Big Birds Put In an Appearance-Good Bugs Are Looked For-Mrs. Stewart Accompanies

Her Hushand.

Despite the fact that nearly everyone has complained more or less about the rainy weather of last week, there is one clan of the human specie in Nebraska who have embraced the dampsome days with open arms. They are the sons of Nimrod. who know that on the heavy rain laden air hundreds of the feathered web-footed fowl are hurrying toward the south and the dinner table. Duck shooting should from all climatical standpoints be at its very best, and from the reports that have been coming in from all parts of the state this is the true condition of affairs.

Yesterday saw a number of hunter sather together their game garnering utensils and hike to the lakes. marshes and shallow rivers of the state. The big ducks are advancing from the cooler regions with a steadfastness that bodes for a good flight, though in all probability it will be a short one. When the big birds come, then cold weather is not far in their rear, and experienced sportsmen, who prefer them to the smaller ones, are aware of the fact and are making all possible haste to plan their outings accordingly. White geese and brant, the first of this family to make their appearance, have been seen in several localities, although few have yet been killed, a sure sign of the not distant winter. The early fall shooting this year has

probably had more followers than the same season of the last two or three years, and while no great killings have been made, all sportsmen who have been out have had more or less good luck. The weather for the most part has been pleasant, and what has not been made up in the game bag has been more than balanced by outings under the most favorable kind of conditions. Chicken shooting, from every stand-

point, has been splendid, the birds have been thicker than the proverbial fly, and notwithstanding the scant number allowed each man by the law, the sportsmen in general have no kick coming. as the majority have had Hitle trouble in ecuring the limit. Opinion as to whether the chicken law is generous enough, is a topic of much discussion amongst the shooters these days; some think the limit far too little, while the greater number are staunch supporters of the law. reasoning that this is the only way in which one of the grandest of American game hirds may be saved from extinction. Anyway, the enforcement of such a law

bound to have its good effect, if only able to decide on the pair whom in curbing the insatiable appetite of the figures on for regulars. Rosenthal joint his shell case. Nebraska, while probably the best state

GOPHERS ARE NOW SMALLER Name of Giants of the North No.

Longer Applies-Have a Wholes. some Respect for Uni of Nebraska Lads.

ST. PAUL, Minn., Oct. 12 .- (Special.)-The marcon and gold football aspirants under the able coaching of Dr. Williams Sig Harris and Johnny McGovern, are being sent through some strenuous practice sessions these afternoons in preparation for the game with the Cornhuskers next Saturday on Northrop field.

The coaches, players, students followers of the Gophers fully realize the task which confronts them in rounding into shape an eleven that will be canable of holding its own with the aggregation that "Jumbo" Stiehm will place in the field. Dr. Williams' cohorts showed great improvement in last Saturday's game with the Ames Aggles, but the team is still a long way from being a finished machine. On the contrary, it is, without doubt, the greenest material that the

from which to mold his eleven. Paul Tobin, the only member of last eason's conference champions, who is back in school and is eligible, has been elected to fill the vacancy in the captaincy, which Clifford Morrel was forced to relinquish when he was declared ineligible by the board. Morrel received a degree some time ago and, therefore, cannot compete under the conference rules

veteran coach has had in eleven years

No Longer Are Glants, It is the forwards that is causing the Gophers the greatest alarm. In years past the Gophers have usually been alluded to as, "the glants of the north." but this year it is a missiomer to refer to them as giants, as there are only two players who tip the beam over the 180 nark. Robertson, who is dilling in at center, weighs 199 pounds, while Rosen thal at right guard will go 195 pounds At tackles, Solem and Shaughnessy have nade a fair showing. Solem formerly played an end on one of the Twin City High school elevens, and is green at the tackle position. He is a willing player, though, working hard at all times, and indoubtedly will develop into a strong linesman before the season is over. Shaughnessy is of the fast, aggressive type of linesman. His biggest handicap is lack of experience. Both Shaughnessy and Solem are apt pupils when it comes to throwing or receiving the forward pass.

The guard positions have been the weakest places on the Gopher line. Dr. Williams has tried out some dozen can didates to date, but has not yet bere gamehog, whose limit is the emptiness of the squad late, but made a favorable impression in the Ames contest. He is likely to play the right guard in the Nein the union for the hunting of ducks braska contest. Sawyer and Idhle are and chicken, is no slaughtering ground, the most promising players for left guard. Raymond and Alsworth have been on sometimes seem to restrict the hunter, the wing positions most of the time since ing practice. Neither man
