HANSEN ENFORCING THE LAW

Food Commissioner Impresses St. Joseph Jobbers They Must Obey Law Regarding Pure Food in Nebraska Sales.

(From a Staff Correspondent.) LINCOLN, Oct. 12.—(Special.)—George Younger, the colored man who was sent to the penitentiary from Lancaster county for assaulting a 15-year-old telephone girl and had made application for a pardon to the board of pardons, was refused a pardon and the recommendation of the governor is that his application be turned down. Younger was convicted in the Lancaster county court and sent to the penitentiary February 6, 1911, for a period of twenty years. He admitted that he had been doing something of the kind all his life and the board, considering that he was a moral degenerate, decided that he was not a fit person to be running at large.

Saunders Sends Cash. Saunders county sent \$30,000 to the state treasury this morning, which relieves the treasury considerably. Money is now coming in in pretty good shape, according to a statement made by Treasurer George, who has just returned from a trip through northeast Nebraska. "By the way," said the treasurer, "you ought to see the crops up in that country. The corn is simply immense and I guess they are going to beat the record." When asked about political conditions, Mr. George said: "Our trip was very satisfactory. We had good meetings and everything looks good for the state ticket in that part of Nebraska."

Miss Anna V. Day left yesterday for Idaho, where she will represent Nebraska at the superintendents' congress, which meets the coming week. Hansen to St. Joe. Food Commissioner Hansen returned today from a trip to St. Joseph, where he investigated methods among the wholesale houses of that city and took up with the wholesalers the matter of a proper branding of certain kinds of food stuff sold in Nebraska. "I want those people down there who ship lots of goods especially to southeast Nebraska, to understand that they will be required to follow the Nebraska law just the same as the wholesale houses of our own state."

State Engineer Price is at home from a trip to Crawford, where he held hearings regarding a few applications for water rights, among them being the city of Crawford for water from the White river, the Burlington railroad at the same place for water from the same river, and an application of Nellie M. Stump for water from Ash creek.

Kelly Escapes. James Kelly, a steam fitter at the state penitentiary, took it into his head that he did not want to remain longer and while at work during the night fitted some gas pipes together and using it for a ladder scaled the wall and disappeared. Kelly was sent up for horse stealing in Dakota county, August 1, 1911, and his time would have been out April 4, 1912. He is about 28 years old, five feet ten and one-half inches high and weighs 132 pounds. He had dark brown hair and one finger on the left hand was lacerated recently. He walks with a limp, favoring the right leg.

Chancellor Avery and Prof. Sweeney have a plan to have the next legislature appropriate \$15,000 for a new observatory to be erected next spring. It may not be generally known that the university is having made one of the largest telescopes in the west, which has been in the process of construction for several years. The telescope is nearing completion and the chancellor is very anxious to have a place for it as soon as it is finished, consequently the legislature will be asked to note the fact and act accordingly. The lenses for the telescope measure twelve inches in diameter.

Besides winning the trophy three of the Nebraska men won individual prizes. H. B. Per, '14, was first; R. J. Fosson, '15, third; J. W. Whitman, '15, fourth. The other two men on the team, H. W. Rice, '15, and Hugh Raymond, '14, were close to the leaders.

SECRETARY REJECTS DEMAND

Nebraska Official Turns Down Request of Republicans.

CULVER VOICES THE PROTEST

Files Document at State House Which Official Refuses to Recognize, Declaring Has No Power to Do So.

(Continued from First Page.) needs of the republican party, but instead are supporting Roosevelt and Johnson, the nominees of the bull moose or progressive party, that they are not and should not be considered as republicans and therefore had no right upon the republican ticket.

The committee sets forth that at a meeting of the state republican central committee in Omaha, September 24, 1912, action was taken declaring the offices vacant on all of the so-called republican electors who were not supporting the republican national ticket and platform and that the following were selected to fill the vacancies:

First District—C. F. Reavis, Falls City Third District—George D. Smith, Norfolk.

Fourth District—W. H. Kilpatrick, Beatrice. Fifth District—O. A. Abbott, Grand Island.

At Large—Daniel B. Jenckes, Chadron; Vac Buresh, Omaha. Demand Turned Down. The committee demands that these names be placed upon the official ballot as the regularly selected candidates of the republican party for electors, together with the two already supporting the national ticket and platform, A. C. Kennedy of Omaha and Wilcox of North Platte.

Secretary Walt has answered the communication by letter stating that he has no power under the statutes to remove any candidate elected at the primary and therefore must turn down the request of the committee.

Moosers in the Dump. The declination that he longed for never came. Everything is up in the air in the bull moose camp and the campaign from now on will naturally develop into "Everybody for himself and the devil take the hindmost."

After working for two months to get the bull moose electors on the republican ticket to withdraw from a ticket they were not supporting, Chairman Epperson of the bull moose republican committee managed to get four of the six counterfeited republicans to meet him in a conference last night and every pressure was brought upon them to withdraw from the ticket and thus aid in the election of Governor Aldrich and the republican state ticket, but they refused and all negotiations are now off.

When called on this morning in his office at bull moose republican headquarters, Chairman Epperson wore a very dejected look. "We have tried our best to show these men the necessity of resigning and by such action give the Taft men a chance to place supporters of the president upon the ticket," said Mr. Epperson, "but we were unsuccessful and the matter will now be dropped."

Candidates Who Refuse. The four candidates who refuse to support the national platform and the candidates of the republican party from which they received their nomination, but are openly fighting the election of the nominee of the party and supporting the nominees of another party which declares its mission to be to put out of business the party on which ticket they are running, who were present at the conference, were W. J. Brutch of Omaha, A. R. Davis of Wayne, George S. Flory of Pawnee City and A. V. Pease of Fairbury. Mr. Pease seemed to be so afraid that he could not justify his position that he brought along John Heasty, candidate for the state senate from Jefferson county, to help him out.

Mr. Heasty was afraid of many things if the bull moose candidates withdrew from the ticket, the most important, in his estimation, being that the bull moose candidates for the legislature would not get elected if the bull moosers were only on the progressive ticket. Like the electors, he recognized the fact that he needed the republican party to give him standing, but did not consider he was under any obligations after using the party to get in on to stay by its candidates after he was in.

Things Up in Air. The action of electors has put everybody up in the air. One very prominent republican, who has been a strong advocate of the election of Mr. Roosevelt, is said to have announced this morning that if the electors thought that they were of more consequence than the success of the republican state ticket in Nebraska, that he was done with them and would support President Taft.

Another man was very wrought up over the action of the bull moose electors in what he called a "sea fish act in thinking their election of more consequence than that of the state ticket." Said he: "I shall not vote for either of those men now. I shall cast my vote for the regular republican electors."

To many the action of the bull moose

MOOSERS AND TAFT MEN JOIN IN BUFFALO COUNTY

KEARNEY, Neb., Oct. 12.—(Special Telegram.)—By the endorsement of the republican nominees for all of the Buffalo county offices to be filled next month the breach between the bull moosers and the Taft men was ended tonight at the Buffalo county progressive convention.

George W. Norris addressed the convention following the acceptance of the regular Taft nominees. His approval of the act of the progressives and the added prestige it would give his campaign was evident. To prove that the convention was regularly called those taking part were requested to sign the regular petitions, which they did, something over 100 adding their names to the list.

Health and Beauty Advice

BY MRS. MAE MARTYN. R. M. S.: Sallow complexion, liver blotches, pimples and other eruptions of the skin indicate the need of a good blood-tonic and liver-regulator. Dissolve one ounce of karsene in one-half pint of alcohol (not whiskey), add one-half cupful of sugar and enough hot water to make a full quart. Take one tablespoonful five minutes before each meal. Karsene purifies the blood, arouses the liver, clears the skin, restores lost appetite and tends to strengthen and build up the entire system. J. W.: You can add greatly to your beauty if you rub pyroxin on your eyebrows with finger-end. This makes them grow thick and silky. Applying pyroxin at lash-roots with thumb and fore-finger makes them grow long and curly. Use caution and don't get pyroxin where no hair is wanted. Mrs. D.: Those ugly hairs can be quickly banished from your face with a paste made with powdered delonise and water. This paste should remain on the hairy surface two or three minutes, then rub off and wash the skin and every trace of hair has vanished. The delonise treatment never fails and leaves the skin free from spot or blemish. Annette: The affliction of over-fatness is to be deplored at any age, but it is a positive calamity to a young and pretty woman to become too fat in these days when the fashion decrees the slender figure the only correct one. You can reduce your weight almost at the rate of a pound a day until you reach normal if you will dissolve four ounces of parrotis in 1 1/2 pints of hot water and take a tablespoonful before each meal. You can buy parrotis from any first-class druggist. It is a harmless fat-destroyer, and those who take it marvel at its wonderful effect, it makes one look and feel younger, brighter, more buoyant and energetic. Fannie R.: To be sure a face-lotion is far better than face powder, but you will have to be careful what you use a most "liquid face powder" contain injurious ingredients that are likely to ruin your complexion. Try this inexpensive one which is all right: Dissolve four ounces of apurmax in a half-pint of witch hazel or hot water and add two teaspoonfuls glycerine. Rub this on your face, neck and arms, and it will give your skin a very pleasing, delicate tone. This lotion does not show or rub off like powder and will remove that shifty, sallow look from your skin. This preparation is a wonderful skin-beautifier and I find it excellent for rough, red or sallow skins, freckles and skin-pimples. Mrs. David Q.: The only reason why many hair and scalp-specialists advise against frequent shampooing is the danger that comes through the use of soap and inferior shampoos which contain "free" alkali or other ingredients injurious to the hair. If your hair is thin, very dry or oily and looks so dull, "stringy" and unkempt a few days after shampooing, try cleansing with a teaspoonful of canthox dissolved in a cup of hot water, then rinsing thoroughly with clear water. You can use this shampoo as often as you like, as it will benefit your hair and scalp wonderfully. It will relieve that itching sensation and make your hair beautiful, fluffy and appear twice as thick. This shampoo dries quickly without any danger of streaking or discoloration. Miss H. L.: If you only knew what was in the cheap, greasy cold creams you have been smearing on your face, you would never use them again, as they are really harmful. Never use anything but a greaseless cream if you don't want hair on your face. At a small expense you can prepare an excellent complexion cream-jelly by stirring together and allowing to stand over night two teaspoonfuls glycerine, one ounce almond oil and one-half pint water. Use this regularly and it will clear up your complexion wonderfully by removing all dirt and oil. It will also remove quickly those blackheads and other effects of no weather such as freckles, and smoothness of the skin of which you speak. This is the only reliable cream I have ever found for removing wrinkles without leaving the skin rough and flabby after massaging and for reducing the size of large, dirt-collecting pores. Victoria: Your scalp needs a good, stimulating quinine hair-tonic to remove the dandruff, stop irritation and falling hair. Get from any drug store one-half pint alcohol (not whiskey) and one ounce quinine and mix it with one-half pint water and you will have a much better tonic than any of those ready-repared tonics you have been buying. Rub your hair daily and twice a week apply this tonic to the scalp, rubbing it gently. This will do wonders for your hair, unless falling hair, and put your scalp in a healthy condition. This tonic will make your hair soft, silky and lustrous. Keep the scalp clean by frequent washing with castor oil and you will not have further trouble with your hair. Enid S.: Your headaches and generally dependent feeling very likely come from your weak, inflamed eyes. You should attend to the matter immediately or you may have to wear glasses permanently. Get an ounce of glycerine and dissolve it in a pint of water. Put a few drops in each eye two or three times a day and I am sure it will strengthen your eyes wonderfully and remove your eye troubles generally. I find this a splendid remedy. It does not smart the eyes that have that overworked feeling. Read Mrs. Martyn's book, "Beauty," is advertisement.
