HOW TO PRESERVE YOUTH AND BEAUTY.

One great secret of youth and beauty for the young woman or the mother is the proper understanding of her womanly system and well-being. Every woman, young or old, should know kerself and her physical make up. A good way to arrive at this knowledge is to get a good doctor book, such for instance, as "The People's Common Sense Medical Adviser," by R. V. Pierce, M. D., which can readily be procured by sending thirty-one cents for cloth-bound copy, addressing Dr. Pierce, at Buffale, N. Y.

The walking system is a delicate machine which can only be compared to the intricate mechanism of a beautiful watch which will keep in good running order only with good care and the proper ciling at the right time, so that the delicate mechanism may not be seen out. Very many times young women get old or rans down before their time through ignorance and the improper handling of this human mechanism. Mental depression, a confused head, backache, headache, or hot fiashed and many symptoms of derangement of the womanly system can be avoided by a proper understanding of what to do, in those trying times that come to all women.
