GRAIN AND PRODUCE MARKET

Morning Cable on Wheat Was Much Easier and Market Steady.

Sold Oats Rather Freely-This Will Indicate Heavy Selling Market.

OMAHA, Oct. 14, 1912. The morning cable on wheat was easier and the political news less alarming. The lead the trade to the selling side at the opening. There was some talk of the closing of the Dardanelles, but a late cable did not confirm this. Domestic conditions alone independent of any foreign war scare, are bearish.

by the standparters of Iowa, who simply refuse to permit any other paper in their homes. Rates, 1 cent a word a day, \$1.25 per line per month; count six ordinary words to the line. Address Des Moines Capital, Des Moines, Ia.

	CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing

Prices on Board of Trade.

CHICAGO, Oct. 15.—Falling off in export demand today cut down the price of wheat. The close was nervous at a decline of %c to 1%c net. Decided weakness in all European markets discouraged wheat owners here and caused rather free unloading at the start. Short sellers also took a hand and there was no rally until reports came that Servia and Bulgaria would probably declare war before night. December ranged from 39%c to 34%c, with latest transactions at 9c, a decrease of %c under last night.

Fine weather and the weakness of wheat tended to ease off the corn market, December closed steady, a shade net lower at 53%465%c. Cash grades were slow. No. 2 yellow was quoted at 64 (36%c.

Outs sagged with other grain and be-

Oats sagged with other grain and because of export call most of the day was poor. December closed at 32%c. Firmness in the hog market excited great influence on provisions. The best advance was for December lard, 13%c.

The leading futures ranged as follows:

7,776 27,324 CATTLE—Receipts of cattle were very liberal again today, 372 cars being re-ported in. While this is decidedly smaller than yesterday, it was very liberal for a Tuesday, making the total run for the two days this week 24,000 head. This is about the same or slightly smaller than for the corresponding period last week and larger than a year ago by 2,000 head

and larger than a year ago by \$.000 head or more.

Stock cattle and feeders were the first to sell. It would appear that the country realized that the range season is well advanced and that the time to buy cattle is when the runs are large. As a result there were a good many country buyers in both yeaterday and today and they bought so freeely that in spite of the large run the market both days was active, with the best grades of cattle fully steady. Common cattle were as a matter of course more or less neglected and weak to lower. There were, however, a great many medium to pretty decent cattle that were also a little slow, with cattle that were also a little slow, with prices only steady or barely steady. Takprices and weak to lower. There were, however, a great many medium to pretty decent cattle that were also a little slow, with prices only steady or barely steady. Taking the market as a whole, however, the feeders sold very freely and at prices entirely satisfactory to the selling interests. The fact that the heavy runs this 35 V

Kendrick-Mont. 5 steers ...112 6 50 6 steers ...1170 6 20 5 steers ...1255 6 30 19 steers ...1240 6 30 HOGS-It was a case of sellers trying to get at least steady prices on the hog market and most of the buyers persisting in setting their hogs as cheap as possible. Sellers were forced to let go bulk of the offerings about 5@10c below the general market yesterday. There may have been a little trade at the opening at steady prices on the part of shippers and speculators, but business done on packing account was indifferent and slow. As of late the pucker buyers were the chief factors in the trade, taking almost all the holdings out of first hands. Towards the close of the supply of hogs unsold was apparently not large enough to meet the needs of the ouyers who had not at that time satisfied their requirements. Packarising their requirements. Packers filled a few orders at the close only a nickel lower than the general run of prices yesterday. Most of the hogs sold around \$8.7598.55, with a top of \$8.95 being paid for the best hogs on the market. The shipping demand was very light and the speculators considering the trade extremely uncertain early in the market. extremely uncertain early in the morning

A very fair run arrived, in the neigh-borhood of 105 cars, or 7,100 head were yarded as compared with 4,537 head a week ago and 3.797 head on the corresponding day last year. The general quality was much better than yesterday, although the supply of really choice hogs

was very small. Ar. Sh. Pr. .243 217 296 .268 .184 100

SHEEP — Yesterday's comparatively small run of sheep and lambs for this time of the year was followed by a similar supply this morning, as only about 106 loads or 28,500 head were reported in as against 42,222 last Tuesday, 47,692 two weeks ago and 57,626 on the same day a year ago. With limited receipts and still further improvement in the general trade on other markets, local buyers showed considerable activity in going after everything at all desirable in the killing line. As on yesterday, the majority of the offerings was of rather common quality, there being, however, several loads of very good stuff on sale. The great part of today's supply of both sheep and lambs sold readily at prices fully 105915c higher, a complete clearance theing made in very good season. A three car string of lat lambs with 200 head 14,781

ing the market as a whole, however, the feeders sold very freely and at prices entirely satisfactory to the selling interests. The fact that the heavy runs this week have not broken the market to any appreciable extent would indicate that buyers want the cattle and are willing to pay current prices for them.

Beef steers started out rather slow and dull, and that was also true of cows and helfers. The feeder trade seemed to attract the most attention at the beginning and packers were inclined to hold back until at least a part of the feeders had been moved out of the way before trying to do very much. Thus the market on all kinds of killing cattle was slow and weak in opening, although the strictly good cattle were generally picked up in good season in the morning at steady prices.
