90,013,494 working balance in the treasury; a public debt decreased by \$211,590 during September, and with custom receipts rapidly increasing as the main feature of the monthly figures.

The final report for September showed total receipts of \$55,682,556, disbursements of \$58,446,255 and a total balance in the general fund of \$149,846,615. The total custom receipts were \$27,475,127, an increase of \$2,728.818 over September, 1911, but the internal revelue receipts, not including the corporation tax, fell \$1,725,653 below the \$26,147,673 of a year ago. The total disbursements overran the receipts by nearly \$5,000,000, against an excess of nearly \$2,000,000 in receipts over expenditures in September of last year, a differnce due, in part at least, to belated appropriation legislation.

National banks will not, for the present at least, have any of the talked of \$25,000,-000 deposits of public funds to aid in the movement of the crops. Secretary Mac-Veagh and Assistant Secretary Bailey decided that the banks are fully able to cope with the situation without the help from the treasury.

JORDAN TO WORK FOR PEACE AFTER HIS RESIGNATION

STANFORD UNIVERSITY, Cal., Oct. 1.-David Starr Jordan, president of Stanford university, will resign in 1915 to work for international peace. Announcement to this effect was made on the campus today during the celebration of the twenty-first birthday of the university. By resolution of the board of trustees, presidents of Stanford are automatically retired at the age of 65. President Jordan was 61 last January.

Dr. Jordan has been the first and only president of Stanford. He had not seen the afternoon papers today, with their menace of war in the Balkans, when he said announcing his resignation: "I be lieve that world's peace is already largely accomplished, so far as the larger nations of Europe go in part through the weakness produced by expenditures, in part through international regulation."
