ARMOUR WHEAT CORNER ENDS WITHOUT EXCITEMENT
KANSAS CITY, Mo., Oct. 1.-The biggest wheat deal ever undertaken in Kansas City-the Armour corner of September wheat-ended today without the excitement usually accompanying the culmination of such an operation. There were no "shorts" left in the "squeeze" at the last, and all contracts were filled.
Deliveries today were 410,000 bushels, making a total of 3,385,000 bushels which the Armour Grain company of Chicago has taken and paid for this month. The Armour company now owns almost 4,000,000 bushels of wheat in elevators and on track here.

NOTED GERMANS TO VISIT CENTRAL WEST HOSPITALS
CHICAGO, Oct. 1.-Dr. Wilhelm His, privy councillor of the German emperor and professor in the University of Berlin, and Dr. Jacques Bertillon, brother of Alphonse Bertillon, inventor of the criminal identification system bearing his name, arrived here today with a large party of European physicians who are making a tour of cities and hospitals in the central west. The foreign physicians came to this country to attend the International Congress of Hygiene and Demography, just finished at Washington. They will spend two days here.
Dr. His endorsed the suggestion by President Taft for the creation of a national health bureau.

Pretended Lynching Frightens Negro Into Confessing a Theft
KINOSHA, Wis., Oct. 1.-A mock lynching staged by Sheriff Andrew P. Stahl of Kenosha county was productive of a confession near here Sunday afternoon from a negro accused of grand larceny. The man confessed after the rope had been put around his neck and he was about to be pulled off his feet by the mock lynchers.
Wiley Davie of Kansas City was the negro who was given the unusual third degree test. He confessed that he had stolen a gun valued at \$20.
Sheriff Stahl of Kenosha followed the negro thirty miles before he caught him. The negro swore that he was innocent. The sheriff tried everything possible and then directed one of his deputies to go out and get farmers together and have them stop at a farm house between the village of Salem and Kenosha. The sheriff finally reached the place with his prisoner.
The "mob" stopped the auto and took out the protesting negro. At a wink from the sheriff, the negro was given another chance by the "lynchers" to confess. The negro declined and one of the men ran to a barn nearby and brought out a rope. The sheriff was deaf to the appeals of the negro to save him and in a second the hoisting men, had thrown the noose about his neck and were taking him off to a woodland.
Then Davie changed his mind and declared he was ready to confess. Stahl and his deputies waved back the "mob" and the negro led the sheriff to a swamp and dug the gun from the leaves where he had buried it.

Hawkeyes Need Field Goal Kicker
IOWA CITY, Ia., Oct. 1.-Iowa coaches have gone on a hunt for a capable field goal kicker to replace O'Brien, whose work last year was one of the sensations of western foot ball. Several of the most likely kickers on the squad have been tried out, both at drop and place kicking. Carberry, who is making a strong bid for a halfback or end position, proved the best of the lot at place kicking, while Kirk, the fullback, made a favorable impression with his drop kicks.
Coach Hawley has found another weakness in the Hawkeyes lineup which is causing him considerable worry. The backs, although fast offensively, are proving of little help to the line defensively.

SOCIETY OF THE BEE-HIVE
By MELLIFLOIA. Tuesday, Oct. 1, 1912.

ALL up in your imagination a vision suggested by the words-glimmer, glisten, shimmer and sheen-and you will have an idea of the composite effect which will be produced by the gowns at the Ak-Sar-Ben Coronation ball Friday night. From the few glimpses I've had at the costumes for the big society event of the year and from what I've heard of other "creations" to be worn, I judge that never before in the realms of Quivera have the women folk presented so sparkling and lustrous an appearance.
A number of gowns will have the crystal embroidered net and chiffon-the novelty of the season. One of these to be worn by one of the out-of-town women who will be a lady in waiting at the ball is of Alice blue crystals, embroidered on a chiffon tunic of the same shade. It is made over flesh-colored charmeuse, veiled with cream-colored lace. Rhinestones border the low-cut neck and finish the girdle. Pearls and silver and beads of every hue and of all colors in one, give the gown a beautifully scintillating and iridescent effect.

There will be some gowns of rich brocade, which seem to be moulded to the figure, and robes of filmy, transparent chiffon and mousseline de sole, "revealing what they seem to conceal." There will be some rather startling color combinations, such as orange and lavender and black and green.
As a contrast to the fairylke costumes, there will be some plain satin gowns. When I asked one young society matron the inevitable question at this time, "What are you going to wear to the ball?" she answered, "Oh, just a plain black satin dress." As she is one of the best dressed women in the city, it is more than likely that her costume will be one of the stunningest there.
