Wheat Traders Are Confronted by an Uncertain Situation.

CORN CROP FIGURES ENORMOUS

Bearish Government Report on Oats Should Offset All the War Talk -Traders Favor Sales on All Bulges.

OMAHA, 'Oct. 10, 1912. Traders in the Chicago wheat market surely confront a difficult proposition, because there are two important influ-ences and they are absolutely conflicting. The war news, on which the advance was scored yesterday and many of the shorts forced to cover, may easily assume more important form and make it inadvisable important form and make it inadvisable for anyone to sell wheat short. On the other hand, the official crop report, raising the spring wheat total to 330,000,000 bushels, must be construed as bearish compared with all previous official figures. Of course, the trade has been educated to the larger figures by the recent private estimates, most of them being even larger than the total given out yesterday. Cash wheat unchanged to 2e lower.

Top figures on corn are so enormous that they stun the trade in a way. The total will make the trade even more indifferent about the frost damage claims, which are coming forward. There is a disposition in the trade to keep close to the buying side. Corn bulls say they are confident that old corn will hold around the present level for some time and gradually pass into consumption, and that the new will be readily absorbed at about the present level. Bears claim that there are fair reserves of old corn in the country and predict that receipts will be sufficient to supply all requirements from now on pply all requirements from now on they look for the demand to be of ad-to-mouth character. Cash corn 146

as they look for the demand of Secondary hand-to-mouth character. Cash corn 1461 le lower.

The bearish government report on eats should offset all war talk. Traders favor sales on all bulges for a turn. Cash oats, 1461/2c lower.

Clearances were wheat and flour equal to 240,000 bushels, corn, 22,000 bushels and oats, 3,000 bushels.

Liverpool closed with wheat unchanged to 1/2c higher and corn 1/2/2c lower.

Primary wheat receipts were 1,222,000 bushels and shipments of 1,316,000 bushels.

Primary corn receipts were 467,000 bushels and shipments of 1,316,000 bushels.

Primary corn receipts were 467,000 bushels.

Primary oats receipts were 1,049,000 bushels and shipments of 899,000 bushels.

A year ago today was a holiday.

CHICAGO GRAIN AND PROVISIONS

Firm; 354-2688 c. Sales, 437 bbls.; Pecipts of the Trading and Closing

Prices on Board of Trade.

CHICAGO, Oct. 10.—Wheat came down in price today as a result of the government report estimating the crop this season to be nearly 100.000,000 bushels larger than last year. The market closed steady, but %c to 11/2c under the night before.

It was evident from the start that wheat would have to suffer a material setback. Longs of the eleventh hour sort were forced to sacrifice their holdings as war news appeared to have lost its power to stimulate buying. Instead of predicting a far reaching embroilment of the European powers, the pit began to back the idea that the disturbance would be confined to a few mountain districts.

Rumors that 7,000,000 bushels of wheat would be brought here from Duluth before the end of navigation killed efforts to raily the market. December to refer the process of the continuous process were sold for December to raily the market. December to refer the end of navigation killed efforts to raily the market. December to refer the end of navigation killed efforts to raily the market. December to refer the end of navigation killed efforts to raily the market. December to refer the process of the continuous process and the first process of the continuous process to be a sample to be a start that wheat would have to suffer a material season to be nearly 100,000,000 bushels larger than last year. The market wheat would have to suffer a market that wheat would have to suffer a material season to be nearly 100,000,000 bushels larger than last year. The market that wheat would have to suffer a market that wheat would have to suffer a material season to be nearly 100,000,000 bushels larger than last year. The market that wheat would have to suffer a material season to be nearly 100,000,000 bushels larger than last year. The market wheat the government of the Surger to 11/2 below 10,000,000 bushels larger than last year. The market wheat would have to suffer a material season to be nearly 10,000,000

Rumors that 7,000,000 bushels of wheat aud be brought here from Duluth beare the end of navigation atiled effects to raily the market. December osed at 22%c, a fall of 161%c net. Corn although bearishly affected by ne government figures met with props fiter a moderate decline. December losed steady, %49%c net lower at 53% 62%c. Casn grades were weak, No. 3 allow was quoted at 64%665c. Sharp falling off in export demand ulled down oats. December closed % 24%c off at 33%623%c. Provisions sagged as grain declined anuary pork made the steepest descent, 19%c.

One on Worthington. A story that caused much amusement was told around the ticker in Wall street offices concerning B. A. Worthington, president of the Chicago & Alton rail-

road.

In the summer of 1911 Mr. Worthington took his family to a farm house in Indiana, where quiet and rest seemed to be assured. Close by, however, was a pig sty, the presence of which was indicated under certain wind conditions. Mr. Worthington planned to go there again this year, but wrote the farmer that. wrote the farmer that the piggery engaged accommodations.

The farmer's reply was brief:

"Can accommodate you all right. Therehave been no hogs on the place since you left."—New York Telegram.

"I value your opinion so highly, old chap, that I'm going to ask you not to Muffled Knocks

"Yes, you've told me the story a dozen times, Fladger, but go ahead; there's a sympathetic quality in your voice that

sympathetic quanty in your voice that I like."

"Going to leave us, are you? Muffins? Well, you'll be glad to know that your dropping out won't hurt our business a bit." a bit."
"I wish I could afford to buy as good cigars as you can, old scout; I'd buy a rather better quality than you do."
"Gregory, you had boy, I've told you a dozen times not to watch your Uncle Cysus when he pours his coffee out into his saucer!"—Chicago Tribune.

some of this advantage later on profit taking. Other representative securities moved within parrow limits except United States Steel, which rose over a point soon after publication of its September record breaking tonnage figures. The foreign situation was again an active influence, London recording lower prices for Americans and following those with more selling here. In addition, arbitrage houses reported direct offerings from Berlin and Paris, where conditions showed some improvement over yesterday, but remained sufficiently unstable to induce further liquidation.

Grangers and similar stocks falled to make more than passive response to yesterday's remarkable crop report until late.

terday's remarkable crop report until late in the session, when the entire group made some recovery, despite advices from the northwest announcing an over-abundance of rets. abundance of rain.

Monetary conditions continued to re-EGGS—Easy: fresh gathered firsts, 24% flect the unsettled situation abroad, tending toward greater firmness, in spite of the diminished demand. Considerable call money was placed at 5%, with a high rate at 5%.

Local banks have lost about \$2,500,000 thus far, but this sum is likely to be much exceeded by the end of the week. The feature of the Bank of England statement was a loss of \$5,000,000 gold, while the Bank of France lost \$3,240,000 of the metal and increased its discounts. money was placed at 51/2, with a high

the metal and increased its discounts \$44,000,000. The bond market was well sustained with unusual activity in various low priced issues. Total sales, par value, were \$2,050,000. United States bonds were unchanged on call.

BEEF STEERS.

the worse not very long after the opening. The packers refused to follow the early buyers at the slight advance and tried to fill their orders on a cheaper basis than yesterday. In the end they were forced to make concession, the salesmen succeeding in getting fully steady prices for the bulk of the packing grades. To-ward the close several of the packers dropped out and as a result closing trade was slow and weak, hogs unsold at that time having to sell at slightly shaded figures. As will be noted from the above trade was rather uneven and only fairly active most of the morning, the range of prices having a wider spread than on yes-terday. Bulk of the sales were made around \$3.7068.85 and a top price of \$8.90 was paid for several loads of hogs during the early trade. Today's top is identical with yesterday's best price.

A large run of hogs showed up for a Thursday, approximately eighty-one cars or 5,600 head were yarded as against 3,653 head a week ago, 4,477 head two weeks ago and 4.948 on the same day a year ago. Quality in general was very little if any different from that of yesterday. A large proportion of the supply was somewhat late in arriving at the Representative sales:

Av 85 8-273 80 8 70 .294 80 8 72% .297 10 8 72% ..291 120 ...368231230255 .228 PIGS.

znem.P-A very fair run of sheep arrived for a Thursday, as in the neighborhood of 185 cars, or 28,000 head, were reported in, as compared with 18,770 head last Thursday, 22,537 two weeks ago and 25,617 head on the corresponding day a year ago. Only about half of the receipts were in the barn at the usual time. This was due to the late arrival of some of were in the barn at the usual time. This was due to the late arrival of some of the trains from the outlying feed lots. There was apparently a very good demand again this morning for desirable killers, buyers being on the market early looking for that kind of sheep and lambs. The continuance of the satisfactory conditions surrounding the eastern mutton trade helped in a measure to give a good undertone to local business. Another encouraging factor in today's trade was the favorable reports which indicated steady prices at other markets. While buyers and sellers were a trifle slow in coming to an understanding as to values early in the morning a very fair movement of the offerings took place a little later in the forenoon. Among the early sales was a string of fat ewes that sold for \$3.50.

The general trade in both sheep and lambs was active at steady prices, the majority of the fat offerings being disposed of by midday. While choice lambs were very scarce the best on sale sold as high as \$6.55. The bulk of today's fat lamb supply sold around \$6.35@6.55. A string of fairly good wethers brought \$3.00.

Quotations on sheep and lambs. Lambs, good to choice, \$5.4050.60; lambs, fair to

similar period thus far since the opening of the range season and larger than a year ago by \$,000 head.

Although there were a good many cattle in the yards this morning, there were comparatively few beef steers and tew, it any, that were very good. The most of the killers were only fair to pretty decent. The demand on the part of packers was good considering now late in the week it is and the old bulk of offerings changed hands in very fair season at prices not materially different arom those prevailing resterday.

Cows and helfers also sold at about steady prices under the influence of a reasonably good buying demand.

A very considerable proportion of all the cattle in the yards consisted of stockers and feeders week. The demand for stockers and feeders yesterday was very active and a large number of cattle were sold to go back into the country in fact, the shipment of feeders of the large sales yesterday the demand advantage of the break carrier in the week in fill their feed lots. As a result of the large sales yesterday the demand this morning was quite briefs and the market fully steady with yesterday, with the best kinds if anything a trifle strong. As noted yesterday the general market is right around 25c lower than last week. Motor Company Sues

thusiasm for an archaic automobile was told ingenuously in a petition filed in the district court yesterday in a suit land avenue and Sherman avenue. instituted by the Bertschey Motor company against T. E. Brady, asking judgment for \$325.10.

The petition recites that on March 29, 1911, Mr. Brady brought a Jackson car Hardware Co., 504 Broadway.-Advertiseof 1905 model to the Bertschey company's plant and asked to have the radiator removed and the engine dismantled for inspection. The dismantling work and the inspection created a bill of \$11.50 and disclosed the necessity for repairs While Away on Visit amounting \$100 that consumed a good part of the month of April. On May 29 the car was returned to the shop to the rounds of the senate and supreme court clocks twice a week. When the senate office building was completed it was added to his route. He starts on his rounds armed with a bunch of a hundred or so clock keys in one hand and an equal number of cumbersome door keys in the other. He keeps a close even to cave the court of the cave in the other. He keeps a close even to cave in the other. He keeps a close even to cave in the other. Council Bluffs

Judge McPherson Concludes Session of Federal Court.

IMPORTANT CASES ARE PENDING

Number of Bankruptcy Cases Are Finally Wound Up and Orders of Disposal Are Issued by the Court.

Judge Smith McPherson concluded the autumn term of the federal court yesterday afternoon and returned to his home at Red Oak for a few hours of rest. Opinions were not handed down in several important matters taken under advisement, including the application of the Des Moines Gas company for an extension of thirty days to the time for completing appeal to the higher federal court from Judge McPherson's decision requiring compliance with the 90-cent gas ordinance. The importance of the interests involved in the many points raised during the wide scope taken by the arguments on both sides will require time for consideration. The opinion will be filed here and a copy will be sent by Judge McPherson direct to Des Moines. Decision is also to be announced upon the motion for a new trial filed by the attorneys for Mrs. Elvie Parsons and her \$10,000 breach of promise case. Some interest was aroused during the

final clean up when the bankruptcy case of M. J. O'Connell was called for final adjudication. O'Connell failed for about \$75,000 following the closing of his store on Pearl street, and was adjudged a bankrupt on July 1, 1911. The stock was sold under directions of the court. The affairs of the concern have all been settled and the action yesterday was the formal discharge. The same action was taken in the bankruptcy case of Marius Olsen, who was adjudged a bankrupt on May 26, 1911. Final orders closing the estates of a number of other bankrupts were issued. Some of these cases have been pending for ten years or more, including the case of John P. Weaver, former brick manufacturer, contractor and member of the city council, who failed with heavy liabilities in 1905, but who has now made another fortune at Portland, Ore. All obligations against these estates were dissolved:

Elverton O. Donaldson, Grace S. Nutt, Marius Olsen, John P. F. Weaver, Kenry Schraiter, George W. Hagerty, Lee W. Kemmish, Alfred Cleve Turner, Edwin Aspinwall, Joseph T. Stangl and Cassius W. Spargus.

After spending part of today at his home Judge McPherson will leave for St. Paul, where he will hear arguments on a motion for a new trial in a suit tried by him last spring. On Tuesday morning he will begin the autumn term of court at Keokuk.

City Will Secure Motor Hose Truck

It was practically settled yesterday that new automobile fire truck is not to be permitted to get away. President Doolittle of the Commercial club, Mayor Maloney, City Solicitor Stuart and City Treasurer True had a conference at the city building for the purpose of seeking a source from which the money to pay for the truck may be legally drawn. It had been previously decided that there should be no bond issue, but that the payment of \$5,500 should be made in cash. The hope all along lay in the possibilities of the resilient police fund, into which is paid all of the fines and licenses, including the saloon licenses of \$117 each month by the twenty-nine saloons in the

All of this money is turned into the general fund to be distributed among the various funds set apart for the operation of the municipal departments by the general appropriation ordinance. City Treasurer True was delegated to look up the receipts for the last few months and strike some balances. He did the work very quickly and discovered that the receipts in the general fund from all sources had been comfortably ahead of the expenditures. His report led to the decision on the part of the committee to make a favorable report to the city council. This may be done at the committee of the whole meeting this affernoon, and with the approval of the aldermen sitting as a committee it will permit the new truck to be placed in regular service on the first of next week. It is not improbable, however, that Chief Nicholson will not hesitate to use it if a long run is to be made, as he did Tuesday night with fine results. The big truck has been tested as a hill climber and found to be satisfactory. Carrying a full load it was sent up North Second street against a 17 per cent grade, stopped at the steepest point and picked up its load and went to the top at a speed of On Big Repair Bill ten miles an hour. This is really the steepest grade in the city and, although well paved with beveled Purington block, few horses are able to take a load over it. In cases of fire the horse-drawn hose wagons have been sent around by Oak-

> We are exclusive agents for Cole's Hot Blast Heaters, \$10 up. P. C. De Vot

Xenophon W. Kynett and Miss Leda M. Borwick, daughter of Mr. and Mrs. tents inspected, revealing the urgent H. Borwick of this city, have surprised their friends by the announcement of their marriage, which took place at Portland, Ore., last week. Mr. Kynett and Miss Borwick have been visiting on the that cost \$25. Then throughout the whole Pacific coast for several weeks, but exannouncement of the marriage came as that date the drive shaft got to wob- a surprise. The wedding occurred at 3 putate and replace only cost \$35.35. There is another long joyous silence until Dr. A. A. Morrison, rector of the church, November 1, when the decrepit car is in the presence of a few friends of the alleged to have been brought to the young people. Mr. and Mrs. Kynett will shop and left and up to the moment of devote a part of the present month of filing the petition yesterday was still visiting points of interest at ng the Pacific cosst and will start homeward in time to reach here about October 15, making short stops at Salt Lake City, Colorado Springs and Denver.
