National Irrigation Congress Talks Over Desired Laws.

STATE MEETING COMES SOON

F. A. Wright of Scott's Bluff Declares Sugar Beet Culture Has Wrought Wonders for West Nebraska.

(From a Staff Correspondent.) LINCOLN, Oct. 7 .- (Special.) -Labor Commissioner Guve and Assistant State Engineer Roberts have returned from the national irrigation congress held at Salt Lake City last week. The meeting was an important one in that it took up some matters that it is thought will be beneicial to the country in the future.

One of the important matters discussed was the opening up of new lands in the irrigation districts where results have not been what they ought to have been. Formerly contracts have been made with settlers to furnish them water at \$55 per icre, payable in ten installments, with a provisio that two crops can be raised beore the payments begin. It has been lound necessary to change the time of payments, as two years I not sufficient ime to enable a settler with little means to develop the land, and new contracts vere made giving an extension of time ome time ago and making the payments 145 per acre. It is said that a new settler vho understands little of the science of religation cannot hope to develop his land that he can raise crops at a profit for nearly five years, because of the long fine it takes to get the land broken up he making of laterals and other necesary things to learn to make irrigating department of the National Guard of the arming a success.

Mr. Roberts says that it is recognized hat for the time Nebraska has been in 'he irrigation business the state has made greater success of it than any other

What Irrigation Has Done. To show what irrigation has done for Nebraska in the northwest portion of the state, F. A. Wright, an attorney of Scott's Bluff who attended the congress in Salt Lake and called at the state engineer's office this morning, says:

"Probably no section of Nebraska has growth than has the section around Scott's Bluff. This is due to two causescountry the richest in th estate. The S. Wood, M. D. sugar beet factory at Soctt's Bluff this year will pay to the people within its territory over \$1,000,000. There are now being prepared for market and already sent to the Scott's Bluff factory 135,000 acres of sugar beets. The factory pays \$5.50 per ton on the track, and the beets will run about fifteen tons to the acre. In addition to this the tops, which are feeders at from \$3 to \$4 an acre. The one which will attract the greatest attenoperating expenses of the factory for the is about \$250,000. All this money passes through the banks of Scott's Bluff and through the banks of Scott's Bluff and No. 6, Bremer Stadtmusikanten: No. 7, you can imagine what that means to a Barbaroosa; No. 8, Wilhelm Tell; No. 9, Sanitary Inspection town of 2,500 people.

"We are counting a great deal on the next session of the state irrigation congress, which meets in Bridgeport on street, September 22, 23 and 24, to do much toward bringing about a better condition of things between th efarmer and the government." continued Mr. Wright. "While we are doing pretty well ourselves, th enew settlers need a better

### Prince Case Comes

(From a Staff Correspondent.) LINCOLN, Oct. 7 .- (Special.)-The case of Prince, the Omaha convict who was sentenced to the penitentiary for killing an Omaha policeman and afterward stabbed to death Deputy Warden Davis Blotches Go! at the penitentiary, came up before the supreme court this afternoon on an application for a new trial. Attorney Abbott, appearing for Prince, made a plea for his client for a new trial on the grounds of insanity and unfairness of the trial, setting forth that there was so much prejudice in the minds of the people cautions on cars, fumigation and a host that a fair trial was impossible. He cited of other details affecting the health of the fact that one juror when on examination said that he thought Prince should have been executed at once and save the expense of a trial.

Assistant Attorney General Edgerton appeared for the state and set forth the plea that on account of punishment which had been given Prince at the prison for infringement of the rules that he had, according to his own testimony, been planning to kill either Davis or the warden

Mr. Delehunty. According to the plea of Mr. Edgerton Prince's mind was clear at the time and afterward and he knew the deffirence between right and wrong. He read a part of the testimony of Prince himself which showed that he fully understood what he was doing and had two or three times let the opportunity pass to kill Davis, expecting a better chance.

#### Lease of Coal Land Taken by Corporation

WASHINGTON, Oct. 7 .- Yielding to the demands of conservationists that coal lands hereafter be leased by the government to wrivate concerns instead of allotted or sold, the Interior department today announced that the plan would be tried. As a result Van H. Manning, assistant director of the bureau of mines, left for Wyoming, where he will complete the details of leasing 2,480 acres of government coal lands in that state to a local corporation.

The leasing experiment will be carefully watched, and if successful probably will mark a revolution in the policy of the government in dealing with the public lands.

The land to be leased is located near Lander, Wyo. The corporation desirous of mining the coal is to pay \$1 for each acre in the tract and a royalty of 61/2 cents a ton for each ton mined during the first five years and 8 cents for the following five years.

professed principles. All men who have the full use of reason commend the more virtues, but not all practice them. This is due to the fact that the appetites induce the will to disregard the light of reason and the voice of conscience. A like want of harmony may be noticed between the religious principles which men profess and their daily life. All Christians profess a belief in a future life which is eternal. Of the truth of this article of the creed they are as certain as they are of their own existence And as far as they give it any though at all they must be convinced that thell future life is for them all in all, and that all the things of this world have a meaning and a value only insofur as

We shall find it in these very words of our Lord: They neglected and went at Chichigalpa, killing thirteen outright their way, one to his farm and another to his merchandise. Not, indeed, that cans were slightly wounded. Chichigalpa it is wrong to attend to farms or to merchandise, or to the temporal interests, which these typify; but it is wrong Lieutenant Long's command consisted to regard these interests as our last worse; but we of today have our own difficulties to meet and our own prob-

lems to solve. "The chief of these are: Wide-spread social unrest, a constantly growing accumulation of wealth in the hands of a few and a correspondingly increasing poverty among large masses of the wageearners of the world, hostility between class and class, an increasing disrespect for law, the daily disregard of the unity missioned medical officers of the service, and sanctity of the Christian family, and, as a consequence of these things, a inspect the sanitary conditions of the lower standard of morals in public and

These are among the crying evils of our day, and that they are so recognized is evident from the many attempts that are made to remedy them. Socialism seeks a remedy by working for economic freedom for the wage-earner. But as socialism, in spite of all denials to the contrary, shows an anti-Christian bias in its publications and on the part of many of its advocates, and as the natural law is opposed to some of its features it becomes an impossible system; and this many of its former supporters admit, and they are now advocating what they call syndicalism-a system that, instead of leading to economic freedom, would lead to economic slavery, worse than any the world has ever known.

Law Cannot Convert. "Law can punish the evil-doer, but law cannot convert him. Let the law make it difficult for him to exercise his evil propensities in one direction and he will soon find a way to evade it, or he will explore a new field for his operations. And does not daily experience prove this to be the case? Is any one of our large American cities morally better today than it was five or ten years ago?

"And as to those moral remedies that have been referred to, some of them, like eugenics, are indecent, while others, like the elimination of the unfit, are shirking. The elimination of the unfit simply means the murder of the weak and the helpless. That men should even think of such things as possible reme dies shows a condition of mental bankruptcy that is full of danger for the
