DEMOS DENIED INJUNCTION

Judge Cosgrave at Lincoln Refuses Request of Petition.

APPEAL FROM STATE SECRETARY

Court Holds Prevention of Certifying Roosevelt Electors Would Be Disfranchisement of Part of the Electorate of State.

(From a Staff Correspondent.) LINCOLN, Neb., Oct. 2.—(Special.)—In district court here today an injunction asked by A. M. Morrissey, democratic candidate for attorney general, to prevent the secretary of state from certifying the names of Roosevelt electors to the county clerks for printing on the ballots at the general election was refused by Judge P. James Cosgrave.

The hearing came on an appeal from the ruling of the secretary of state last week that the new party had a right on the official ballot and was carried up with an understanding that a hearing should be had at once, and if necessary, an appeal taken to the supreme court so that a final ruling could be had before the time for placing the candidate on the primary ballot.

W. M. Morning appeared today for Mr. Morrissey and in argument among other things said that the certificate filed with the secretary of state read that "the undersigned in convention assembled certify that a new party was formed and the several candidates nominated as the candidates of the progressive party."

Democracy's Contention. He contended that they could nominate candidates by petitions after the primary, but that they had no right to organize a party and secure a place on the general election ballot under any party designation.

Petition for New Party.

In closing his argument Mr. Morning said: "If any set of men can get together and form a party as this party was formed, what is to hinder a bunch of fellows going down to the Ak-Sar-Ben festivities, where a large number of men may be found this week, and getting a petition signed up by the required number of signers and then these same fellows holding a convention and calling their party the Roosevelt party or any other name they might stick on to it and then nominate democratic candidates?"

Normal Will Give Credit for Industrial Work. KEARNEY, Neb., Oct. 2.—(Special.)—The Kearney State Normal took a radical departure today in faculty meeting from the usual method of giving credits for industrial work when it was decided to give pupils of the institution credit for taking care of a furnace, horse or cow, waiting on tables, dishwashing and other duties, when the student had the responsibility shouldered upon him.

Views of Attorney General. Attorney General Martin, appeared for the state and told why he had recommended the secretary of state to accept the filing of the new party. He read section 609 of the statutes which showed that a convention or a committee could file their nominations twenty-five days before the election and secure a place on the ballot.

After closing his argument Mr. Morrissey and Mr. Martin held a joint debate in one corner of the court room as to what that section of the law referred to, Mr. Morrissey contending that the section referred to the primary, while Mr. Martin still stuck to his contention that the section referred to the general election.

At the close of the case Judge Cosgrave said that he would withhold his ruling in the matter but would decide that the progressives had a right to a place on the ballot by reason of the fact that he had no right to deny them a right to vote for whom they pleased and that he also could not under the law, deprive the progressive party from a right to organize and go on the general election ballot.

Spreckels Doubts Sincerity. Rudolph Spreckels, the California millionaire progressive leader, who still says he is a republican, though supporting Wilson for the presidency, was in the city today and called on W. J. Bryan at Fairfield. He gives his reason for not following Roosevelt in the third term party by saying that Colonel Roosevelt, while publicly condemning bosses and what he calls the reactionary influence of the older parties, has deliberately associated himself with many political bosses and representatives of special interests.

It is quite certain that progressive principles would fare badly at the hands of the new party managers. On account of the active part these men are taking in Mr. Roosevelt's campaign, I am led to doubt very much the honesty or sincerity of the movement.

Mr. Spreckels left this evening for California.
