Florence Shipping Grapes and Apples

Over \$100,000 has been distributed among the fruit growers of Florence and vicinity this year. The Douglas County Fruit Growers' association has shipped out of Florence sixty-eight carloads of fruit so far and at present is shipping a carload a day of grapes. Besides the station at Florence the association has been shipping from DeBolt and Benson. Not all this fruit is shipped out of town, but some is marketed in Omaha. The stations are established at these points for the convenience of the growers. Instead of their having to get up at 3 o'clock in the morning and driving to Omaha with their fruit, they now take it to one of the stations where it is bunched and taken to the market late in the day. Whenever there is a better market outside of Omaha the fruit is shipped in carload lots and thus more money is put in circulation among the growers. The shipment will last about two weeks longer.

Florence to Have Political Roundup

Florence is making plans to hold a carnival of its own this year. It will be a political carnival and will be held the latter part of this month. It is planned to have speakers of all the parties present, republican, bull moose, democrats, socialists, prohibitionists, suffragettes and anti-suffragettes as well as all the candidates for office. The safety of the auditors will be assured by having all the candidates on the platform at the same time. Just how to find time to let them all speak is the problem the committee is now wrestling with.

CREIGHTON ORGANIZES ITS ORATORICAL ASSOCIATION

UNIQUE DESCRIPTION RECOVERS THE MUFF

The old bet, "heads I win, tails you lose," worked very successfully for Mrs. Millard of 1136 Park avenue, Friday morning.

Mrs. Millard was one of the many Omaha women who had their furs stored with Yost, the furrier, whose place was damaged by fire. Her muff was also among those taken by the two employees while Mr. Yost was away on a business trip to the east.

She recovered all her furs with the exception of a muff at the police station when the police took the stolen furs and held them for their owners. About a week ago one of the detectives found a mink muff in the Yost store and took it to the police station.

Mrs. Millard called upon Chief of Detectives Steve Maloney to see if it was her missing muff. Steve agreed to give her the muff if she gave a good description.

After a short pause Mrs. Millard said,

"There is heads on one side and tails on the other." Sure enough there were and Steve promptly handed the muff over to Mrs. Millard.

Corn Will Survive Damage from Frosts

Though later than some of the other railroads in getting into line, the Rock Island is now issuing crop reports. Commissioner Cottrell, who is in charge of the observations, says that the heavy frosts the last week in September caught much corn in Minnesota and northern Iowa, and some in southern Iowa and northern Missouri.

Should October continue warm and dry until about the middle of the month, Mr. Cottrell thinks fully one-half of the frost-bitten corn will dry out and ripen so that it will be marketable. Otherwise it will be too soft for shipment.

Laying out of consideration the frosted corn, Mr. Cottrell thinks there will be about a normal crop.

The report places the acreage of fall wheat sown greater than usual, due to the recent rains.
